事業内容 / What We Do

Gebeya builds **AI Agents** that become the operational backbone for Africa's **service and creative economy**. Three products: **Jitume AI** helps service providers look professional, get discovered, and manage bookings; **Jenga AI** lets entrepreneurs launch a branded marketplace with payments and AI matching; **Dala Studio AI** turns words into apps, games, and comics multilingual and mobile-first. Built for local workflows, Gebeya automates admin, improves customer engagement, and helps businesses grow sustainably across Africa.
