ENVIRONMENTAL IMPACT STUDY (EIS) *Trunk Road Construction in El Salvador (San Miguel Bypass Road)*

VOLUME I

| | |
|---|--------|
| I. TITLE AND AUTHORS | I-1 |
| II. EXECUTIVE SUMMARY | II-1 |
| III. OVERVIEW | III-1 |
| III.1 INTRODUCTION | III-1 |
| III.1.1 Location | III-1 |
| III.1.2 Road Expansion Section | III-1 |
| III.1.3 Road Construction Section | III-1 |
| III.1.4 Methodology | III-2 |
| III.1.4.1 Reference documents and maps | III-3 |
| III.1.4.2 Field data collection | III-3 |
| III.1.4.3 Data collection and processing procedure and method | III-4 |
| <i>III.1.4.3.1. Physical aspects</i> | III-4 |
| <i>III.1.4.3.2. Biological Aspects</i> | III-5 |
| <i>III.1.4.3.3. Social and Economic Aspects</i> | III-9 |
| III.1.4.4 Project road section assessment | III-10 |
| III.1.5 Fieldwork Period | III-10 |
| III.2 PURPOSE AND NEED | III-11 |
| III.2.1 Regional importance: Puebla-Panama Plan | III-11 |
| III.2.2 Five Year Government Plan | III-12 |
| III.2.3 National Plan for Land Use and Development (PNODT) | III-13 |
| III.2.4 Traffic study | III-13 |
| III.2.5 Objectives | III-13 |
| III.2.5.1 Project General Goal | III-13 |
| III.2.5.2 Project Specific Objectives | III-13 |

| | |
|--|---------------|
| III.2.6 Project Benefits | III-13 |
| III.3. BACKGROUND | III-14 |
| III.3.1 Traffic Study | III-14 |
| IV. PROJECT DESCRIPTION AND ALTERNATIVES. | IV-1 |
| IV.1 PROJECT ALTERNATIVE ANALYSIS | IV-1 |
| IV.1.1 Selection of the Route between North and South | IV-2 |
| IV.1.2 Route Options Located North of San Miguel | IV-3 |
| IV.1.3. Selected route | IV-9 |
| IV.2 LOCATION | IV-11 |
| IV.2.1 Project Sections | IV-13 |
| V.2.2 Area to be occupied by the project | IV-13 |
| IV.3 DETAILED DESCRIPTION | IV-16 |
| IV.3.1 Intersection points with rivers and roads: tunnels, bridges and others | IV-16 |
| IV.3.2 Bridges and Structures | IV-18 |
| IV.3.3 Crossings with secondary roads | IV-23 |
| IV.3.4 Hydraulic Design | IV-26 |
| IV.3.5 Crossings with infrastructure | IV-34 |
| IV.3.6 Slope Management | IV-35 |
| IV.3.7 Materials, machinery and equipment | IV-40 |
| IV.3.7.1 oils and other chemicals | IV-42 |
| IV.3.8 Michinoeki (Rest Station) | IV-42 |
| IV.3.8.1 Description of the proposed rest station. | IV-43 |
| IV.3.9 Human Resources | IV-45 |
| IV.4 WORK SCHEDULE AND PROJECT STAGES | IV-45 |
| IV.4.1 Works Implementation Schedule | IV-45 |
| IV.4.1.1 Works general flow | IV-45 |
| IV.4.1.2 Proposed Construction Schedule | IV-46 |
| IV.4.2 Construction Stage | IV-48 |
| IV.4.2.1 Site Preparation Activities | IV-48 |
| IV.4.2.2 Construction Activities | IV-48 |

| | |
|--|--------------|
| IV.4.3 Operational Stage | IV-49 |
| IV.5 MAIN PROCESSES AND TASKS | IV-49 |
| IV.5.1 Paving Works | IV-49 |
| IV.5.2 Intersections | IV-50 |
| IV.5.3 Unforeseen Tasks | IV-50 |
| IV.5.4 Camp Buildings | IV-50 |
| IV.5.4.1 Adequate management of waste (industrial, ordinary and hazardous) | IV-51 |
| IV.5.4.2 Adequate disposal of excreta at the camp | IV-52 |
| IV.5.4.3 Closing down of camp | IV-54 |
| IV.5.5 Camps and other temporary facilities | IV-54 |
| IV.5.6 Construction and technological system | IV-54 |
| IV.6 WATER SUPPLY, EFFLUENTS, EMISSIONS AND WASTE | IV-55 |
| IV.6.1 Construction Stage | IV-55 |
| IV.6.1.1 Water supply | IV-55 |
| IV.6.1.2 Solid waste management | IV-56 |
| IV.6.1.3 Ordinary Wastewater | IV-59 |
| IV.6.1.4 Special Wastewater | IV-60 |
| IV.6.1.5 Rainwater drainage | IV-60 |
| IV.6.1.6 Removal of vegetation | IV-60 |
| IV.6.2 Operating Stage | IV-60 |
| IV.6.2.1 Water Supply | IV-61 |
| IV.6.2.2 Waste from the operating stage | IV-61 |
| IV.6.2.3 Wastewater from the operating stage | IV-61 |
| IV.7 SOCIAL EFFECTS | IV-62 |
| IV.8 DESIGN CRITERIA | IV-62 |
| IV.8.1 Technical specifications related to road design | IV-63 |
| IV.9 EARTHWORKS | IV-65 |
| IV.9.1 Aggregate and borrow pits | IV-66 |
| IV.9.2 Sand pits | IV-68 |
| IV.9.3 Disposal sites for surplus material | IV-69 |
| IV.9.4 Use of explosives | IV-70 |
| IV.9.5 Environmental considerations for borrow pits and disposal sites | IV-71 |
| IV.10 TRAFFIC CONTROL | IV-74 |
| IV.11 RIGHTS OF WAY | IV-74 |
| IV.11.1 Properties along rights of way | IV-75 |
| IV.12 SIGNAGE | IV-75 |
| IV.13 TOTAL INVESTMENT | IV-76 |
| IV.14 COMMUNICATION PROCESS | IV-76 |
| IV.14.1 Identifying Stakeholders | IV-76 |
| IV.14.2 Results of the first Public Consultation | IV-77 |
| IV.3.14 Results of the second Public Consultation | IV-78 |
| IV.4.14 Results of the Third Public Consultation | IV-79 |
| IV.15 IMPACTS ON SITES OF INTEREST | IV-82 |

