GENERAL CONDITIONS OF CERTIFICATE

1. This certificate is valid during the whole life cycle of this specific project unless henceforth revoked or suspended.
2. The Minister shall be notified of any transfer/variation/surrender of this certificate.
3. Observe all relevant national and international policies and legislation that guide this specific project throughout its life cycle.
4. Ensure safe disposal of all types of wastes (solid or liquid) in specified sites.
5. Ensure environmental sustainability by avoiding any form of pollution by using most viable management techniques.
6. Adhere to the Environmental Management Plan (EMP) and Monitoring Plan (MP) and constantly improve and update them by taking into account any new developments.
7. Constantly liaise with relevant authorities and consult stakeholders including local communities in case of any new development or changes as regards to implementation of your project plan activities.
8. Adhere to all proposed mitigation measures as specified in the Environmental Management Plan contained in the Environmental Impact Statement.
9. Abide to all national social and environmental safeguard policies and standards and strive to maintain and constantly improve standards.
10. Prepare an Emergency and Contingency plan and put in place risk and safety measures.
11. Conduct periodic Environmental Audits and facilitate monitoring by relevant authorities.
12. Design and implement an internal Environmental and Safety Policy and Awareness Programme.
13. Prepare Annual Environmental Reports and any other reports requested by competent authorities and the government.
14. Obtain all other relevant permits.

Director General,

SPECIFIC CONDITIONS TO TANZANIA ELECTRIC SUPPLY COMPANY LIMITED (TANESCO) FOR THE PROPOSED CONSTRUCTION OF THE 400KV TRANSMISSION LINE (270KM) FROM MTWARA TO SOMANGA IN MTWARA AND LINDI REGIONS

A. ENVIRONMENTAL MANAGEMENT PLAN IMPLEMENTATION

1. Ensure that, the mitigation measures are implemented accordingly as stated in the Environmental Impact Statement (EIS);
2. Ensure that a proper environmental management organization pertinent with the type of project, at both project and site level is developed and made operational to guide the implantation of the Environmental Management and Monitoring Plans for the project;
3. Maintain, liaison with the key regulatory institutions and sectors in the course of implantation and operation of the project and prompt reporting of incidents as per law;
4. Ensure establishment of proper monitoring network for all pertinent characteristics such as water quality and air quality as indicated in the Environmental Monitoring Plan;
5. Ensure that solid (including e-wastes) and liquid wastes emanating from the project implementation are managed properly;
6. Ensure that the Government through its Mandated Institutions get access to monitoring data, monitoring network facilities and are facilitated to verify any monitoring information;
7. **Ensure that, a copy of the EIS is submitted to District Environmental Management Officers in Lindi Municipality; Mtwara, Lindi and Kilwa District Councils so as to facilitate the EMP implementation and follow-up.**

B. SAFETY

8. Ensure that, Health and Safety Management Plan is approved by relevant authorities and made readily available for inspection. Among other things, a record of baseline health status for employees should be kept and regular checks made against that; should also observe the requirements of the Occupational Health and Safety Act of 2003;
9. Ensure that, proper and approved Personal Protective Equipment (PPE) are provided to the workers and are used as required by relevant Policies, Regulations and Guidelines;
10. Noise and vibrations emanating from construction and operation activities should meet minimum standards;
11. Ensure that there is an Emergency Preparedness and Response Plan for the project to guide implementation of the project;

C. DESIGN OF CRITICAL FACILITIES TO COMPLY WITH BOTH NATIONAL AND INTERNATIONAL STANDARDS

12. All facilities whose design is by Law subject to approval by a national authority should be approved by such authority and approved designs submitted to the Council for records and future reference;
13. Any changes or improvement in the design of the project made at any project stage, including abandonment, should be done in consultation with and after approval by respective authorities;

D. CORPORATE SOCIAL RESPONSIBILITY AND PUBLIC SAFETY

14. All commitments aiming at demonstrating the Company's observance of the corporate social responsibility principles should for key items be in form of Memorandum of Understanding (MoU) with relevant communities and all MoUs should be witnessed by relevant Local Government Authorities (LGAs).
15. Ensure that the Project Affected Persons (PAPs) are compensated timely, fairly and promptly prior to project implementation;
16. Ensure that communities around the project area and general public are aware and mindful of the dangers they can be exposed to by the project activities; in its regard, a communication and awareness raising strategy to the local community and the general public should be put in place and implemented throughout the life time of the project;
17. Monitoring of the environmental quality should be extended to the nearby community areas and the project buffer zone, the monitoring results should among others, be periodically communicated to the Project Affected Persons;

E. OTHER LEGAL REQUIREMENTS

18. Ensure that, legal requirements by other authorities to which the operations of this project have relevance are complied with. These include among others, the Ministry of Energy (MoM), Ministry of Water and Irrigation (MOWI) and any other authority mandated to oversee the operations of the project; and
19. Ensure to pay relevant legal fees/subscriptions to the Council in accordance with the Environmental Management (Fees and Charges) Regulations, 2019.

Note: These specific conditions and the general conditions which are printed at the back of the EIA certificate form the basis for the project approval and future monitoring and evaluation of its performance.
