

The Project for Improvement of Urban Transport System in Maputo

Project Outline

- **Duration:** 2022 ~ 2025
- **Sector:** Transportation
- **Name of Counterpart Institution:** Maputo Municipal Council (CMM)
- **Type of ODA:** Technical Cooperation
- **Total Cost:** 3.95 mil JPY
- **Project Overview:** This project aims to improve the urban public transport service in Maputo to promoting the use of urban public transport in Maputo city and Maputo metropolitan area.

Development Issues / Background

- The population of Maputo metropolitan area which is covered by Maputo city, together with Matola city, Boane district and Maracuene district is rapidly increasing and exceeds 2.6 million. Meanwhile, the public transportation issue is becoming more serious.
- To improve the urban transport service in Maputo, this project aims to update the Master Plan 2014 elaborated by JICA, and includes the capacity development for bus service operators and regulators, and the enhancement of transit-oriented development (TOD).

Expected Impact on the Transportation Sector

- The Comprehensive Urban Transport Master Plan for the Greater Maputo (2014) is reviewed and utilized.
- The capacity of public bus operators and regulators for bus operations and management is enhanced.
- The urban development controls and incentives toward the transit-oriented development (TOD).
