**Ministry of Road Transport and Bridges
Roads and Highways Department**

MATARBARI PORT ACCESS ROAD DEVELOPMENT PROJECT

Land Acquisition and Resettlement Action Plan

BOOK OF APPENDICES

November 2018

Submitted by:

BETS Consulting Services Ltd.

House No. 10, Road No. 135, Gulshan-1, Dhaka-1212, Bangladesh; Tel: +880-2-9889923-24;

Fax: +880-2-9889967, E-mail: bets@betsbd.com, Web: www.betsbd.com

TABLE OF CONTENTS

Appendix 1: Category wise Plot Index	1
Appendix 2: Affected Structures and HHs with Affected Structures.....	29
Appendix 3: Other Structures to be Affected.....	35
Appendix 4: Tree Loss.....	39
Appendix 5: List of Project Affected Households (Structure/Land).....	51
Appendix 6: List of Sharecroppers/ Employees	70
Appendix 7: Attendees List of Consultation Meetings	87
Appendix 8: Monitoring Form.....	127
Appendix 9: Terms of Reference for the LARAP Implementing NGO.....	131
Appendix 10: Terms of Reference for External Monitoring	139
Appendix 11: List of NGO and Job Training	144

Appendix 1: Category wise Plot Index

Summary: Category-wise total land to be acquired (Acre) for the project

Type of Land (as per record)	No.of Plot (Govt)	No.of Plot (Private)	No.of Plot	Govt land to be acquired (Area)	Private land to be acquired (Area)	Total land to be acquired (Area)
Agriculture Land	31	364	395	42.2	155.7	197.9
Commercial Land	2	3	5	0.9	1.5	2.4
Homestead Land	9	33	42	4.8	18.6	23.4
Khal	12	0	12	3.1	0.0	3.1
Road	7	1	8	3.2	0.1	3.3
Salt Land / Fish Gher	62	386	448	78.9	178.1	257.0
Waterbody	5	2	7	8.5	0.6	9.2
Total:	128	789	917	141.7	354.6	496.3

Appendix 1-1: Government Land

Appendix 9: Terms of Reference for the LARAP Implementing NGO

Terms of Reference for the LARAP Implementing NGO

1. Introduction

In Bangladesh, export and import cargoes have increased by 10% in the last 5 years. However, as almost all cargoes (98%) are handled at Chittagong, the capacity of the terminal facility has already been exceeded. Accordingly, expansion of the port is required to meet the demand as vessels are commonly forced to wait for berthing. As this situation is detrimental to the economic growth of the country, the Government of Bangladesh has been preparing the seventh five-year development plan (from 2016 to 2020) which calls for new port infrastructure for the port of Chittagong including a coal terminal in the Matarbari area (water depth – 15.3 m) to be developed by a Yen Loan. The Government of Japan and the Government of Bangladesh have strengthened their bilateral relationship through the Bay of Bengal Industrial Growth Belt Initiative (BIG-B).

In the course of the survey, the Prime Minister's Office determined the future concept on the Matarbari port development. To maximize the performance of the freight transport route from the Matarbari Port to inland area, accessibility from Matarbari Port to N1 will need to be secured. Road and Highway Department (RHD) will be the implementing authority of the access road.

The Land Acquisition and Resettlement Action Plan (LARAP) for the project which complies with the Resettlement Framework (RF) is prepared based on relevant national law of GOB Acquisition and Requisition of Immovable Property Act 2017 (ARIPA 2017) and with the policy of the JICA Guidelines for Environmental and Social Considerations and World Bank OP 4.12. LARAP Implementing NGOs (INGOs) will be hired by the RHD for the implementation of the LARAP.

2. Description of the Project

The objective of the Project is to strengthen the port logistics capacity of Bangladesh by constructing a deep sea port at Matarbari area in Chittagong Division, thereby contributing to acceleration of logistics with neighboring countries. The Matarbari Port Access Road should be connected with N1 for ensuring smooth freight transport route in the Region. The outline of the access road is as follows;

Table-1 Outline of Access Road

Facilities	Size
North-south connecting road at port	Embankment: ROW-90m, L=1.6km (4 lanes)
Access road (From Matarbari port to National Route 1)	Embankment: ROW=80m, L=18.7km Bridge: ROW=25.6m, L=7.0km Total: 25.7km (The target of the project is only 2 lanes though ROW is secured for 4 lanes for future 4 lanes.)

