DOA Details

Organisation mission and objectives

As the United Nations lead agency on international development, UNDP works in 170 countries and territories to eradicate poverty and reduce inequality. We help countries to develop policies, leadership skills, partnering abilities, institutional capabilities, and to build resilience to achieve the Sustainable Development Goals. Our work is concentrated in three focus areas; sustainable development, democratic governance and peacebuilding, and climate and disaster resilience. UNDP's mandate is to end poverty, build democratic governance, rule of law, and inclusive institutions. We advocate for change and connect countries to knowledge, experience and resources to help people build a better life.

**Assignment
context**

The National Strategic Development Plan 2011-2030 (SDP) of Timor-Leste launched in 2011 stresses the need to diversify its economy through developing non-oil based economic sectors. The current economic structure with high level of reliance on petroleum sector and its fund has led to the inability of Timorese economy to absorb young and local low skilled-labors; in particular, the rural population and women, which are considered as marginalized and least participating in the economic growth of the country. The SDP also prioritizes development of rural communities in which 70% of population resides. Timor-Leste has embraced the SDGs and aligned the National Indicators and priorities. UNDP plays an important role of advocacy and provides manifold policy advice and technical assistance. Communicating results and the impact of our work is an integral part of engaging beneficiaries, stakeholders and donors. The UNDP Strategic Plan 2022-2025 describes how UNDP intends to work together with our partners to deliver what is required of us in these extraordinary times. This bold, ambitious Plan is structured around "3x6x3" – 3 directions of change, 6 signature solutions and 3 enablers – a clear framework for where we need to head. Over the next four years, we will work with countries to expand people's choices for a fairer, sustainable future. Helping to get us back on track to deliver on the SDGs. "The Project for Promoting Green Transformation in the Pacific Region towards Net-zero and Climate-resilient Development" funded by the Government of Japan will promote clean energy and climate resilience in Timor-Leste, which is facing socio-economic challenges from the spread of COVID-19 and the climate crisis. In addition, the Community Infrastructure for Resilience Project " funded by the Government of Japan is to build basic infrastructure for local communities in the area of health, education, agriculture, water and sanitation, with short-term employment of the communities who are vulnerable to climate change and have limited employment opportunities. It will contribute to improving access to basic human needs, reducing the risks associated with climate change for the communities. Since 1999, UNDP Timor-Leste has been providing development assistance in cooperation with the Government of Japan. Recently, the COVID-Resilient Elections in Timor-Leste (CORE-TL) Project, funded by the Government of Japan, has been implemented by UNDP to support the government of Timor-Leste to conduct the COVID-safe, informative and inclusive election in 2021 to 2023. Furthermore, UNDP with financial support from the Government of Japan launches projects in the environmental sector in Timor-Leste to be better able to manage natural resources and achieve enhanced resilience to climate change impacts, natural and human-induced hazards and environmental degradation, inclusively and sustainably. JICA focuses on three areas in support of Timor-Leste: (1) infrastructure development, (2) industrial promotion, and (3) social service delivery which includes capacity building for governmental officials. It supports basic socioeconomic infrastructure with the aim of shifting away from heavy dependence on oil and natural gas. For the successful implementation of the projects' activities, UNDP is looking for a Monitoring and Evaluation Specialist to assist and strengthen the projects' implementation in line with projects' results and frameworks.

The UNDP office uses a Result-based management tool for monitoring and managing the implementation of projects. Under the direct supervision of Head of Unit for Climate Change and Environment and Project Managers the Monitoring and Evaluation Specialist is expected to conduct monitoring and evaluation of the projects implementation which is in line with the strategies of the Japanese Government and JICA at the field level. The expected activities (TOR) the UNV Monitoring and Evaluation Specialist include:

- Develop the monitoring and evaluation plan for the projects in cooperation with the project team
- Establish the required monitoring and evaluation systems and tools to track, monitor and evaluate the progress and results of the projects
- Prepare regular reports (annual, quarterly, etc.) and any other documents (concept notes etc.) of the project as required by the donor and the Government of Timor-Leste
- Conduct the data collection, analysis and evaluation to measure the short and long-term impact of the project

Task description Support the Country Office Monitoring and Evaluation Team in collecting and analysing the data, and preparing the reports including, but not limited to, ROAR (Results Oriented Annual Reporting), etc Furthermore, UN Volunteers are required to:

- Strengthen their knowledge and understanding of the concept of volunteerism by reading relevant UNV and external publications and take active part in UNV activities (for instance in events that mark International Volunteer Day);
- Be acquainted with and build on traditional and/or local forms of volunteerism in the host country;
- Reflect on the type and quality of voluntary action that they are undertaking, including participation in ongoing reflection activities;
- Contribute articles/write-ups on field experiences and submit them for UNV publications/websites, newsletters, press releases, etc.;
- Assist with the UNV Buddy Programme for newly-arrived UN Volunteers;
- Promote or advise local groups in the use of online volunteering, or encourage relevant local individuals and organizations to use the UNV Online Volunteering service whenever technically possible.

Other information

Living conditions and other remarks

Climate: The climate along the coast is relatively warm hot year-round with an annual average temperature of 30°C. There are two distinct seasons: the north-east monsoon season, which runs from November to March, constitutes the rainy season throughout the country. The southeast monsoon season, which runs from March to October, constitutes the dry season with some rain on the southern coast but otherwise dry and windy conditions in the rest of the country. The climate inland with its high mountains can be very cold with an annual average temperature of 15°C. Health: Public hospital and private clinic provide services to community. Stamford clinic in Dili serves as a recommended medical facility for UN staff. There is a national hospital with some international staff and a limited number of other private clinics in Dili (such as Dili Medical Centre). For more complex medical treatment and assessment, it is necessary to evacuate to neighboring cities/countries such as Darwin or Singapore. Diet, Food and Water: Most staple foods can be found in the markets such as rice, meat, vegetables, cooking oil, salt and sugar. There is a variety of food ranging from Western to Southeast Asian fare. You can also find several local restaurants with less expensive meals. The price range for a meal can range from \$3 to \$14+. Telecommunications: There are three telecommunication providers in country, Timor Telecom and Telcomcel and Telemor. The SIM cards cost \$2-3 and pre-paid/pulsa cards range from \$1 to \$50. Further, depending on UN Agency, you may receive a PIN code to make international phone calls that will be charged to your VLA. Hotels: The UNV Field unit in Dili will help arrange your initial accommodation in a hotel, at your expense.