| | |
|---|------|
| V. LEGAL AND ENVIRONMENTAL REGULATORY CONSIDERATIONS APPLICABLE TO AN ACTIVITY, WORK OR PROJECT | V-1 |
| V.1 NATIONAL LAWS AND REGULATIONS | V-1 |
| V.1.1 Constitution of the Republic of El Salvador, 1983 | V-1 |
| V.1.2 Environment Act | V-2 |
| V.1.3 Special Regulations on Environmental Quality Standards | V-3 |
| V.1.4 Wildlife Conservation Act | V-4 |
| V.1.5 Protected Natural Areas Act | V-4 |
| V.1.6 Forestry Act | V-5 |
| V.1.7 Land Transport, Traffic and Road Safety Act | V-6 |
| V.1.8 Urban Planning and Construction Act | V-6 |
| V.1.9 Urban Planning and Consturction Regulation | V-7 |
| V.1.10 Law on Expropriation and Occupation of Property by the State | V-7 |
| V.1.11 Law on Secondary and Minor Roads | V- 8 |
| V.1.12 Special Law on Cultural Heritage Protection and its Regulation | V-8 |
| V.1.13 Health Code | V-9 |
| V.1.14 Mining Law | V-10 |
| V.1.15 Criminal Code | V-10 |
| V.2 CITY ORDINANCES | V-12 |
| V.2.1 Ordinance for he environmental management of the City of San Miguel | V-12 |
| V.3 INTERNATIONAL TREATIES IN FORCE | V-12 |
| V.3.1 Convention on the International Commission on Environment and Development. | V-12 |
| V.3.2 Convention for the conservation of biodiversity and protection of Wilderness Areas in Central America | V-13 |
| V.3.3 Stockholm Convention on Persistent Organic Pollutants | V-13 |
| V.4 AGREEMENT | V-13 |
| V.4.1 Categorization of Activities, Projects under the Environment Law | V-13 |
| V.4.2 Procedure for Declaring and Registering Assets considered National Assets and Protected Natural Areas not registered in the name of the State, under Art. 9 of the Law on Protected Areas | V-13 |
| V.5 DOMESTIC AND REFERENCE TECHNICAL STANDARDS TO BE ENFORCED BY THE PROJECT | V-14 |
| V.5.1 Salvadoran Standard: NSO 13.49.01:09 Wastewater discharged to a receiving body, 1996 | V-14 |
| V.5.2 Salvadoran Standard: NSO 13.11.03:01 Air Emissions, Mobile Sources, 2003 | V-15 |
| V.5.3 Salvadoran Standard: NSO 13.11.02:11 Air Emissions, Stationary Point Sources, (in the process of approval) | V-16 |
| V.5.4 Noise Standard: Environmental, Health and Safety General Guidelines of the World Bank. | V-17 |
| V.5.5 Vibration Standards | V-17 |
| V.5.6 Ordinary wastewater discharge limits according to the US Code of Federal Regulations | V-19 |
| V.5.7 Central American Environmental Policy Manual for the Design, Construction and Maintenance of Roads (SIECA) | V-20 |
| V.6 LEGAL IMPACTS | V-21 |
| VI. DESCRIPTION, CHARACTERIZATION AND QUANTIFICATION OF CURRENT ENVIRONMENT AND PHYSICAL, BIOLOGICAL, AND SOCIOECONOMIC ASPECTS OF THE SITE AND DIRECT AND INDIRECT INFLUENCE AREAS | VI-1 |
| VI.1 IDENTIFICATION OF DIRECT AND INDIRECT INFLUENCE AREAS (AID AND IIA) | VI-1 |
| VI.1.1 Area of Direct Influence (DIA) | VI-1 |
| VI.1.2 Area of indirect influence (IIA) | VI-2 |
| VI.2 IDENTIFICATION OF CURRENT USE OF LAND COMPRISED WITHIN THE PROJECT LAYOUT | VI-3 |

