

Bringing Together Partnerships and Innovations for Agricultural Cooperation

AGRI CO-CREATION HUB

Fostering Agricultural Co-creation: Three Pillars for Innovation

JICA agricultural co-creation hub is dedicated to fostering innovation, collaboration, and sustainable development in the agricultural sector.

Through three fundamental pillars, we aim to create a dynamic platform that generates agricultural technologies, cultivates skilled human resources, and supports impactful projects for agricultural advancement.

Business Matching

Connecting JICA's partner countries with agricultural companies, showcasing innovations through exhibitions and opinion exchanges.

01

Introduce & Co-create New Technologies

Developing and demonstrating cutting-edge agricultural solutions, integrated into training programs for practical application.

02

Human Resource Development

Offering specialized training to experts and JOCV, equipping them to address emerging agricultural development challenges.