Source: Preparatory Survey on Matarbari Port Development Project

3. Scope of Work- General

The general scope of work shall include i) dissemination of information as described in the policy framework regarding LARAP implementation procedure; ii) conducting public consultations, iii) assisting Project Directors and his/her staff in implementation of Abbreviated Resettlement Plan and iv) maintain close co-ordination with the Resettlement Specialist (RS) of Detailed Design/Construction Supervision Consultant (DDC/CSC) and RHD staff. Displacement and other impacts due to the project are shown in the table below.

Table-2: Summary of Resettlement and Land Acquisition

Serial	Type of Impact	Amount/No	Comments
1	Land Required for the Project	201 ha	
1-1	Private land to be Acquired	144 ha	
	Loss of Residential land	8 ha	
	Loss of Agricultural land	63 ha	
	Loss of Salt farm	72 ha	
1-2	Government land to be transferred	57 ha	
2	Affected Household		
2-1	Household with their structures / land affected	614 households	
	With their Houses affected	130 households	Including 33 households of informal settlers
	With their Shops affected	7 households	2 households with both houses and shops affected
	Loss of Land (Residential land and/or Salt farm)	576 households	90 households with both structures and land affected.
2-2	Households with their livelihood affected	515 households	
	Sharecroppers	258 households	
	Agri-Labours	26 households	
	Labours in salt/shrimp farm etc.	112 households	
	Other employees	119 households	

Source: Preparatory Survey on Matarbari Port Development Project

A list of the affected households with demographic and socioeconomic information will be provided to the INGO by RHD.

Key implementation issues in the delivery of the tasks includes: (i) consultation and stakeholder participation; (ii) dissemination of relevant information; (iii) assisting executing agency (RHD) in payment of compensation and other

resettlement grants (iv) assisting Project Affected Persons (PAPs) in the process of resettlement.

4. Scope of Work- Specific Tasks

Scope of Work for the INGOs consists of two components, where separate NGOs will be appointed.

–

4.1. Component A

4.1.1 Information Campaign: The consultant will design, plan and implement an information campaign in the affected areas to facilitate the implementation of LARAP. The campaign would include measures such as distribution of information booklets, leaflets, notices and other materials among the PAPs, carrying out community meetings, public announcements and any other measures necessary to provide information to all PAPs in the project area.

4.1.2 Identification of Entitled Persons: Consult census/survey data and prepare final list of affected households, commercial business enterprises and community establishment now staying within the Right of Way (ROW) from the list.

4.1.3 Assistance to PAPs during relocation: The INGO will assist the PAPs during pre and post relocation period in close coordination with Deputy Commissioner (DC) Office and RHD.

4.1.4 Grievances redress procedure: The INGO staff will also assist PAPs, where necessary, in preparing grievance redress cases for consideration by the Grievance Redress Committee (GRC).

4.1.5 Assistance to RHD in Payment of Resettlement Benefits to PAPs: The selected INGO will assist RHD in processing entitlements for the PAPs and making payment of resettlement benefits to them. The INGO will compile and process data and develop & operate a menu driven computerized Management Information System (MIS). The INGO will prepare EP's files with type and quantity wise losses and Entitlement Card (EC) mentioning amount of compensation/benefits for each of the EPs and prepare Indent mentioning category wise amount of compensation /benefits. The indent would be approved by the Project Director before making payment. The INGO will prepare payment debit voucher on behalf of RHD and assist RHD in preparing Measurement Book. The debit voucher will be signed jointly by INGO and EA representative and the cheque will be signed by INGO and be issued in public place in presence of Local Government representatives. The RHD will place fund with INGO for making payment and the INGO will submit vouchers with other documents on regular basis to the Project Director after making payment.

4.2. Component B

4.2.1 Assistance for livelihood restoration: The INGO will conduct information dissemination of vocational training to PAPs so that they can participate in the training properly. INGO will monitor the progress of livelihood restoration. Assistance will be given to job finding where necessary.

4.2.2 Assistance for affected salt/shrimp farmers to find alternative land: INGO will assist affected salt/shrimp farmers to identify similar land that can be utilized for salt farm and shrimp cultivation as a substitute site.