| | |
|---|--------|
| VI.3.PHYSICAL ASPECTS | VI- 4 |
| VI.3.1 Climate | VI- 4 |
| VI.3.1.1 Rainfall | VI- 5 |
| VI.3.1.2 Temperature | VI-6 |
| VI.3.1.3 Evaporation-transpiration | VI-7 |
| VI.3.1.4 Winds | VI-8 |
| VI.3.1.5 Humidity | VI-9 |
| VI.3.1.6 Sunlight | VI- 10 |
| VI.3.2 Air Quality | VI-10 |
| VI.3.3 Noise | VI- 13 |
| VI.3.4 Vibration | VI- 16 |
| VI.3.5 Geomorphology and Relief | VI- 17 |
| VI.3.5.1 Relief and Slope Description | VI-17 |
| VI.3.5.1.1 Station 3 -0 +10 +910 | VI-18 |
| VI.3.5.1.2 Station 3 +910 to 8 +850 | VI-18 |
| VI.3.5.1.3 Station 8 +800 to 9 +000: Rio Grande crossing | VI-19 |
| VI.3.5.1.4 Station 9 +000 to 12 +950 | VI-19 |
| VI.3.5.1.5 Station 9 +100 to 9 +900 | VI-20 |
| VI.3.5.1.6 Station 13 +750 to 16 +350 | VI-21 |
| VI.3.5.1.7 Station 16 +350 to 19 +300 | VI-21 |
| VI.3.5.1.8 Station 19 +300 to 25 +0.21.522 | VI-22 |
| VI.3.5.2 Summary of Slopes and Relief | VI-22 |
| VI.3.6 Geology | VI-24 |
| VI.3.6.1 Area geomorphology | VI-25 |
| VI.3.6.2 Geology of the assessed area | VI-26 |
| VI.3.6.3 Geological Description by Sections | VI-31 |
| VI.3.6.4 Structural Geology | VI-32 |
| VI.3.6.5 General Project Geology | VI- 33 |
| VI.3.6.6 Seismicity | VI-33 |
| VI.3.4 Edaphology | VI-35 |
| VI.3.4.1 Soil Groups | VI-35 |
| VI.3.4.1.1 Reddish Clayey Latosols | VI-35 |
| VI.3.4.1.2 Grumosols | VI-37 |
| VI.3.4.1.3 Alluvial Soils | VI-38 |
| VI.3.4.1.4 Soil groups per project sections | VI-38 |
| VI.3.4.2 Soil Classification by Usability | VI-39 |
| VI.3.5 Hydrology and limnology | VI-43 |
| VI.3.5.1 Watershed: | |
| San Miguel Grande River | VI-43 |
| VI.3.5.2 Rivers and stream crossings | VI-47 |
| VI.3.5.3 Hydrogeology | VI-50 |
| VI.3.5.3.1 Impact on wells | VI-51 |
| VI.3.5.4 Water and well quality | VI-52 |
| VI.3.5.4.1 Background | VI-53 |
| VI.3.5.4.2 Design Methodology | VI-53 |
| VI.4 BIOLOGICAL ENVIRONMENT | VI-55 |
| VI.4.1 Methodology | VI-55 |
| VI.4.2 Life areas | VI-59 |
| VI.4.3 Conceptual Framework: Definition of a forest | VI-60 |
| VI.4.4 Description of ecosystems found | VI-60 |
| VI.4.5 Flora within the direct influence area | VI-61 |
| VI.4.5.1 Ecological significance of flora species | VI-65 |
| VI.4.5.2 Results of flora by sector | VI-67 |
| VI.4.5.2.1 Road expansion section | |

