Chief Representative – JICA
Kabul – Afghanistan

Subject: Confirmation letter on the Environmental and Social impact of the project for rehabilitation and expansion of aircraft parking aprons at Hamid Karzai International Airport (Phase 2)

Dear Mr. Takeshi Watanabe,

On behalf of the Afghanistan Civil Aviation Authority (ACAA) this letter is made in respect of confirmation on Environmental and Social impact of the project named the project for rehabilitation and expansion of aircraft parking aprons at Kabul International Airport (Phase 2). The objective of this project is the construction of new pavement at Apron 5 and expansion of Apron 3 of Kabul International Airport in order to cope with increase in air traffic demand and to improve air safety on overcrowded aircraft parking spaces. The sites of the project are located in Hamid Karzai International Airport.

We would like to confirm that we conducted appropriate countermeasures and monitored necessary parameters as following the agreement in the Minutes of Discussions dated on 26th December, 2012.

Regarding the environmental and social monitoring results, it can be concluded that there have been no major problems caused by the project. If there is then it had been solved and reduced to an acceptable value.

We hereby certify that all the above information is true and correct to the best of our knowledge.

Sincerely,

[Redacted Signature]
