ATT: Eng. Dan Amadi

**RE: THE MOMBASA PORT DEVELOPMENT PROJECT ADDENDUM REPORT NO. 2**

We refer to your letter dated 3<sup>rd</sup> March, 2014 requesting for approval to mine an additional 8.3 million cubic metres of sand from the same offshore sand borrow pit used this far for the phases II and III of the Container Modernization Project.

Considering that the mining is to be undertaken at the same location, the Authority is satisfied that the Environmental Management Plan (EMP) in the Environmental Impact Assessment Report, plus the proposed interventions contained in the addendum report shall suffice. The request has therefore been approved/granted.

The Authority will however require you to institute a consultative plan for emerging issues and a Grievance Redress Mechanism (GRM) that will ensure that emerging issues especially with the Beach Management Unit (BMU) in Kwale are effectively addressed.