| | |
|---|--------|
| VI.4.5.2.2 Secondary forest | VI-69 |
| VI.4.5.2.3 Crops and grasslands | VI-70 |
| VI.4.5.2.4 Riparian forest | VI-73 |
| VI.4.5.2.5 Summary of ecosystems found | VI-75 |
| VI.4.5.3 Ecologically important species for their diameter at breast height (DBH) | VI-77 |
| VI.4.6 Ethnobotanical importance of species found | VI-78 |
| VI.4.7 Flora within the indirect influence area | VI-79 |
| VI.4.8 Fauna within the direct and indirect influence areas | VI-80 |
| VI.4.8.1 Amphibians | VI-80 |
| VI.4.8.2 Reptiles | VI-80 |
| VI.4.8.3 Birds | VI-81 |
| VI.4.8.4 Mammals | VI-82 |
| VI.4.8.5 Description per zones | VI-83 |
| VI.4.8.5.1 Expansion Section | VI-83 |
| VI.4.8.5.2 Secondary forest | VI-84 |
| VI.4.8.5.3 Gallery forest | VI-84 |
| VI.4.8.5.4 Crops and grasslands | VI-85 |
| VI.4.8.6 Fauna species reported by residents living in the area | VI-86 |
| VI.4.8.7 Bird distribution | VI-87 |
| VI.4.8.8 Ecological Significance of fauna species | VI-88 |
| VI.4.9 Project impact on sectors under analysis | VI-89 |
| VI.4.10 Areas of biological interest | VI-92 |
| VI.4.10.1 Protected natural areas | VI-92 |
| VI.4.11 Biological corridors | VI-94 |
| VI.4.12 Existing vegetation maps | VI-94 |
| VI.4.12.1 Trees to be felled and offsetting sites | VI-95 |
| VI.4.12.2 Biomass significance | VI-100 |
| VI.4.12.3 Tree density | VI-100 |
| VI.5 SOCIO-ECONOMIC, CULTURAL AND AESTHETIC ENVIRONMENT | VI-102 |
| VI.5.1 Municipalities Impacted by the Project | VI-102 |
| VI.5.1.1 Municipality of Moncagua | VI-102 |
| VI.5.1.2 Municipality of Quelepa | VI-103 |
| VI.5.1.3 Municipality of San Miguel | VI-105 |
| VI.5.2 Demographics of municipalities impacted by the project | VI-109 |
| VI.5.2.1 Population surveyed | VI-110 |
| VI.5.2.2 Kinship | VI-111 |
| VI.5.2.3 Age | VI-112 |
| VI.5.2.4 Typical characteristics of households | VI-114 |
| VI.5.2.5 Home ownership | VI-116 |
| VI.5.2.6 Structures likely to be affected | VI-116 |
| VI.5.2.7 Household equipment | VI-128 |
| VI.5.2.8 Religion | VI-129 |
| VI.5.3 Development Plans | VI-129 |
| VI.5.4 Economic characteristics | VI-130 |
| VI.5.4.1 Occupation | VI-130 |
| VI.5.4.2 Income | VI-131 |
| VI.5.4.3 Poverty in the project's influence areas | VI-132 |
| VI.5.5 Economic activities | VI-133 |
| VI.5.5.1 Production | VI-133 |
| VI.5.5.2 Technical assistance | VI-134 |
| VI.5.5.3 Sources of financing | VI-135 |
| VI.5.6 Vulnerable groups and individuals | VI-136 |
| VI.5.7 Health | VI-137 |
| VI.5.7.1 Conditions inside the house | VI-138 |
| VI.5.7.2 Domestic animals | VI-139 |
| VI.5.7.3 Health infrastructure | VI-139 |
| VI.5.8 Education | VI-140 |

| | |
|---|---------------|
| VI.5.8.1 Educational Infrastructure | VI-141 |
| VI.5.9 Institutional presence and community organization | VI-144 |
| VI.5.10 Perception of the project | VI-145 |
| VI.5.10.1 Project feedback in the area of direct influence of the project | VI-146 |
| VI.5.10.2 Positive aspects perceived by the population in the indirect influence area | VI-147 |
| VI.5.10.3 Negative aspects perceived by the population in the direct influence area..... | VI-148 |
| VI.5.11 Road Network and Transportation | VI-150 |
| VI.5.11.1 Means of transportation | VI-150 |
| VI.5.11.2 Road network | VI-151 |
| VI.5.11.3 Crossings | VI-154 |
| VI.5.11.4 Cattle passes and grazing zones | VI-156 |
| VI.5.12 Current land use | VI-156 |
| VI.5.12.1 detailed description of soil uses by section | VI-157 |
| VI.5.12.1.1 Station 0 +010 to 3 +260 | VI-157 |
| VI.5.12.1.2 Station 3 +260 to 4 +020 | VI-158 |
| VI.5.12.1.3 Station 4+020 to 8 +210 | VI-158 |
| VI.5.12.1.4 Station 8+210 to 8 +400 | VI-159 |
| VI.5.12.1.5 Station 4+550 to 5 +450 | VI-160 |
| VI.5.12.1.6 Station 9+300 to 11 +250 | VI-161 |
| VI.5.12.1.7 Station 11 +250 to 12 +450 | VI-161 |
| VI.5.12.1.8 Station 12 +450 to 13 +550 | VI-162 |
| VI.5.12.1.9 Station 13 +550 to 13 +850 | VI-163 |
| VI.5.12.1.10 Station 13 +850 to 16 +350 | VI-163 |
| VI.5.12.1.11 Station 16 +350 to 21 +800 | VI-163 |
| VI.5.12.1.12 Station 21 +800 to 22 +000 | VI-164 |
| VI.5.12.1.13 Station 22 +000 to 25 +022 | VI-165 |
| VI.5.12.1.14 Station 25 +022 | VI-166 |
| VI.5.12.2 Summary of land uses along the project path | VI-166 |
| VI.5.13 Aesthetic evaluation of landscapes in the area | VI-167 |
| VI.5.13.1 Landscape description and views by Sections | VI-168 |
| VI.5.13.2 Landscape units identified in project area | VI-169 |
| VI.5.13.3 Elements of visual compatibility | VI-171 |
| VI.5.13.4 Aesthetic/visual perception of the project | VI-171 |
| VI.5.13.5 Significant landscapes and visual resources identified | VI-172 |
| VI.5.14 Cultural Values | VI-173 |
| VI.5.14.1 Archaeological Heritage | VI-173 |
| VI.5.14.2 Property of paleontological interest | VI-174 |
| VI.5.14.3 Cultural heritage | VI-175 |
| VI.5.14.4 Other sites of interest | VI-175 |
| VII. IDENTIFICATION, PRIORITIZATION, PREDICTION AND QUANTIFICATION OF POTENTIAL ENVIRONMENTAL IMPACTS, INCLUDING ANY RISK SITUATIONS ... | VII-1 |
| VII.1 METHODOLOGY | VII-1 |
| VII.2 BREAK-DOWN OF PROJECT ACTIVITIES | VII-1 |
| VII.3 BREAK-DOWN OF ENVIRONMENTAL FACTORS..... | VII-3 |
| VII.4 CONTRASTING ACTIVITIES AND ENVIRONMENTAL FACTORS | VII-4 |
| VII.4.1 Description and quantification of potential impacts..... | |
| VII-5 ASSESSMENT AND PRIORITIZATION OF IMPACTS..... | VII-32 |
| VII.6 RISK ANALYSIS | VII-39 |
| VIII. INTERPRETATION OF THE RESULTS OF THE COST BENEFIT, PROFITABILITY AND EFFICIENCY ANALYSIS | VIII-1 |
| VIII-1 DEFINITION OF THE PROJECT TO BE EVALUATED..... | VIII-1 |
| VIII.2 PROJECT BENEFITS | VIII-1 |
| VIII.2.1 Quantified economic benefits | VIII-2 |
| VIII.2.2 Method of Comparison With and Without the Project | VIII-2 |
| VIII.2.3 Quantification of project benefits | VIII-2 |