5. LARAP Implementation Schedule and Tasks

The implementation of the LARAP is scheduled to start from XX January 2019 and expected to be completed by XX December 2021. The INGO will be deployed for a period of 15 (fifteen) months and will be responsible to implement all resettlement activities stated in the TOR. The Project Director, in consultation with the RS of the DDC/CSC will provide time schedule as per the requirement of the resettlement program.

6. Major Activities to be performed by Implementing NGO

The selected INGO will assist RHD in implementing successfully all stipulations agreed in the LARAP entirety, fairly and transparently. In this context, the major functions to be performed by the INGO are:

6.1. Component A

6.1.1 Information dissemination and feedback:

(i) Ensure dissemination of the project and resettlement policy related information to the project-affected persons and others (community groups, local administration, etc.) that might be considered instrumental in the effective and transparent implementation of the LARAP. Even though the LARAP recommends some dissemination mechanisms, the INGO can suggest more in the process of its implementation and would gather information and disseminate it upward to the project authority.

(ii) During implementation of the project, extensive consultation and collaboration with key stakeholders on a continued basis is planned. The selected INGO will be required to assist RHD in organizing such consultation programs and facilitate consultation with local government representatives, local leaders, etc.

6.1.2 Identification of Entitled Persons:

(i) Consult census/survey data and prepare final list of affected households, commercial business enterprises and community establishment now staying within the Right of Way (ROW) from the list.

6.1.3 Assisting PAPs in resettlement process:

(i) The main purpose is to make the PAPs and EPs aware of the project goals, importance, GRC procedures, compensation entitlement and receiving procedures, etc. Some of the major activities are: (a) Inform the EPs about the documents required for claiming compensation from DC office & resettlement benefit from RHD (b) checking with the PAPs to make sure that they have all the required documents to claim compensation from DC and RHD (c) whether or not there are usufruct rights of others on the properties within ROW and informing the people with such rights about the compensation policies.

(ii) Inform the PAP households, especially the non-tilted persons and/or vulnerable ones, about the “compensation

in cash and/or kind” option stipulated in the LARAP and ensure fulfillment of the choices made by them.

6.1.4 Grievances redress procedure

The selected INGO will play vital role in the grievance redress process. The most important preconditions for doing this with maximum effectiveness are that the INGO will build personal rapport and confidence with the PAPs and will be fully aware of all socioeconomic problems/issues arising from the project. Among other things, the INGO will:

- (i) Ensure that the PAPs are fully aware of the grievance redress procedure and the process of bringing their complaints to the GRC.
- (ii) Assist the PAPs in any usual manner (e.g., preparing applications, accompanying them to the hearing and explaining the grievance to the GRC and the like) to bring the complaints to the committee.
- (iii) Impartially investigate the veracity of the complaints and try to settle them amicably, fairly and transparently before they go to the redress committee or the courts of law.
- (iv) For more focused work in this area, the INGO will prepare a list of problem cases in implementation of LARAP. In doing so, the INGO will pay special attention to the problems and needs of the vulnerable PAPs and recommend to the RHD with probable mitigation measures.

6.1.5 Information management

The selected INGO will collect computerized Census and Socio Economic Survey (SES) data related to the pre-acquisition condition of the PAP households and the nature and magnitude of all categories of losses as well as the compensation thereof determined by RHD. All essential information will have to be generated by using one or more menu-driven MIS. Among other things, the INGO will:

- (i) Collect CCL from the DC office and prepare statement for assessing additional payment on the basis of quantity of affected properties and LARAP PVAT rate.
- (ii) Collect and computerize all information related to different types of payments and additional supports provided to the EP and update the EP file and EC.
- (iii) Prepare ‘entitlement card’ for the individual EPs as per their types of losses and the amount of compensation due for each type of loss from legal title and the amount of additional compensation/resettlement benefits if any, to be paid by RHD through INGO.
- (iv) Record and maintain details of the issues/disputes causing delay in the disbursement/receipt of compensation and the persons involved in them, including the cases brought to the courts of law, if there is any.

(v) Document information on the cases, with reasons, brought to and resolved by the GRC, with decisions going in favor of or against the complainants.

(vi) Collect and maintain relocation information on the homestead losers by categories of EP households such as legal owners, informal settlers, tenants and others.

