

JICA NEWSLETTER Vol.5

for JICA scholarship Program Participants

Will you utilize JICA schemes in your country?

JICA uses an array of development assistance schemes to meet the diverse needs of developing countries around the world. Even after returning to your home country, you can collaborate with JICA Overseas Offices and contribute to your country by making the best use of your specialty. For this time, we would like to introduce some of the schemes.

Public-Private Partnerships

[Click here to see more detail](#)

JICA's efforts that promote public-private partnerships are focused primarily on, as previously mentioned, cooperation aimed at improving the business environment in developing countries and the support infrastructure development and improvement of public services through PPP (Public-Private Partnership) in which government and private sector share responsibilities.

Example Case / Interviewed Former Participant

Tsuji Plastic Co., Ltd., located in Shiga Prefecture, began selling products in 2021 in Niger and in Senegal. This has been gathering attention from the Ministry of Education of Niger as groundbreaking project.

PROJECT IS GOING WELL

After my post graduate internship at Tsuji Plastics, I came back to Niger with the idea to keep in touch with the company. And the company really helped and is still helping and following all the activities I am doing in my country. Currently, we are handling Solar lantern (lamp) and CAPOSOL charging systems.

What was your first impression of Japan?

Japanese people **impressed me with their politeness and patience**. Everyone wants to help us if we have a problem, regardless of language barrier.

What are you looking forward to do in Japan?

I am excited to travel around Tokyo because there are so many interesting places to explore. For instance, the first thing I want to do is go to the beach and swim in the sea. This is because there is no sea in Kirghiz.

Message to everyone!

Along with the studying, you will **broaden your horizons by exploring new cultures, places, and people**. Best of wishes!!!

Japanese Culture - にほんのぶんか -

② Japanese Proverbs "Kotowaza"

良い花は後から / Yoihanna wa atokara

It means " **Beautiful flower blooms later**." It's not a big deal to jump to something in the immediate future, but something really good will appear later. Don't be rushed and be patient, the best things will come to you eventually!