| | |
|--|---------|
| VIII.2.3.1 Vehicle operating costs (VOC) | VIII-2 |
| VIII.2.3.2 Travel time Cost (TTC) | VIII-4 |
| VIII.2.4 Estimated economic benefits | VIII-5 |
| VIII.3 PROJECT COSTS | VIII-6 |
| VIII.3.1 Project Cost Estimation Method | VIII-6 |
| VIII.3.1.1 Economic Investment Costs | VIII-6 |
| VIII.3.1.2 Economic Maintenance Costs | VIII-7 |
| VIII.3.1.3 General | VIII-7 |
| VIII.3.2 Civil works estimation method | VIII-8 |
| VIII.3.2.1 Road construction cost | VIII-8 |
| VIII.3.2.2 Construction cost | VIII-9 |
| VIII.3.2.3 Land Acquisition and Resettlement Costs | VIII-9 |
| VIII.3.2.4 Environmental Management Cost | VIII-10 |
| VIII.3.2.5 Maintenance | VIII-10 |
| VIII.3.2.6 Engineering Services | VIII-11 |
| VIII.3.3 Project cost | VIII-11 |
| VIII.4 ECONOMIC ASSESSMENT | VIII-12 |
| VIII.4.1 Pre-Conditions for economic and cost-benefit analysis | VIII-12 |
| VIII.4.2 Evaluation results | VIII-12 |
| VIII.4.3 Sensitivity analysis | VIII-12 |
| VIII.5 INDIRECT IMPACTS (QUALITATIVE ANALYSIS) | VIII-13 |
| VIII.5.1 General | VIII-13 |
| VIII.5.2 Regional Benefits | VIII-13 |
| VIII.5.3 Impacts on the domestic and international network | VIII-14 |
| IX. ENVIRONMENTAL MANAGEMENT PROGRAM (EMP) | IX-1 |
| IX.1 DETERMINATION OF ENVIRONMENTAL MEASURES | IX-2 |
| IX.2 DESCRIPTION AND SPECIFICATIONS OF ENVIRONMENTAL MEASURES... | IX-5 |
| IX.2.1.1 Measures to be implemented during site preparation | IX-6 |
| IX.2.1.1.1 Re-forestation to compensate for felling | IX-6 |
| IX.2.1.1.2 Training to improve crops, soils and agroforestry | IX-19 |
| IX.2.1.1.3 Pedestrian crossings and road safety | IX-20 |
| IX.2.1.1.4 Temporary drains for site preparation stage | IX-23 |
| IX.2.1.1.5 Minimize impacts to the proposed protected area | IX-25 |
| IX.2.1.1.6 Signage of cattle passes | IX-26 |
| IX.2.1.1.7 Project Social and Environmental Management | IX-28 |
| IX.2.1.1.8 Wildlife protection measures in preparation of site | IX-34 |
| IX.2.1.1.9 Support to small business owners | IX-36 |
| IX.2.1.1.10 Management of effluents, wastes and residues in site preparation | IX-38 |
| IX.2.1.1.11 Prevention of health impacts during site preparation | IX-40 |
| IX.2.1.1.12 Occupational safety measures during site preparation | |
| IX.2.2 Measures during the construction phase | IX-45 |
| IX.2.2.1 Compensation for impermeabilization of areas through revegetation | IX-45 |
| IX.2.2.2 Dust control | IX-48 |
| IX.2.2.3 Slope Management | IX-50 |
| IX.2.2.4 Collection and reuse of topsoil | IX-53 |
| IX.2.2.5 Noise Reduction Measures | IX-54 |
| IX.2.2.6 Temporary drainage maintenance during construction | IX-57 |
| IX.2.2.7 Monitoring, rescue and / or salvage of cultural sites | IX-58 |
| IX.2.2.8 Timetabling, signage and training, in populated areas | IX-60 |
| IX.2.2.9 Proposed forest, soil and protected zones protection measures | IX-62 |
| IX.2.2.10 Prevention of health impacts during construction | IX-64 |
| IX.2.2.11 Maintenance of temporary roads | IX-66 |
| IX.2.2.12 Wastes, residues and affluent management during construction | IX-67 |
| IX.2.2.13 Occupational Safety measures during Construction | IX-69 |
| IX.2.2.14 Risk Prevention Plan | IX-72 |
| IX.2.3 Measures to be implement during the operational phase | IX-74 |
| IX.2.3.1 Maintenance of tree and shrub planting measures | IX-75 |

