

NGO-JICA Japan Desk Cambodia

Project to Support the Improvement of Abilities to Instruct Students at Kampong Thom Provincial Teacher Training College (PTTC) in the Kingdom of Cambodia
City of Kobe, Kobe International Community Center (KICC)

Aiming to support Japanese NGOs' international cooperation activities in Cambodia and to promote cooperation between NGOs and JICA, NGO-JICA Japan Desk provides the following services.

1. Support Japanese NGOs' activities in Cambodia
2. Collaborate with NGOs to facilitate the implementation of the JICA projects including JICA Partnership Program
3. Strengthen the cooperation between Japanese NGOs and JICA
4. Provide information on the activities of NGOs and JICA

What is JICA Partnership Program (JPP)?

The JICA Partnership Program (JPP) is a technical cooperation program implemented by JICA to contribute to the social and economic development of developing countries at the grassroots level in collaboration with its partners in Japan such as NGOs, universities, local governments, and corporations.

The program was introduced in 2002 to support the implementation of projects formulated by the Japanese partners to utilize their accumulated knowledge and experience in assistance activities for developing countries.

3 types of JPP

Partner Type

Qualification: Japanese NGOs, universities, and corporations with ideally 2 or more years of experience in international cooperation.

Budget Up to 100 million yen	Selection 1-2 times/year	Implementation Period Up to 3 years
--	------------------------------------	---

Support Type

Qualification: Japanese NGOs, universities, and corporations active domestically or internationally for 2 or more years yet without much experience in international cooperation.

Budget Up to 10 million yen	Selection 1-2 times/year	Implementation Period Up to 3 years
---------------------------------------	------------------------------------	---

Local Government Type

Qualification: Local governments ("The project activities may be implemented by the local organizations such as NGOs recommended by the local governments.")

Budget Up to 60 million yen	Selection 1-2 times/year	Implementation Period Up to 3 years
---------------------------------------	------------------------------------	---

78 projects (37 Partner-type, 12 Support-type, and 29 Community-Proposal-type projects) have been implemented in Cambodia under the JPP scheme since 2002.

Case 1

Partner Type

The Project on "Physical Education for All" in Cambodia
(Learning Quality Physical Education from Primary School to Upper Secondary School)

Hearts of Gold

Project Goal

Background: Since 2006, Hearts of Gold has been conducting the projects such as developing and diffusing PE curriculums and teachers' manuals of Primary and Lower Secondary Schools, developing PE curriculums of Upper Secondary Schools, and developing National Institute of Physical Education and Sport as the 4-year physical education teacher training institute from its 2-year system; however, for further integral diffusion of PE, it is required to establish the model system of conducting consistent PE.

Activities: ·Developing and implementing PE Diffusion Plan cooperating among POE and DOE in 3 target city and provinces
·Developing human resources who can develop and diffuse the new style of PE with its Diffusion Plan
·Developing a PE diffusion contents, monitoring of its usage and revising it with the suitable situation

Case 2

Support Type

Project for Supporting the Independence of Women with Disabilities through Technical Improvement of Wheelchair Maintenance / Repair and Advertising

Go! Fly! Wheelchairs

Project Goal

Background: Local NGOs have no personnel who can maintain or repair wheelchairs, leaving wheelchair users to use broken ones or live without them. In addition, local NGOs lack the human resources to publish their information on the Internet.

Activities:
·Prepare a manual for wheelchair maintenance in Khmer language.
·Hold workshops on wheelchair maintenance and train trainers at the same time.
·Create manuals for website and video creation and provide related technical guidance.

Case 3

Local Government Type

Project to Develop a Training Course and Exam System for Primary and Emergency Medical Care and to Disseminate First Aid in Cambodia

Takamatsu City, Kagawa Prefecture, TICO

Project Goal

To develop a continuous training course and examination system that fills the needs of the situation in Cambodia.

Background: In Cambodia, there are many cases of people losing their lives due to lack of proper treatment because of the lack of minimum equipment and skills related to emergency medical services (EMS). In addition, many people practice inappropriate traditional treatments.

Activities:
·Develop an EMS training program and prepare textbooks in Khmer.
·Develop an examination system and criteria for passing to train instructors.
·Develop a first aid manual for local people and organize workshops.
