

INTRODUCTION OF EXTERNAL EVALUATORS

All project evaluations are undertaken by external evaluators.

In order to ensure objectivity and the accountability, JBIC commissions external evaluators to conduct evaluation and rating in all the projects. On evaluation, the external evaluators consult with developing countries' governments and the executing agencies, collecting data from the beneficiaries and implement project site survey.

The table below lists the evaluators who conducted the ex-post project evaluations.

* Profiles are shown only for team leader
