

I live in Bahariya Oasis where many tourists leave for desert camps. I work for the NGO named Buweity Community Development Association (Gamyit el Mogtama el Mahaly fi Buweity), which is registered to the Ministry of Social Affairs and Insurance. The association runs a souvenir shop in Bahariya. There I'm mainly in charge of the management, product development and sewing instruction to the women who want to obtain handicraft skills. I make use of the traditional design of Bahariya whenever I create a new product. After learning how to embroider, the women can make the products at home.

JOCV
Ms. Yasuko Jufuku

My wish is to expand the job opportunities for women, so I do my best to cheer up the activities of our shop. Although I still have plenty of difficulty, we are all working together to make the shop a success. To reach this goal I make a point of discussing shop management with all the staff. When you come to Bahariya, please come to see our products. It is such a beautiful place with amazing deserts and abundant hot springs!

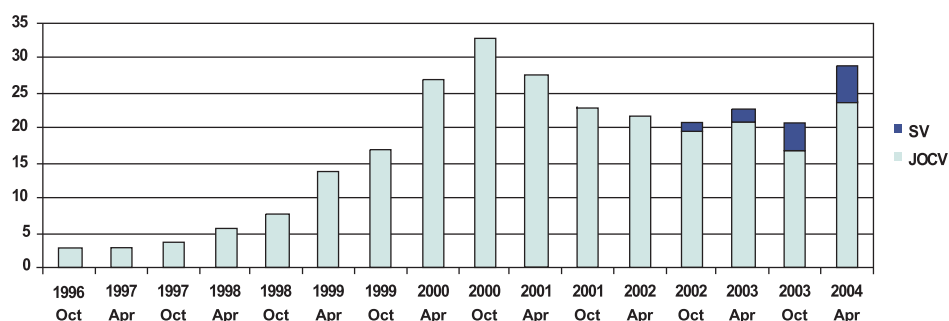

SV
Mr. Tatsumasa Yamamoto

My activities so far are holding seminars for Judo instructors, instruction at Judo clubs, and inspection of promotion tests and Judo tournaments. I'm working together with Mr. Helmy, who has 7th dan and works as the head-coach of all the Judo coaches in Egypt. He is not only a highly skilled Judo expert, but also a respected person.

Egypt has more than 40 years history in Judo with the experience of winning a silver medal at LA Olympics and has a decent number of skillful instructors. Now in Egypt there are 106 Judo clubs and more than 20,000 Judo practitioners. Judo is one of the hottest sports in Egypt and in September 2005, the Judo World Championship is going to be held here. I'd like to vitalize Judo in Egypt more, putting emphasis on instruction to juveniles and the establishment of a Judo department in the Women's College of Physical Education.

I have two small children. Every Egyptian cares for them and treats them very kindly. In return, I'd like to contribute through Judo to sound development of the juveniles who are responsible for the future of this country.
