

As Ex-post evaluation of FY 2003, JBIC conducted 52 Project evaluations and 6 Thematic evaluations.

- All projects are evaluated by external evaluator
- Third-party opinions are obtained from experts in developing countries
- All evaluation results are shared with developing countries

Project evaluations are conducted with a view of analyzing and grasping the generation of project effects. Thematic evaluations are implemented in accordance with the themes relating to 7 priority areas of the Medium-Term Strategy for Overseas Economic Cooperation Operations (see p9) and, in most cases, involve a comprehensive assessment of a number of projects that extends beyond the scope of individual projects. After external evaluators conduct evaluations and ratings for all completed projects, JBIC gives feedback to developing countries and finally publishes the evaluation results with the third-party opinions obtained from experts.

Ratings have started in project evaluations of FY 2003.

In order to publish evaluation results in a more friendly way and to let people deeply understand the evaluation, JBIC began applying a four-grade rating scale to project evaluations of FY 2003: A (highly satisfactory), B (satisfactory), C (moderately satisfactory), and D (unsatisfactory). Of 52 projects evaluated in FY 2003, 20 were assigned an A grade (38%), 20 a B grade (38%), 10 a C grade (20%), and 2 a D grade (4%).

Mongolia → P.53

32 Railway Transportation Rehabilitation Project (1)(2)

Uzbekistan → P.70

48 Three Local Airports Modernization Project (1)(2)

Tunisia → P.73

51 Agricultural Sector Investment Project

Kazakhstan → P.71

49 Railway Transport Capacity Development Project

Kenya → P.74

52 Horticultural Produce Handling Facilities Project

Botswana → P.72

50 North-South Carrier Water Project

Pakistan → P.68

46 Daudkhel Fertilizer Plant Modernization Project (1)(2)

India → P.59

37 Eastern Gandak Canal Hydroelectric Project

38 Haldia Port Modernization Project

39 Upper Indravati Irrigation Project

40 Upper Kolab Irrigation Project

41 Afforestation and Pasture Development Project along Indira Gandhi Canal Area

42 Srisaillam Power Transmission System Project (1)(2)

43 Kothagudem 'A' Thermal Power Station Rehabilitation Project

44 Tuticorin Port Dredging Project

Thailand → P.21

1 Strengthening Vocational and Technical Manpower Production Program

2 Three Provincial Cities Water Supply Expansion Project, Three Southern Provincial Cities Water Supply Expansion Project

3 Telephone Network Expansion Projects and Local Cable Network Projects (total: six projects)

4 Flue Gas Desulfurization Plant for Mae Moh Power Plant Project (Unit 8-11)

Viet Nam → P.54

33 Coastal Communication System Project

Republic of Korea → P.49

28 Medical Facilities Expansion Project (2)

29 Education Facilities Expansion Project (2)(3)

30 Research Equipment Reinforcement Project

31 Livestock Feedmills Construction Project

The Philippines → P.45

24 Cavite Export Processing Zone Development Project

25 Rosario-Pugo-Baguio Road Rehabilitation Project

26 NEA/VECO Rural Electrification Project

27 Improvement in Power Grid Project

Malaysia → P.44

23 Rehabilitation of Tenom Pangi Hydropower Project

Bangladesh → P.57

36 Energy Saving, Environmental Protection and Improvement of On-Stream Factor of Ghorasal Urea Fertilizer Factory Project

Nepal → P.67

45 Kulekhani Disaster Prevention Project (2)

Sri Lanka → P.55

34 The Regional Telecommunications Development Project

35 Plantation Reform Project

In projects evaluated in FY 2003, for example, electric power projects brought benefits to approx. 24.59 million people, water supply to approx. 6.05 million, flood and erosion control to approx. 4.87 million, telecommunication to approx. 2.9 million, and irrigation to approx. 0.59 million.

Thematic evaluations

- 1 The Effectiveness of Farmer Participation in Alleviating Poverty
- 2 The Impact of Road Development on the Health of Pregnant and Parturient Women
- 3 Contribution of Infrastructure to Economic Growth and Poverty Reduction
- 4 Supporting Pollution Controls and Sustainable Environmental Monitoring
- 5 Supporting Informatization and IT
- 6 Roles of ODA Loan for Economic Growth (The Case in Korea)

Ecuador → P.69

47 Telecommunication Network Expansion Project

Indonesia → P.25

5 The Renovation of Dayeukolot Workshop Project

6 Kotapanjang Hydroelectric Power and Associated Transmission Line Project (1)(2)

7 Bili-Bili Multi-purpose Dam Project (1)(2)(3)

8 Banjarmasin Coal Fired Steam Power Plant Project

9 Bali International Airport Development Project (2)

10 The Telephone Outside Plant Maintenance Center Project (2)

11 The Bapedal Regional Monitoring Capacity Development Project

12 Radio and Television Networks Improvement Project (3)

13 Padang Area Flood Control Project (2)

14 Mt.Merapi and Mt.Semeru Volcanic Disaster Countermeasures Project (2)

15 Komerang Irrigation Project (2)

16 Agricultural Development Project (2)

17 Mulawarman University Development Project

18 Rural Electrification Project (2)

19 Road Maintenance Improvement Project (2)

20 Dr. Hasan Sadikin Hospital Improvement Project

21 Rural Areas Infrastructure Development Project (2)

22 Extension and Improvement of Telecommunications Networks in Expanded Jakarta Areas (1)(2)

- Strengthening Support for Poverty Reduction
- Developing Infrastructure for Economic Growth
- Supporting Environmental Improvement and Anti-Pollution Measures
- Addressing Global Issues
- Supporting Human Resource Development
- Supporting the Dissemination of Information Technology in Developing Countries
- Supporting Provincial Development

Due to severe acute respiratory syndrome (SARS), it was impossible to conduct a field survey for projects in China, which were not evaluated in FY 2003.
