Press Release

Japan International Cooperation Agency (JICA) and Cambodia-Japan Cooperation Center (CJCC) will organize a special workshop on “Necessity of Middle Management and How to Develop/Train them” on December 05, 2015 from 9:00AM at InterContinental Phnom Penh Hotel. More than 200 participants from Public and Private Organization are expected to join this workshop.

Prof. ICHIJO Kazuo from Hitotsubashi University of Japan will deliver a half-day Open Workshop on the mentioned topic. He is one of the closest research partner of Prof. NONAKA, and the author of many international best sellers on management. Currently as the dean of graduate school, he has given many lectures on the topic.

As it is considered that in Cambodia, innovation and leadership in both public and private sector, as well as human resource management are still limited, JICA and CJCC are going to conduct this special workshop to give an opportunity to officers, employers and employees from both public and private sectors to learn about innovation and strategy for leading organizations to be more effective and successful like in Japan and other developed countries.

Prior to the workshop, on December 04, 2015 at CJCC there are workshops on “Innovation and Public Leadership” and “Sustainable Business Management” for the selected participants. These workshops will be conducted by Prof. ICHIJO Kazuo and Dr. KAWADA Hideki who are also one of the prominent researchers from Hitotsubashi University.

In this special occasion JICA and CJCC would like to invite journalists from both public and private media sectors to write a news report about these workshops.