6.1.6 Progress reports

The LARAP requires that all PAPs are paid the stipulated compensations/entitlements before they are evicted from the properties and/or construction work begins. The selected INGO will provide RHD weekly report on the progress in LARAP implementation, including any issue that might be hindering progress. The report will be brief consisting of both quantitative and qualitative information on:

(i) The INGO in its report should reflect the status of total number of EPs identified by DC for compensation and progress of payment in a particular period and resettlement benefits paid against DC's payment and other benefits as per LARAP policy by zones and EP categories.

(ii) Number of focus groups formed and meeting held with the affected persons with issues discussed.

(iii) Number of vulnerable affected households male headed and female headed have received cheques and be deployed in project civil works according to their eligibility.

(iv) Number of cases received by the Grievance Redress Committee indicating the types of grievance made in favor of or against the complainants.

(v) Any other issues that are relevant to implementing the policies stipulated in the LARAP.

6.2 Component B

6.2.1 Assisting livelihood restoration of PAPs:

(i) Inform PAPs of the implementation of vocational training. Assist PAPs to obtain consent from family of vocational training persons shall be obtained.

(ii) Monitor livelihood restoration of PAPs and review/update livelihood restoration program in consultation with the concerned PAPs where necessary. INGO shall monitor the following items;

- Implementation status of vocational training: quarterly after the beginning of vocational training.
- Job finding: 3 months after completion of vocational training program.
- Situation of employment and livelihood restoration: Once a year from above mentioned.

(iii) Provide assistance for job finding after vocational training where necessary.

6.2.2 Assisting the affected salt/shrimp farmers to find alternative land

(i) Assist affected salt/shrimp farmers to identify similar land that can be utilized for salt farm and shrimp cultivation

as a substitute site if they prefer maintaining the same livelihood even after the Project implementation.

6.2.3 Information management

(i) Record implementation status of vocational training/ job finding status of EPs/ situation of employment and livelihood restoration

(ii) Record implementation status of assisting salt/shrimp farmers to identify similar land and livelihood restoration situation

6.2.5 Progress reports

The selected INGO will report RHD weekly on the progress in implementation of livelihood restoration, including any issue that might be hindering progress. The selected INGO will make reporting documents quarterly.

7. Staff requirements

The INGO is free to determine the number of members to be working in the team. A bar chart shall indicate the proposed timing of their input. The team members shall meet the following criteria:

(i) The Team Leader (Resettlement Specialist) is the spokesman for the INGO. He/she shall hold Masters in Social Science and have at least 15 years of relevant experience in implementation of LARAP, report writing etc. He/she shall have conducted at least 5 trainings/ workshops in Resettlement Issues, and must be fluent in English.

(ii) The Deputy Team Leader (Resettlement Expert) will assist Team Leader in LARAP Implementation process. He shall hold Masters in Social Science and have at least 10 years of relevant experience in implementation of LARAP. He shall have conducted at least 5 trainings/ workshops in Resettlement Issues, and must be fluent in English.

(iii) MIS specialist shall hold a degree in Statistics/Mathematics/Computer Science having more than 10 years of relevant experience in Resettlement tools (EP/EC), and be fluent in English.

(iv) Gender and livelihood development specialist will have at least masters in any discipline with 7 years experience in the relevant field.

(v) Area Manager shall hold Masters in Social Science and have at least 5 years of relevant experience in implementation of LARAP. He shall have conducted at least 3 trainings/ workshops in Resettlement Issues, and must be fluent in English.

(vi) Enumerators shall be graduates with at least two years relevant experience

A. INGO selection criteria:

The INGO should have registration with concerned Authorities and experience in implementation of Resettlement

Action Plan. The INGO will be selected through quality and cost based selection method.

B. Implementation arrangements

The INGO has to keep office near the concerned locality (more than one in each zone) during the time of implementation of the LARAP in order to ease contact with the APs, the cost of which will be specified in the budget. The INGO will make its own transport arrangements, which will be reflected in the budget.

Appendix 10: Terms of Reference for External Monitoring

Terms of Reference for the External Monitoring and Evaluation Agency (access road)

A. Project Background

The Government of Bangladesh (GOB) has requested loan assistance from Japan International Cooperation Agency (JICA) for the development of Matarbari port with its access road to N1 for ensuring smooth freight transport route. While Chittagong Port Authority (CPA) will be the implementing authority of port component, Road and Highway Department (RHD) will be the implementing authority of the access road component.