| | |
|---|--------------|
| IX.2.3.2 Integrated vegetation management | IX-76 |
| IX.2.3.3 Occupational Safety and wastes and residue management | IX-77 |
| IX.3 ENVIRONMENTAL MANAGEMENT PROGRAM SUMMARY TABLES ... | IX-82 |
| IX.3.1 SECTION 1: CA1 to CA1 (TO LA UNION) | IX-82 |
| IX.3.1.1 Environmental Management Program Summary | IX-82 |
| IX.3.1.2 Schedule of Implementation of Environmental Management Program | IX-90 |
| IX.3.1.3 Description of Monitoring and Execution summary Table | IX-95 |
| IX.3.2 SECTION 2: CA1 (TO LA UNION) TO RN17 | IX-101 |
| IX.3.2.1 Environmental Management Program Summary | IX-101 |
| IX.3.2.2 Schedule of Implementation of Environmental Management Program .. | IX-107 |
| IX.3.1.3 Summary Table of Monitoring Implementation | IX-110 |
| X. RISK STUDY AND PREVENTION AND CONTINGENCY PLAN | X-1 |
| X.1 CONCEPTUAL APPROACH | X-1 |
| X.2 THREATS THAT MIGHT IMPACT THE ROAD SECTION | X-2 |
| X.3 NATURAL HAZARDS | X-2 |
| X.3.1 Seismic hazard | X-2 |
| X.3.2 Landslide hazard | X-5 |
| X.3.3 Erosion processes | X-6 |
| X.3.4 Volcanic eruption hazard | X-6 |
| X.3.5 Flood hazard | X-7 |
| X.3.6 Socio-environmental threats | X-12 |
| X.3.7 Anthropogenic threats | X-12 |
| X.3.8 Threat summary | X-13 |
| X.4 VULNERABILITY | X-13 |
| X.4.1 Location of vulnerable zones | X-15 |
| X.5 RISK ASSESSMENT | X-16 |
| X.6 PROJECT PREVENTION PLAN | X-17 |
| X.7 POTENTIAL ACCIDENTS DURING THE CONST. AND OPER. STAGES | X-17 |

VOLUME II

X.2 PROJECT BLUEPRINTS

Blueprint Index

- P1 General street crossing blueprint EST 5 +255 and typical reinforced earth wall detail
- P2 General Blueprint of the North and South Rio Grande bridge
- P3 General blueprint of the Taishihuat river bridge and footbridge elevation and plan view

P4 Details of drain heads and drainage

- P5 Details of vertical drainage types VD-1, VD-2 and VD-3
- P6 Details for vertical drainage and type VD1, hopper type 1
- P7 Bypass Typical Section and Viaduct typical section

X.3 DETAILED EIA PLANS

VI-1/12 Topographic, structures and trees 0 +000 - 2 +700

- VI-2/12 Topographic, structures and trees 2 +700 - 4 +900
- VI-3/12 Topographic, structures and trees 4 +900 - 7 +400
- VI-4/12 Topographic, structures and trees 7 +400 - 9 +800
- VI-5/12 Topographic, structures and trees 9 +800 - 12 +000
- VI-6/12 Topographic, structures and trees 12 +000 - 13 +800
- VI-7/12 Topographic, structures and trees 13 +800 - 15 +000
- VI-8/12 Topographic, structures and trees 15 +000 - 16 +500
- VI-9/12 Topographic, structures and trees 16 +500 - 19 +200
- VI-10/12 Topographic, structures and trees 19 +200 - 21 +500
- VI-11/12 Topographic, structures and trees 21 +500 - 23 +300
- VI-12/12 Topographic, structures and trees 23 +300 - 25 +021

