

To all the children in the world

# Let's wash hands together

**Hand washing  
can save your life**

<p><b>1</b> As a small child I was taught to wash my hands with soap many times a day</p> 	<p><b>2</b> <b>Huh?</b> When do we wash our hands?</p> 	<p><b>3</b> (1) When we return home from outside Be sure to wash your hands first when you get back home</p> <p>OK!</p> 	<p><b>4</b> (2) After using the toilet</p> 
<p><b>5</b> (3) Before meals or snacks Did you wash? Sure did! Let's eat</p> 	<p><b>6</b> <b>Huh?</b> Why do we wash our hands so much?</p> 	<p><b>7</b> Well, our hands and fingers look clean, but actually, there are tons of viruses and germs we can't see...</p> 	
<p><b>8</b> If you don't wash your hands before you eat or if you touch your face, germs get into your body via your eyes, mouth, or nose</p> 	<p><b>9</b> You can get a belly ache, or... it can even make you sick</p> 	<p><b>11</b> I was told to wash my hands with soap after caring for animals and after touching garbage</p>