RHD has prepared Land Acquisition and Resettlement Action Plan (LARAP) that will mitigate adverse social impacts due to the project. The LARAP is consistent with the JICA Guidelines for Environmental and Social Considerations. An LARAP Implementing Agency (IA) i.e. Implementing NGO (INGO) or Social Consulting Firm will be hired by the RHD for implementation of the LARAP. To monitor activities of the LARAP IA/INGO, RHD will engage an External Monitoring and Evaluating Agency.

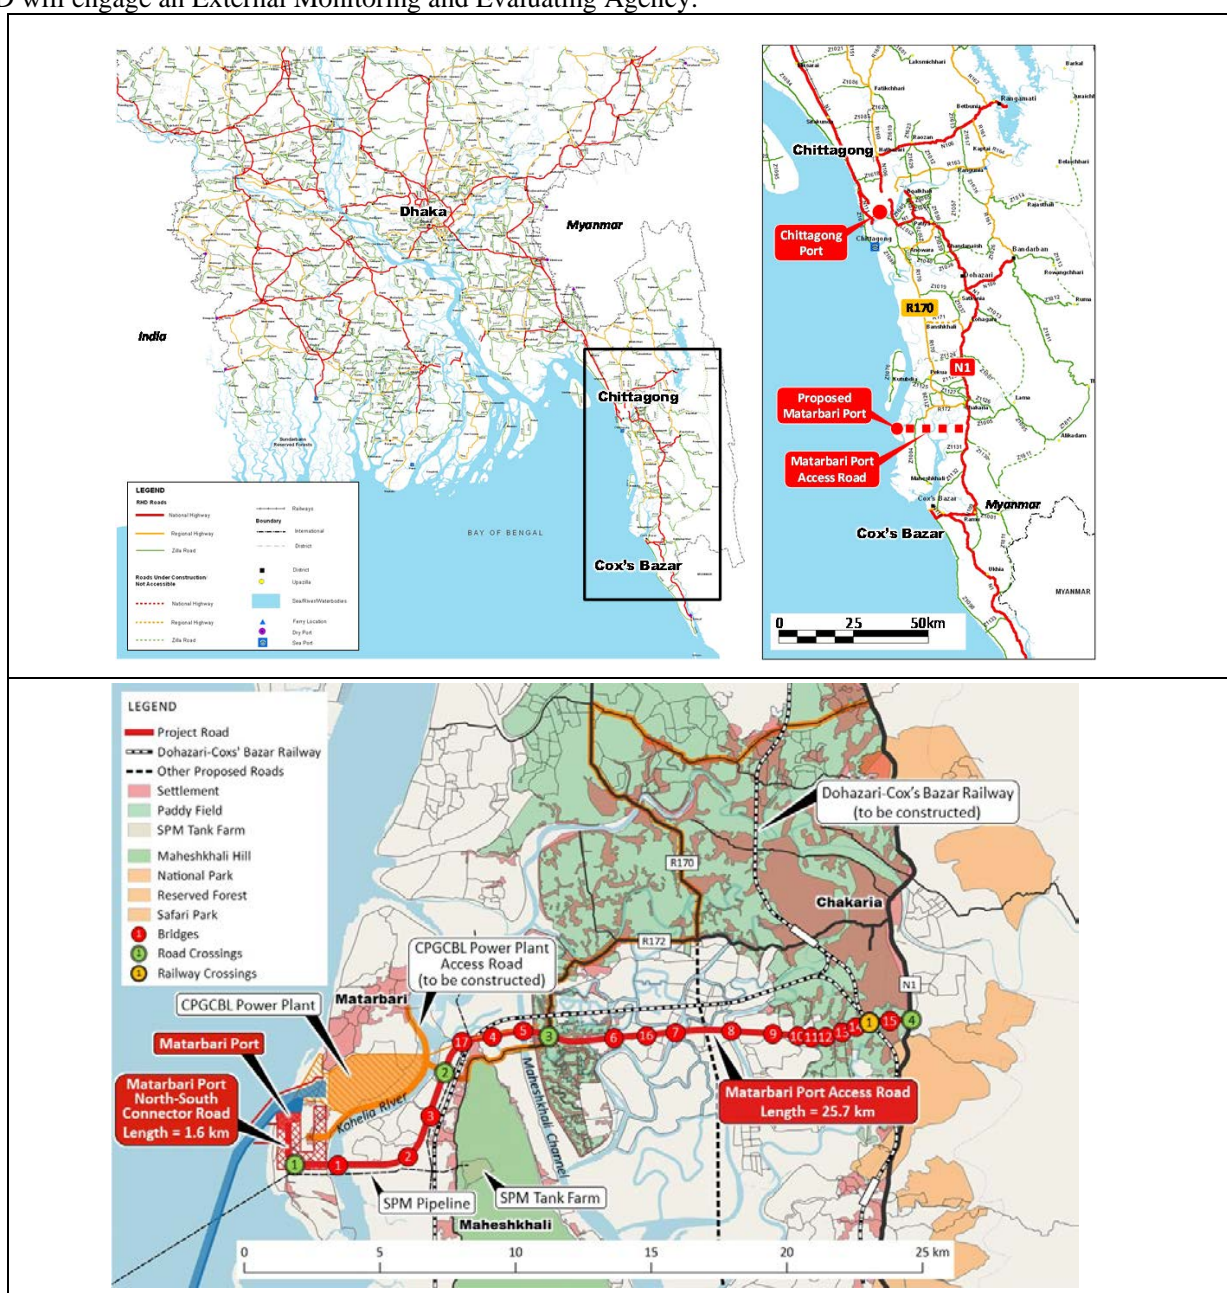

Figure-1: Location of the Project

Key Objective of External Monitoring

Monitoring involves the collection and analysis of data on resettlement activities with the applying accruing information. Monitoring allows project participants to keep track of resettlement activities, to determine whether resettlement objectives are being achieved, and to make whatever changes are necessary to improve resettlement performance.

Evaluation is an assessment of resettlement performance and results in light of stated the objectives. Evaluation for purposes of the LARAP is proposed to include a participatory component allowing the project participants to comment on their experience of the project. To be successful, monitoring and evaluation begins with clear resettlement design followed by identification and elaboration of appropriate criteria and indicators.

Indicators and Means for Verification

Indicators form the key elements of any monitoring and evaluation system. Indicators also make possible the comparison of inputs with the completion of outputs and achievement of objectives and goals, thus providing the basis for performance evaluation. Four categories of indicators have been formulated to facilitate monitoring of Progress, Outputs, Effects, Impacts and Compliance in implementing the resettlement.

Effect Monitoring

This will be used to measure the extent to which the immediate objectives have been achieved and give an idea of the results emanating from implementing the LARAP e.g., percentage of APs now accessing better housing or improved livelihoods on account of being successfully resettled.

Impact Monitoring

This is the process through which, assessment of the overall achievement of the resettlement goal will be made. Specifically, this is the system that will generate data to gauge success towards implementation of this LARAP in terms of impact of the resettlement on the APs. The basis for impact monitoring is the baseline social-economic survey data against which the wellbeing of APs will be compared.