X.4 EIS DETAILED PLANS

- VI-1/19 Project Plan and Side Views and and Environmental Measures Section 0+000 – 1+360
- VI-2/19 Project Plan and Side Views and and Environmental Measures Section 1+360 – 2+740
- VI-3/19 Project Plan and Side Views and and Environmental Measures Section 2+740 – 4+120
- VI-4/19 Project Plan and Side Views and and Environmental Measures Section 4+120 – 5+510
- VI-5/19 Project Plan and Side Views and and Environmental Measures Section 5+510 – 6+890
- VI-6/19 Project Plan and Side Views and and Environmental Measures Section 6+890 – 8+280
- VI-7/19 Project Plan and Side Views and and Environmental Measures Section 8+280 – 9+660
- VI-8/19 Project Plan and Side Views and and Environmental Measures Section 9+660 – 11+040
- VI-9/19 Project Plan and Side Views and and Environmental Measures Section 11+040 – 12+430
- VI-10/19 Project Plan and Side Views and and Environmental Measures Section 12+430 – 13+810
- VI-11/19 Project Plan and Side Views and and Environmental Measures Section 13+810 – 15+200
- VI-12/19 Project Plan and Side Views and and Environmental Measures Section 15+200 – 16+580
- VI-13/19 Project Plan and Side Views and and Environmental Measures Section 16+580 – 17+960
- VI-14/19 Project Plan and Side Views and and Environmental Measures Section 17+960 – 19+350
- VI-15/19 Project Plan and Side Views and and Environmental Measures Section 19+350 – 20+730
- VI-16/19 Project Plan and Side Views and and Environmental Measures Section 20+730 – 21+873
- VI-17/19 Project Plan and Side Views and and Environmental Measures Section 21+873 – 23+320
- VI-18/19 Project Plan and Side Views and and Environmental Measures Section 23+320 – 24+750
- VI-19/19 Project Plan and Side Views and and Environmental Measures Section 24+750 – 25+021

X.3 EIS Blueprints Chapter IV

- IV-1 Political Administrative Division
- IV-2 Quarries, borrow pits and disposal sites *Chapter VI*
- VI-1 Climate
- VI-2 Air Quality
- VI-3 Noise and Vibration
- VI-4 Geomorphology and relief
- VI-5 Pending
- VI-6 Geological
- VI-7 Hydrology
- VI-8 Hydrogeology
- VI-9 Pedological soil type
- VI-10 Agrological soil class
- VI-11 Ecosystems

- VI-12 Protected natural area
- VI-13 Population and households in the project area
- VI-14 Health System and area of influence
- VI-15 Schools and area of influence
- VI-16 Road networks and Transportation
- VI-17 Cattle passes
- VI-18 Soil Usage
- VI-19 Landscape
- VI-20 Archaeology and Cultural Values

Chapter IX

- IX-1 Measures during construction stage

Chapter X

- X-1 Seismic hazard
- X-2 Volcanic Threat
- X-3 Flood Threat
- X-4 Landslide hazard
- X-5 Vulnerability
- X-6 Risk Map

VOLUME III

X.4 ANNEXES

X.4.1 Legal Annexes

- IV.1 Terms of Reference
- IV.2 Registry records of company and consultants

X.4.2 Technical Annexes

Chapter III

- III.1 Minutes of Understanding (Plan Puebla-Panama)
- III.2 Traffic study
- III.3 MARN Charter lava flow resolution
- III.4 ISTA Certificate of protected area

Chapter IV

- IV.1 Hydrological Study “Steps on Rio Grande of San Miguel San Miguel BYPASS Project”
- IV.2 Hydraulic Modeling Study “Steps on Rio Grande of San Miguel and Rio Taisihuat”
- IV.3 Hydrologic Study “Secondary Basins, San Miguel BYPASS
- IV.4 Geotechnical Study
- IV.5 Slope Design
- IV.6 Work program
- IV.7 Memory of cut and fill volume calculation
- IV.8 Public consultation reports

VOLUME IV

X.4 ANNEXES

X.4.2 Technical Annexes

Chapter VI

- VI.1 Air Quality
- VI.2 Noise and Vibration Monitoring
- VI.3 Geological Survey
- VI.4 Hydrology and Hydrogeology
- VI.5 Water quality extract of Rio Grande de San Miguel, MARN 2010.
- VI.6 Water Quality Monitoring Results.
- VI.7 Trees survey per plot
- VI.8 Arboreal Census
- VI.9 Endangered Species
- VI.10 Species with a diameter equal to or greater than 80 cm
- VI.11 Census and Survey Formats
- VI.12 Report of interviews in schools and health units
- VI.13 Photo report in plots
- VI.14 Glossary of Terms used to Describe the Landscape
- VI.15 Resolution of the culture secretariat
- VI.16 Agrological Rating

Chapter VI

- VII.1 Environmental impact assessment matrix

Chapter IX

- IX.1 Slope works chart
- IX.2 Detailed Footbridge Construction
- IX.3 Resettlement Action Plan
- IX.4 Proposed sites for Compensation
- IX.5 Critical slope sections

