

Financial Assistance Projects/Standard Indicator Reference (Broadcasting)

Development strategic objectives (*)	Mid-term objectives	Sub-targets of mid-term objectives	Types of infrastructure	Indicator examples	Policy and methods for setting indicators	Country name	Project name	FY of evaluation
3. Development of broadcasting facilities and equipment	3-1. Development of broadcasting infrastructure	3-1-1. Development of facilities and equipment at broadcasting stations	TV broadcasting equipment	Operation indicators Basic indicators TV broadcasting hours per day Total broadcasting hours of self-produced TV programs The number of self-produced TV programs Area coverage for TV viewing Supplementary indicators Total broadcasting hours of multi-language TV programs The number of multi-language TV programs	For all the operation and effect indicators except for "viewer satisfaction levels," compare before and after the project.	Afghanistan	The Project for Improvement of TV Broadcasting Equipment in Kabul	2007
				Indonesia		The Project for Improvement of Broadcasting Equipment for Television of the Republic of Indonesia (TVRI) Makassar Station	2008	
				Senegal		The Project of Reinforcement of TV broadcasting capacity of Radiodiffusion Télévision Sénégalaise (RTS)	2010	
				Tunisia		National Television Broadcasting Center Project (Japanese ODA loan)	2006	
					Myanmar	The Project for Capacity Development of Myanmar Radio and Television	2016	
		Radio broadcasting equipment	Operation indicators Basic indicators The number of radio broadcasting hours per day The number of radio programs Area coverage for radio listening Supplementary indicators The percentage of school education programs out of all radio programs broadcasted	For all the operation and effect indicators except for "listener satisfaction levels," compare before and after the project.	Tanzania	The Project for Strengthening the Radio Broadcasting for School Education by Improving the Quality of Education and Promotion of Equal Access to Education	2005	
			Effect indicators Basic indicators Listener satisfaction levels Viewer Population of TV Supplementary indicators The number of channels The literacy rate in rural areas through the nationwide broadcasting of radio education programs The vaccination rate of rural residents through the nationwide broadcasting of health information radio programs		Burkina Faso	The Project for Improvement of Equipment in the National Radio Station in Burkina Faso	2008	
		Development of radio broadcasting transmitting systems	Operation indicators Basic indicators The hours for which radio broadcasting is possible	For all the operation and effect indicators except for "listener satisfaction levels," compare before and after the project.	The Solomon Islands	The Project for the Improvement of Radio Broadcasting Network for Administration of Disaster Prevention	2010	
			Effect indicators Basic indicators The number of times emergency information was transmitted The coverage ratio of the population who can receive radio broadcasts (%) Population benefiting from radio broadcasting The radio broadcasting service area (%) The number of radio listeners		Papua New Guinea	The Project for Improvement of Equipment of the National Broadcasting Corporation	2008	
		TV transmitting stations and transmitters	3-1-2. Expansion and development of broadcasting networks	Operation indicators Basic indicators The coverage of TV reception The TV broadcasting hours	For all the operation and effect indicators, compare before and after the project.	Afghanistan	The Project for Improvement of TV Broadcasting Facilities in Kabul	2009
Effect indicators Basic indicators The number of times emergency information was transmitted The number of TV viewers The percentage of TV viewing households The number of TV programs