The External Monitoring and Evaluation Agency will review implementation process as per set policies in the LARAP and assess the achievement of resettlement objectives, the changes in living standards and livelihoods, restoration of the economic and social base of the affected people, the effectiveness, impact and sustainability of entitlements, the need for further mitigation measures if any, and to learn strategic lessons for future policy formulation and planning.

Scope of Work

The scope of work of the External Monitoring and Evaluation Agency will include the following tasks:

- (1) To review and verify the progress in land acquisition/resettlement implementation of the Project and whether they have been followed as provided in the LARAP.
- (2) Provide a summary of whether involuntary resettlement was implemented (a) in accordance with the LARAP, and (b) in accordance with the stated policy.
- (3) Verify expenditure & adequacy of budget for resettlement activities.
- (4) Describe any outstanding actions that are required to bring the resettlement activities in line with LARAP. Describe further mitigation measures needed to meet the needs of any affected person or families judged and/or perceiving themselves to be worse off as a result of the Project. Provide a timetable and define budget requirements for these supplementary mitigation measures.
- (5) Describe any lessons learned that might be useful in developing the new national resettlement policy and legal/institutional framework for involuntary resettlement.
- (6) To Identify, quantify, and qualify the types of conflicts and grievances reported and resolved and assess whether the consultation and participation procedures followed in accordance with the LARAP.
- (7) To identify the strengths and weaknesses of the land acquisition/resettlement objectives and approaches, implementation strategies.
- (8) Identification of the categories of impacts and evaluation of the quality and timeliness of delivering entitlements (compensation and rehabilitation measures) for each category and how the entitlements were used and their impact and adequacy to meet the specified objectives of the plans. The quality and timeliness of delivering entitlements, and the sufficiency of entitlements as per approved policy.
- (9) To review the quality and suitability of the relocation sites from the perspective of the both affected and host communities.

