

Knowledge Co-creation Program (Group and Region Focus)

Waste Management towards Control of Marine Litter

Online Program Period:

from October 12 to November 18, 2021

How do we Manage Marine Litter?

Outline

This program is designed for officers who are in charge of marine litter management to learn about global and Japanese measures to manage marine litter.

The sessions will be held online and will include self-study and discussion with web conference.

All sessions are carried out in English.

The period of the online program is from October 12 to November 18, 2021.

Section 2	To Whom?	Job Areas and Targeted Countries	page 5
Section 3	When?	Program Period	page 6
Section 4	Where?	Place Where the Program Take Place	page 6
Section 5	How?	Program Contents and Structure	page 7-8
Section 6	How to Apply	Qualifications and Procedures	page 9-11
Section 7	Correspondence	For Enquiries and Further Information	page 12

For What?

Background

Marine litter is mainly generated from inland and has negative impacts on marine environment and industries. To promote countermeasures globally, it is important to supplement the developing countries' experience in environmental management. The aim of this Program is to further the understanding of the latest Japanese and global efforts and measures to mitigate impacts by marine litter and create action plans for their own countries.

Objectives

Through a series of lectures and online site visits, this program will further the participants' understanding of the measures adopted in Japan and globally to manage marine litter and help them identify actions their countries could undertake to address this issue.

To Whom?

Job Areas and Organizations

This program is designed for officers of administrative organizations related to waste management including marine litter (Central/Local government or related organizations).

Targeted Countries

Brazil, Dominican Republic, Egypt, El Salvador, Fiji, Indonesia, Jamaica, Marshall Islands, Mexico and Viet Nam

*Participants who have successfully completed the program will be awarded a certificate by JICA.

When?

Online Program Period
October 12 to November 18,
2021

Online Kick-off meeting

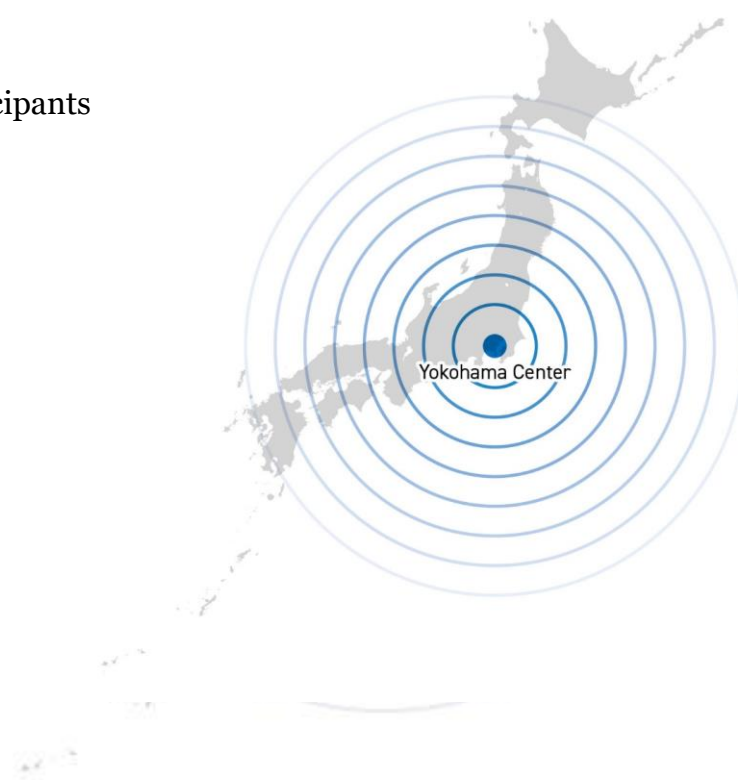

October 12, 2021

Detailed information will be
provided to the accepted participants
(Attendance is mandatory).

Where?

This program is carried out online, organized by **JICA Yokohama Center**. You will receive essential reading materials for your self-study at your office or at home. As the online homeroom and Q&A sessions are held to assist your learning process, it is required for all participants to have a certain IT environment.

For details, see page 10.

How?

How to Learn Online

- Online Self-Study
- Online Interactive Discussion / Q&A Session

Program Structure

1.

To understand international frameworks and discussion trends on marine litter management.

2.

To understand the policies, legal systems, technologies, experiences, and implementation strategies of Japan's marine litter management, which contributes to the management of land and sea-based marine litter in each country/region.

3.

To understand the roles and partnership of public and private stakeholders in tackling marine litter.

4.

To understand current methods of data collection, analysis and monitoring on marine litter.

5.

To create an action plan on management of marine litter for the participants' organization.