Acronyms and Abbreviations

| | |
|------------|---|
| CAP | Public Administration Contracts |
| CNR | National Registration Center |
| CO | Carbon |
| CONST | Construction |
| C.P.S. | Construction site preparation |
| DAP | Diameter at breast height |
| EIA | Environmental Impact Study |
| FAO | United Nations Organization for Food and Agriculture |
| FUNC | Operating |
| GPS or GPX | Satellite Positioning System |
| IUCN | Larger global environmental network |
| LMA | Environmental Act |
| MAG | Ministry of Agriculture and Livestock |
| MARN | Ministry of Environment and Natural Resources |
| MOPTVDU | Ministry of Public Works, Transportation and Housing and Urban Development |
| NGOs | Non Governmental Organization |
| UN | United Nations |
| PAR | Resettlement Action Program |
| PCU | Central Processing Unit |
| PNODT | National Plan for Land Use and Development |
| PVC | Product of the polymerization of vinyl chloride monomer to polyvinyl chloride |
| RICAM | International Network of Mesoamerican Highways |
| RN | National Road |
| SAGPYA | The Secretary of Agriculture, Livestock, Fisheries and Food |
| SNET | National Service of Territorial Studies |
| SE | Southeast |
| SPT | Transaction Processing System |
| TIR | Internal Rate of Return |
| USDA | Department of Agriculture of the United States |
| VAN | Net Present Value |
| VCR | Volume capacity ratio |
| HIV-AIDS | Human Immunodeficiency Syndrome Virus and Syndrome |
| VOC | Volatile organic compounds |
| WGS | World Geodetic System |
| HiVol | High Volume |
| NOx | Nitrogen Oxides |
| Sox | Sulphur oxides |

I. TITLE AND AUTHORS

ENVIRONMENTAL IMPACT STUDY
**CONSTRUCTION OF A BYPASS ROAD IN THE CITY OF
 SAN MIGUEL**
 DEPARTMENT OF SAN MIGUEL, EL SALVADOR

I.1 PROJECT OWNER

MINISTER OF PUBLIC WORKS TRANSPORTATION, HOUSING
 AND URBAN DEVELOPMENT
 Mr. Gerson Martínez

1.2 AUTHORS

ECO INGENIEROS: RPJSEA 001

| NAME | No. RPSA | SPECIALTY | AREA OF PERFORMANCE WITHIN THIS STUDY | SIGNATURE |
|---|----------|--|--|-----------|
| Arq. Leonora Ferrer Morán | 0011 | Architect, Master in Geoenvironmental Technology, Environmental Assessment Specialist. | Coordination, design analysis and environmental impact assessment, environmental risks, landscape, urban design and land use | |
| Ing. José Rodolfo Montúfar Guardado | 0025 | Hydrogeologist Engineer with specialized environmental studies. | Environmental impact assessments, hydrology and hydrogeology | |
| Licda. e Ingeniero María Ofelia González | 0522 | Agronomist with a degree in biology, with experience in road construction. | Biological surveys, assessment of biological and soil impacts. | |
| Arq. Estela Jeannete Cisneros | 0004 | Architect, Master in Geoenvironmental Technology, Environmental Assessment Specialist. | Environmental impact assessment, integration of report | |

PARTICIPATING SPECIALISTS AND PARTNERS

| NAME | SPECIALTY | AREA OF PERFORMANCE WITHIN THIS STUDY |
|--------------------------|---|---|
| Wilber Alejandro Jiménez | Degree in Sociology, specialist in social issues with experience in Communication and Development | Socioeconomic Report for Environmental Impact Study and for Resettlement Action Plan. |

| NAME | SPECIALTY | AREA OF PERFORMANCE WITHIN THIS STUDY |
|--------------------------|---|---|
| Francisco Delgado | Civil Engineer, IT, GIS and knowledge management Specialist | Digitization of information and preparation of thematic maps |
| Jose Emilio Tamayo | Bachelor of Law | Legal Analysis of Project |
| Georgina Ferrer Morán | Bachelor of Law | Contributing Legal Advisor |
| Geraldine Ramírez Pineda | BA in Biology | Field Survey of Wildlife |
| Milagro Salinas de Ruiz | BA in Biology | Field Survey of Wildlife |
| Carlos Alberto Elías | BA in Biology | Field Survey of Flora |
| Jose Napoleón Canjura | BA in Biology | Field Survey of Flora |
| Mario Guevara | Hydrologist and Hydrogeologist | Hydrology, Hydrogeology and Water Quality |
| Roberto R. Umanzor | Civil Engineer | Logistics support and field research |
| Mario Romero | BA in Chemistry with specialization in Paleontology | Geology |
| Luis Ernesto Murcia | Architect | Tabulation of data, AutoCad drawings |

JICA SURVEY TEAM

| NAME | SPECIALTY | AREA OF PERFORMANCE WITHIN THIS STUDY |
|---------------------|--|---|
| Masanobu Shimosaka | Head of JICA Survey Team / Civil Engineer | Technical design and review of alternatives. |
| Masafumi Ikeno | Engineer / Degree in Environmental Issues | Reviews of environmental and cultural norms application. |
| Aya Yamada | Degree in Social Issues | Strategic Action Plan for Resettlement. |
| Douglas Sibrián | Civil Engineer | Technical design, calculation of construction quantities |
| María Teresa García | Architect | General review and technical assistance on the field. |
