## **General Information on**

### **Master's Degree and Internship Program of African Business Education Initiative for Youth JFY2023**

This information pertains to one of the Japan International Cooperation Agency (JICA)'s Knowledge Co-Creation Program (Long-Term).

The program will be implemented as part of the Official Development Assistance of the Government of Japan based on bilateral agreement between respective governments.

Each country may have its own schedule and/or qualifications for the program. With regard to the additional information, please contact our JICA overseas office in charge of your country.

The objective of the Knowledge Co-Creation Program (Long-Term) is to offer opportunities to people from developing countries to study at higher educational institutions in Japan and to help them build their network of people. This is intended to assist in the human resource development plans of the governments of developing countries and Japan, and eventually to expand and strengthen bilateral ties between the developing countries and Japan.

#### **JICA Knowledge Co-Creation Program (KCCP)**

The Japanese Cabinet released the Development Cooperation Charter in February 2015, which stated, "In its development cooperation, Japan has maintained the spirit of jointly creating things that suit partner countries while respecting ownership, intentions and intrinsic characteristics of the country concerned based on a field-oriented approach through dialogue and collaboration. It has also maintained the approach of building reciprocal relationships with developing countries in which both sides learn from each other.

#### **JICA Development Studies Program (JICA-DSP)**

JICA-DSP is being carried out by JICA as part of official development assistance (ODA) by the government of Japan. JICA-DSP is offered for international scholars accepted as the participants of JICA's Human Resource Development Project who are enrolled in a degree program at a Japanese university.

## 1. Background on the African Business Education Initiative for Youth

At the 5<sup>th</sup> Tokyo International Conference on African Development (TICAD V), held in Yokohama in 2013, then Prime Minister Abe Shinzo announced the “African Business Education Initiative for Youth” (hereafter referred to as the “ABE Initiative”). This is a strategic five-year plan providing 1,000 youths in Africa with opportunities to study at Japanese universities as well as to do internships at Japanese enterprises. ABE Initiative builds on the concept that there is a need for human resource development in both private and public sectors of Africa through cultivating a strong human network between Japan and Africa.

At the TICAD 7 held in Yokohama in 2019, the initiative was renewed as “ABE initiative 3.0” which would provide opportunities for 3,000 youths in Africa to study and intern in Japan over the next 6 years.

Since 2014, more than 1,400 participants from all the 54 countries have ever joined the program, and over 1, 200 participants have completed. This has resulted in establishing a wide range of human resource network of ABE Initiative participants. Furthermore, many Japanese companies and ABE Initiative participants have collaborated in various ways to promote the development of private sectors in Africa.

### (A) Selection in each country

#### (1) 1<sup>st</sup> Selection

[Necessary Actions for Applicants for this selection]

\*Applicants who desire universities/schools/courses where the 3<sup>rd</sup> Selection is not implemented can proceed to the 4<sup>th</sup> Selection.

### (B) Pre-Matching with Japanese universities (3<sup>rd</sup> Selection)

[Note]

Some universities have earlier deadlines for the 4<sup>th</sup> Selection than the rest. Such universities do not have the 3<sup>rd</sup> Selection, and applicants of such universities can proceed straight to the 4<sup>th</sup> Selection after the 2<sup>nd</sup> Selection. See the 'University Information' for more information regarding applicable universities. Details will be explained by the JICA office in your country.

(3) 3<sup>rd</sup> Selection (if applicable)

Period	December 2022 - January 2023
Contents	Document screening by Japanese universities (mainly “Research Plan” of the JICA’s Application Documents, the Undergraduate degree graduation certificate, and Academic transcript)
Objectives	To match applicants with university courses/supervisors
Selection	JICA will send JICA’s Application Documents to the applicants’ desired universities (from first choice to third choice). Universities will examine the documents to check if the applicant’s field of study and research plan are matched with the courses/supervisors.
Result	The applicants who pass this selection can proceed on to the 4 <sup>th</sup> Selection. JICA will inform of these applicants of the name of university where the applicant can apply. The applicants then need to check and prepare university’s application documents and submit them directly to the university.

**(C) Selection by Japanese universities (4<sup>th</sup> Selection)**

(4) 4<sup>th</sup> Selection (Final Selection)

[Necessary Actions for Applicants for this selection]

Each applicant needs to check the necessary application documents set by the desired university. Then, he/she needs to submit the application documents directly to the university by the deadline set by the university.

During this selection process, each applicant may be interviewed depending on the university’s selection process.

Selection	Universities will screen the applicants through submitted university’s application documents and interviews.
Result	The applicants who pass this selection (and JICA adjustment if necessary) will be selected as successful candidates of the program.

[NOTES]

JICA adjustment: JICA may adjust the number of candidates after the 4<sup>th</sup> Selection based on a balance of the number of candidates from each country. Therefore, some of the applicants who pass the 4<sup>th</sup> Selection may not be selected as successful candidates of the program.

Participants would be notified of the results regarding the acceptance or rejection of participation in this program in at the end of July 2023.

(3) Approval of the Successful Candidates

Successful candidates who pass the 4<sup>th</sup> Selection (and JICA adjustment if necessary) must be officially approved as participants of the program by the Steering Committee/the respective government and JICA. The successful candidates’ status as “officially dispatched student” should be endorsed by their home countries’ governments.

[NOTES]

Applicants can be admitted to the program as either 'Regular students' or 'Research students',

depending on the university.

Regular students are full time students that have passed, and are judged to possess the academic ability equivalent to the entrance examination for the official Master's course the university of admission.

Research students are part-time students who have not yet passed, but have the academic potential to pass the entrance examination for the official Master's course of the university of admission. They will utilize their time as a research student to prepare for the entrance examination. Research students can join lectures, receive instructions from professors, and make use of university facilities. However, the period for being a research student is limited to six (6) months. Participants as research students are requested to study hard and must take official examination for the Master's course within six (6) months. If failed, they would no longer be able to continue with the program, and would have to return to their home country immediately.

There are mainly three types of universities :

1. The university only accepts applicants as 'Regular students'

If an applicant passes the 4<sup>th</sup> Selection of the above university, the applicant would be admitted as a 'Regular student'. Check the 'University Information' for details.

2. The university only accepts applicants as 'Research students'

If an applicant passes the 4<sup>th</sup> Selection of the above university, the applicant would be admitted as a 'Research student'. The applicant would need to take the official examination to become a 'Regular student' within the first 6 months of the program and if successful, would become a 'Regular' student. Check the 'University Information' for details.

3. The university accepts applicants as both 'Regular students' and 'Research students'

During either the 3<sup>rd</sup> Selection or the 4<sup>th</sup> Selection, the university would decide whether the applicant would proceed as a 'Regular student' or a 'Research student', depending on the academic ability of the applicant. Even if an applicant applies as a 'Regular student', the university may give out acceptance notification to the said applicant as a 'Research student'. Check the 'University Information' for details.
