Area

Medical, IoT, Agri-Food, Energy, Environment, Education, Digital, Financial Inclusion

CASE STUDY

The logo for MediBuddy, featuring a stylized red and blue icon of a person and the text "MediBuddy" in a sans-serif font.

Medi Buddy

Medical

MediBuddy (DocsApp) is a smartphone application that removes barriers to patient-doctor consultations in India such as geography time. Patients can consult with a doctor and share medical reports or photographs over a secure platform in the comfort of their homes.

Biomoneta

Medical

Biomoneta protects people from airborne infections caused by viruses, fungi and bacteria. "ZeBox" devices can be used in stationary and mobile indoor environments (hospitals, clinics, labs, ambulances, labs, homes, hotels, offices, etc.).

CASE STUDY

BigHaat

Big Haat

Agri/Food

India's largest Agri Inputs Marketplace Platform providing Agricultural Machinery, Agriculture Equipment, Agricultural Products, Poultry Equipment, Chemical Pesticides, Organic Insecticides, etc. Our clientele includes Farmers, Nurseries, FPOs, NGOs and other Institutional Growers.

Gourmet Garden

Gourmet Garden

Agri/Food

Gourmet Garden is an end-to-end play (farm->supply chain->brand->platform) in fresh produce and food essentials. The direct-consumer led brand anchors on the promise of highest quality and assured safety of a wide range of fresh produce, owing to in-house patented naturoponic farming and certified organic farm network. Attempt is to fulfil the growing need-gap for distinctly better food essentials for everyday consumption, which is a USD 350bn fragmented market in India today.
