Misinformation

### Changes in privacy regulations are approaching that may affect your data management.

In 2024, the US is likely to see legislative changes focusing on comprehensive data privacy, including the potential for a federal privacy law, stricter regulations on AI and digital advertising, enhanced consumer data protection in Texas, Montana and Oregon. Key regulated areas are healthcare data, biometric data and children protection.

### Polish-Ukraine border completely blocked by protesting farmers.

On February 20th, as part of a 30-day general strike, farmers will completely block all border points between Poland and Ukraine. It also includes communication nodes and railway stations where loading of cargo is carried out.