- (10) Review results of internal monitoring and verify claims through sampling check at the field level to assess whether land acquisition/resettlement objectives have been generally met. Involve the affected people and community groups in assessing the impact of land acquisition for monitoring and evaluation purposes.
- (11) To monitor and assess the adequacy and effectiveness of the consultative process with affected PAPs, particularly those vulnerable, including the adequacy and effectiveness of grievance procedures and legal redress available to the affected parties, and dissemination of information about these.

B. Methodology and Approach

The general approach to be used is to monitor activities and evaluate impacts ensuring participation of all stakeholders especially women and vulnerable groups. Monitoring tools should include both quantitative and qualitative methods. The external monitor should reach out to cover:

- (1) 100% of PAPs who had property, assets, incomes and activities severely affected by Project works and had to relocate either to resettlement sites or who chose to self-relocate, or whose source of income was severely affected.
- (2) 10% of persons who had property, assets, incomes and activities marginally affected by project works and did not have to relocate;
- (3) 10% of those affected by off-site project activities by contractors and sub-contractors including employment, use of land for contractor's camps, pollution, public health etc.;

C. Other Stakeholders and their Responsibility

1. Roads and Highways Department (RHD):

Roads & Highways Department will establish, for the Project, a Project Implementation Unit (PIU) headed by a Project Director (PD), at the project office that will be responsible for the overall execution of the Project. The PIU will consist of two units namely Engineering Service Unit (ESU) and Resettlement Unit (RU) for total implementation of the project. The PD will work on deputation from RHD at the level of Superintending Engineer or Additional Chief Engineer. The project will be overseen by the PD, RHD. One implementation committee will be formed to provide overall guidelines and cooperation for project implementation and keep liaison with various stakeholders including Donor, different government organizations and other relevant agencies.

- (1) Acquire, hold, manage and dispose of land and other property to private sector developers, to carry out the planning, engineering, design, construction, marketing, sales and other operations under the regulations of master plan
- (2) Execute works in connection with the utilization of infrastructure such as supply and discharge of water, electricity, transportation and other services and amenities and generally to do anything necessary or expedient for purposes of such development and for purposes incidental thereto, provided that save as provided in this Act, nothing contained in this Act shall be construed as authorizing the disregard by the Authority of any law for the time being in force.
- (3) Lead, monitor and evaluate the implementation of the project.

2. LARAP Implementing Agency (IA) / Implementing NGO (INO):

RHD will engage an experienced IA/INGO for implementation of the LARAP in the field level in coordination with the DC, RHD and consultants. The IA/INGO will be engaged to assist the supervision consultant for updating of LARAP during detailed design phase and will be continuing for implementation of the LARAP. The tasks of the IA/INGO are to:

- (1) Verify results of internal monitoring;
- (2) Assess whether resettlement objectives have been met; specifically, whether
- (3) Livelihoods and living standards have been restored or enhanced;
- (4) Assess resettlement efficiency, effectiveness, impact and sustainability, drawing
- (5) Lessons as a guide to future resettlement policy making and planning; and
- (6) Ascertain whether the resettlement entitlements were appropriate to meeting the objectives, and whether the objectives were suited to PAP conditions.
- (7) Undertake any other assessment relevant to the resettlement process.

D. Team Composition of the External Monitoring and Evaluation Agency

Table-1 Team composition and qualifications

Position/expertise	Qualification and experience
1. Team Leader/ Resettlement Expert	Masters in social science with 10 years working background in planning, implementation and monitoring of involuntary resettlement for infrastructure projects. Experience in institutional capacity analysis and implementation arrangement for preparation and implementation of resettlement plans, and knowledge in latest social safeguard policies of the international development financing institutions in Bangladesh
2. Social Impact Specialist/Anthropology	Masters in social science with 5 years working experience in social impact assessment including census and socio-economic surveys, stakeholders' consultation, and analysing social impacts to identify mitigation measures in compliance with social safeguard policies of the international development financing institutions and national legislations. Experience of preparing resettlement framework and action plans and implementation of plans for externally financed projects is essential.
3. Data Analyst	Graduate with working experience and knowledge of software, preferably relational, those are most commonly used in Bangladesh; demonstrated ability to design and implement automated MIS(s) for monitoring progress, comparing targets with achieved progress and the procedural steps

