Welcome Message

It's our great pleasure to welcome you to Tsukuba Center (JICA Tsukuba)!

JICA Tsukuba is an international community where participants with different languages, cultures, and customs gather. It is an ideal place for exchanging opinions and mutual understanding through face-to-face and heart-to-heart communication.

JICA Tsukuba is located in Tsukuba Science City and offers a wide variety of Knowledge Co-Creation Programs (KCCPs) in collaboration with the research institutions in the city. KCCPs of JICA Tsukuba cover diverse fields such as agriculture, rural development, education, climate change, and disaster prevention in response to the needs of developing countries. So far, we have received more than 20,000 participants from more than 120 countries in Asia, Africa, Latin America, Middle East, Eastern Europe, and Oceania.

We sincerely hope that you deepen your knowledge and enhance capacity through the program. Also, we do hope that you enjoy your stay in Japan, taking advantages of various opportunities to understand different cultures, and cultivating friendship with our people as well as with other participants.

This guide is to introduce our facilities and services of JICA Tsukuba with necessary information to make your stay as safe and fruitful as possible. It also contains rules and regulations including JICA Policies. To make this international community comfortable for everyone, we would like to ask for your cooperation.

6 Important JICA Policies

The followings are the important JICA policies for the Knowledge and Co-Creation Program (KCCP) JICA participants. They are also mentioned in the KCCP application form and KENSHU-IN Guidebook.

6.1 Copyright

The participants are requested to comply with the followings:

1. The participants shall use all the documents provided for the KCCP (including texts, materials, etc.), within the scopes and/or conditions separately approved by JICA and/or the Original Author.

The participants shall also comply with Terms of Use of the Materials for the KCCP that are shown on the JICA website:

https://www.jica.go.jp/english/our work/types of assistance/tech/acceptance/training/index.html

- 2. All the documents prepared for the KCCP (including reports, action plans, presentations, etc.) shall be prepared by the participants themselves in principle. If the participants use any third party's(ies') works (photograph, illustration, map, figures, etc.), which are protected under the copyright laws and regulations in the participants' countries or copyright-related multinational agreements, the participants shall obtain a license necessary to use the works from such third party(ies).
- 3. The participants agree that JICA may use (including, but not limited to, reproduce, publicly transmit, distribute and modify) any documents prepared by the participants for other programs conducted by JICA (for example, as a reference for the other KCCP courses and a project formulation).
- 4. JICA will not be liable for the contents of any documents created by the participants for the purpose of the KCCP.

JICA participants are required to pay particular attention to the following items.

- (1) Anyone caught downloading pirated music or images will face up to two years in prison, a maximum fine of 2 million Yen (approx. 25,500 dollars) or both.
- (2) Copying discs with copy-protection or ripping them to a hard drive is illegal.
- (3) Using of any software or device that avoids a disc's protection methods is also illegal.
- (4) Making copy of movie and video game become illegal in Japan even if for the purpose of personal use

6.2 Portrait Right

During the implementation period of KCCP, JICA (including hired photographer and program implementing partners) will shoot photographs and video footage mainly for the following purposes:

- Use on the website or in SNS administrated/operated by JICA,
- Use in JICA publications (public relations magazines, annual reports, journals, etc.) in

printed or electronic form,

*Photos and images taken will not be used for commercial purposes and the participants' personal information will not be disclosed to any third party without the consent of the participants.

JICA would appreciate it if the participants of KCCP grant the participants themselves portrait right license to JICA for photos and images taken described above.

It is, however, not a requirement of KCCP. The participants do not agree to grant the participants themselves portrait right license to JICA, has absolutely no problem in participating KCCP. JICA respects the intention of each participant.

6.3 Sexual Harassment

(1) What is sexual harassment?

Sexual harassment is defined as any unwanted comment or action of a sexual nature which makes others feel uncomfortable, regardless of whether these comments or actions are directed at the recipient. Basically, even though unintended, whenever someone feels himself/herself to be harassed, such comments or actions may constitute sexual harassment. The point is how the recipient feels, not what the intention of the offender is. It is important, to avoid sexual harassment, to express your feelings and to understand the feelings of others. We all must be aware that every participant has a different social and cultural background. The way we respond to language and behavior relating to sex varies between individuals, between sexes, and across cultures.

JICA strongly disapproves of such behavior in any form."

The following highlights how to avoid being a victim or a harasser.

(2) Don't be a victim.

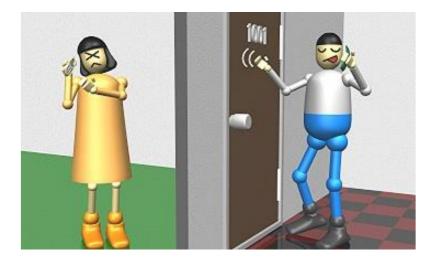

In case you feel you have been harassed, what you can do first is to tell the harasser directly and clearly "No", that you find the comments and the behavior uncomfortable and wish it to stop.

- 1) You do not have to suffer in silence. Consider asking people you trust for help or contact JICA through a JICA staff or coordinator anytime. If you do not feel comfortable with the idea of consulting such people on your own, you can do it through a colleague or ask a colleague to accompany you.
- 2) Keep a record of the incident. Write down who, what, when, where and how the harassing occurred. If there was a witness, ask him/her for their help in giving evidence.
- 3) If you witness acts of sexual harassment, do not overlook them just because you are not involved. Keep in mind that there are some people whose position makes it difficult for them to stand up to sexual harassment.
- 4) If you notice someone being harassed, be courageous and offer help, warn the offender, offer to be a witness or to accompany him/her to visit a JICA staff or coordinator.
- 5) If someone tells you that he/she has been harassed, you are kindly requested to try your best to support him/her. It is important not to accuse the victim and not to take any hasty

action without the victim's permission.

