

The Project for Strengthening Capacity for Maintenance of Roads and Bridges
Project News (July, 2015)

Preparation of 'Bridge Maintenance Manual'

The MPWT officers and JICA experts are preparing 'Bridge maintenance manual' (Fig.1). This manual is intended to guide the inspection of bridges and it will be prepared for the first in Cambodia. This manual will have been developed based on site investigation (Fig.2).

Fig.1 State of the bridge maintenance manual

Fig.2 Site bridge investigation

'Bridge Maintenance Manual' will be provided as following (Fig.3).;

- *Objective of the bridges inspection
- *Organization for bridge Maintenance
- *Key points for bridge inspection

We also visited some offices of 'Department of Public Work and Transportation (DPWT) for hearing the state of inspection (Fig.4).

The Bridges must be very well maintained for Cambodia economy. We hope that this manual contribute maintain of the bridge in Cambodia.