E. Time Frame and Reporting

External monitoring of the LARAP will be undertaken alongside that of other project components. External Monitoring and Evaluation Agency will take place as follows:

Post Project Monitoring:

In order to determine final impacts of the resettlement activity, a final evaluation cum an impact assessment will be undertaken 6 months after conclusion of resettlement to evaluate whether the intended objectives were realised. For this, suitable baseline indicators related to income, assets, land ownership, expenditure pattern of key activities, housing conditions, access to basic amenities, demographic characteristics, indebtedness, etc. will be applied.

The monitoring reports should be submitted to RHD. An evaluation report at the end of the project should be submitted to the RHD and concerned parties with critical analysis of the achievement of the program and performance of RHD and IA/INGO.

The external monitors will provide monitoring and evaluation report covering the following aspects:

- Whether the resettlement activities have been completed as planned and budgeted;
- The extent to which the specific objectives and the expected outcomes/results have been achieved and the factors affecting their achievement or non-achievement;
- The extent to which the overall objective of the Resettlement Plan, pre project or improved social and economic status, livelihood status, have been achieved and the reasons for achievement / non achievement;
- Major areas of improvement and key risk factors;
- Major lessons learnt; and
- Recommendations.

Formats for collection and presentation of monitoring data will be designed in consultation with RHD, consultant's resettlement specialist.

F. Qualification of the Independent External Monitoring Agency

The External Monitoring and Evaluation Agency will have at least 5 years of experience in resettlement policy analysis and implementation of resettlement plans. Further, work experience and familiarity with all aspects of resettlement operations would be desirable. NGOs, Consulting Firms having requisite capacity and experience as follows can qualify for services of and external monitor for the project.

- (3) The applicant should have extensive experience in implementation and monitoring of resettlement plans, including the preparation of implementation tools.
- (4) The applicant should be able to produce evidences of monitoring using tools such as computerized Management Information System with set criteria for measuring achievement.
- (5) The applicant should have adequate manpower with capacity and expertise in the field of planning, implementation and monitoring of involuntary resettlement projects as per donor's guidelines.

Appendix 11: List of NGO and Job Training

1. BURO Bangladesh (NGO)

(1) Contact: Md. Abdul Rahim

Branch Manager, Badarkhali Branch

01733220189

(2) TRAINING :

- Human Resource Development Training
- Agricultural Training
- Fisheries Training
- Poultry Farming Training
- Micro loans for Fisheries, Agricultural and Poultry ect.

2. ASHA (NGO)

(1) Contact: Mohammed Piplu

Branch Manager

Badarkhali Brach

01730084745

(2) TRAINING :

- They have no training program
- They give Micro Loans

3. COAST (NGO)

- No training
- Solar panel supply with installment (0% interest)
- Micro Loans

4. PROTASHI (NGO)

5. BGS (NGO)

(1) Contact: Abdu Rahim Bhuttu

Branch Manager, Moheshkhali Branch

01818521493

(2) TRAINING :

- Computer Training
- Mobile Repair Training
- Refrigerator Repair training
- Betel leaf cultivation training

- Fish Breeding Training
- Fish culture Training
- Beef Fattening Training
- Tailoring Training

6. RIC (NGO)

7. GRAMIN BANK (NGO)

8. ISDDE (NGO)

9. BRAC (NGO)

(1) Contact: Jhuddo Mitro Barua

Branch Manager, Badarkhali Branch

01708114154

(2) TRAINING :

- Human Resource Development Training
- Fisheries Training
- Poultry Farming Training
- Livestock Farming Training
- Handicraft training
- Micro Loans

10. ACF (NGO)

11. WFP (NGO)

12. SARTV (NGO)

13. CCDB (NGO)

14. ISPA (NGO)

(1) Contact: MD. Harun

Branch Manager, Mohesh Khali Branch

01716280168

(2) TRAINING

- Computer Training
- Mobile Repair Training
- Refrigerator Repair training

- Betel leaf cultivation training
- Fish Breeding Training
- Fish culture Training
- Beef Fattening Training
- Driving Training
- Tailoring Training
- Parlor Training
- Boutiques Training
- Tourism Training