If you, as a JICA participant, suffer sexual harassment,

- 6) JICA will do its best to listen to your complaint, offer advice if necessary, and take measures to solve the problem appropriately and quickly.
- 7) JICA will promptly investigate each complaint of sexual harassment against JICA participants to determine whether harassment has occurred.
- 8) If a JICA participant is alleged to have committed sexual harassment and the facts are revealed, JICA will order the participant to leave his/her program and to return to his/her country immediately. JICA will also report the case to the government of the participant's home country.
- 9) The police may arrest him/her, and he/she will be dealt with under Japanese law, then he/she must pay reparations to the victim.

(3) Examples of sexual harassment

The following are examples of comments and actions considered to be forms of sexual harassment in Japan. It should be remembered, however, that the following acts might be not recognized as sexual harassment in other countries.

- 1) <u>Comments of a sexual nature</u>
- ① Comments based on an interest in or desire for sexual activity:
 - a) Talking about physical features, such as asking a woman what her bust-waist-hip sizes are.
 - b) Exchange of vulgar jokes.
 - c) Asking a woman who does not feel well if she's having her period, experiencing menopause, etc.
 - d) Asking questions about one's sexual experience or sex life.
 - e) Spreading sexual gossip or teasing in a sexual manner.
- ②Comments that use gender to discriminate:
 - a) Making such comments as "For a man, you have no guts", "I can't trust a woman to do this job" or "A women's job is to beautify the workplace with her presence".
 - b) Use of condescending terms such as "boy", "girl", "missy", "old man" and "old

woman", etc.

- 2) Action of a sexual nature
- ① Actions based on an interest in or desire for sexual activity:
 - a) Display of pornographic material (such as posters of nude men or women), display of pornographic images on a personal computer, etc.
 - b) Purposely showing or reading aloud pornographic magazines or other material.
 - c) Staring at another person's body.
 - d) Persistently asking another for a date, to dine together, etc.
 - e) Making phone calls or sending letters/e-mail of a sexual nature.
 - f) Unnecessarily touching the body of another (It should be remembered that, although greetings such as kisses, hugs, and putting a hand on the shoulder are normal in some countries, they might be taken as sexual harassment in Japan.)
 - g) Peeking into a bathroom, a changing room, etc.
 - h) Insistence on a sexual relationship with another.
- 2 Actions that use gender to discriminate:
 - a) Forcing only men/women to perform certain duties, such as serving tea, cleaning, and running errands.
 - b) Insistence on singing a duet with another at a karaoke party.
 - c)Insistence on sitting next to a person of the opposite gender at a party; insistence on having him/her serve drinks; insistence on dancing with him/her, etc.

6.4 Drug Abuse

"Possessing, selling, buying or using the following drugs is legally prohibited in Japan (maximum 10 years of imprisonment):

- Marijuana,
- Stimulant drugs,
- Heroin,
- Cocaine,
- MDMA,
- Dangerous drugs,
- Organic solvents, etc."

6.5 JICA Environmental Policy

(Translation from the original version in Japanese)

1. Basic Concept

The greatest responsibility of humanity is to provide a rich and diverse global environment for the future generations.

The increasing scale and diversity of man's activities have resulted in several serious environmental issues, such as global warming, depletion of the ozone layer, air and waste pollution, soil contamination, deforestation, and desertification—all of which risk the future of humanity.

Japan International Cooperation Agency (hereinafter referred to as JICA) is determined to protect our global environment that is extremely vital for the survival of mankind and natural life on earth. It also seeks the balance among environmental conservation, social prosperity, and sustainable development.

2. Basic Policy Guidelines

As stated in the "Law on General Rules of Japan International Cooperation Agency," JICA's mission is to "contribute to the promotion of international cooperation and to the sound development of Japan and the international socio-economy by contributing to the development or reconstruction of the economy and society, or economic stability of overseas regions which are in the developing stage," particularly to global environmental protection in compliance with environmental laws and regulations. Furthermore, in order to prevent and reduce negative environmental impacts that result from JICA's activities, JICA will utilize an environmental management system and shall work continuously to improve it. The system will be based on the following policies:

(1) Promotion of environmental measures through international cooperation activities

Based on the Japanese government's Official Development Assistance (ODA) policies, JICA will promote cooperation activities for the protection and improvement of the environment. JICA will continue to:

- Promote international cooperation and projects that contribute to environmental protection in developing countries; and
- Mitigate any adverse environmental impacts of development programs and projects in accordance with the guidelines for environmental and social considerations.

(2) Promotion of activities for general environmental awareness

With the aim of raising public awareness, JICA collects information about environmental issues. JICA will continue to:

- Carry out promotional and educational activities by introducing JICA's programs on environmental issues.
- Conduct surveys and research on environmental issues, and develop relevant

proposals; and

 Implement continuous training through seminars and guidance programs for JICA all employees and personnel engaged in JICA's activities.

(3) Promotion of environmentally friendly activities within JICA offices and other JICA facilities

JICA promotes environmental programs to reduce any negative impacts caused by its activities at offices and other facilities. JICA will continue to:

- Promote waste reduction, resource and energy conservation, recycling; and
- Procure environmentally friendly products based on the "Law on Promoting Green Purchasing" and other relevant laws and regulations.

(4) Compliance with environmental laws and regulations

JICA will consistently adhere to relevant environmental laws and regulations. This Environmental Policy will be communicated to all employees and personnel who work in or on behalf of JICA and be publicized.

> 1st October,2015 President of Japan International Cooperation Agency
