Glossary of Terms

Compensation: Payment made in cash to the project affected persons/households for the assets acquired for the project, which includes the compensation provided under the Acquisition and Requisition of Immovable Property Act (ARIPA) 2017 and policy of the Resettlement Action Plan (RAP) or Resettlement Policy Framework (RPF).

Cash Compensation under Law (CCL): Refers to the compensation assessed for the acquired lands and other assets, such as houses/structures, trees, crops, fish, etc., by different government agencies as per the methods provided in the ARIPA-2017 and paid by the Deputy Commissioners.

Community Property Resource (CPR): Refers to social, religious and educational institutions constructed for the community interest and maintained by a group of people of the community.

Encroacher: Households or persons having land of their own attached to the public land or elsewhere but occupy the land proposed for acquisition or in the government land (for residence and/or income earning) without legal arrangements with the GoB or any of its concerned agencies are defined as encroacher.

Entitlement: Refers to mitigation measures, which includes cash payments by DCs and RHD, as well as any non-cash measures stipulated in the RAP or RPF e.g., allowing the project affected persons to keep felled trees, salvaged building materials, employment in civil works construction, etc.

Household: A household is a group of persons who commonly live together with common incomes and take their meals from a common kitchen.

Income Restoration: Refers to re-building the capacity of the project affected households to re-establish income sources at least to restore their living standards to the pre-acquisition levels.

Involuntary Resettlement: The situation arises where the States power of eminent domain requires people to acquiesce their rights to personal properties and re-build their lives and livelihood in the same or new locations.

Government Khas Land: Khas lands are public lands those are not recorded in the name of any private citizen/entity of the country as per latest settlement record or owned by any government agencies. Deputy Commissioner in a respective district is the custodian of all khas lands in a district.

Participation/Consultation: Defined as a continuous two-way communication process consisting of “feed-forward” the information on the project’s goals, objectives, scope and social impact implications to the project beneficiaries, and their “feed-back” on these issues (and more) to the policymakers and project designers. In addition to seeking feedback on project specific issues, the participatory planning approach also serves the following objectives in all development projects: public relations, information dissemination and conflict resolution.

Physical Cultural Resources: Defined as movable or immovable objects, sites, structures, groups of structures, and natural features and landscapes that have archaeological, paleontological, historical, architectural, religious, aesthetic, or other cultural significance. Physical cultural resources may be located in urban or rural settings, and may be above or below ground, or under water. Physical cultural resources are important as sources of valuable scientific and historical information, as assets for

economic and social development, and as integral parts of a people's cultural identity and practices. Their cultural interest may be at the local, provincial or national level, or within the international community.

Project-Affected Persons: Project Affected Persons (PAPs) refer to all persons impacted by the land acquisition and involuntary resettlement, including all members of a household (women, men, girls, boys, incl. several generations in the case of extended households); the owner and employees of a business; members of an ethnic minority group; tenants; land owners and sharecroppers; informal settlers (i.e. lacking formal titles); holders of customary land-rights; informal business-operators and their employees/assistants. Eligible PAPs may be in any of the following situations: (i) have formal legal rights to the land/structure they occupy; (ii) do not have formal legal rights to land, but have a claim to land that is recognized or recognizable under the national laws (e.g. ancestral, traditional lands); (iii) are dependent on the impacted land for their livelihood by way of customary access to natural resources; (iv) have no recognizable legal right or claim to the land or structure they occupy; and/or (v) economically displaced persons who face loss of assets or access to assets.

Rehabilitation: Refers to improving the living standards or at least re-establishing the previous living standards, which may include re-building the income earning capacity, physical relocation, rebuilding the social support and economic networks.

Relocation: Moving the project-affected households to new locations and providing them with housing, water supply and sanitation facilities, lands, schools and other social and health care infrastructure, depending on locations and scale of relocation. [Homestead losers may also relocate on their own in any location they choose.]

Resettlement Action Plan: Resettlement Action Plan (RAP) is the document in which the promoter of a project or other responsible competent authority describes the impacts of the involuntary resettlement, specifies the procedures that will be followed to identify, evaluate and compensate the impacts and defines the actions to be undertaken during all phases of the resettlement.

Replacement Cost: Replacement Cost refers to the value determined to be fair compensation for: (i) land, based on its productive potential; (ii) houses and structures, based on the current market price of building materials and labour without depreciation or deductions for salvaged building material, and (iii) crops, trees, and other commodities, based on their market value. Such cost needs to further account for any removal costs, utility connection costs, taxation costs imposed on new housing/re-established businesses etc. Where markets do not exist, surrogate values must be determined. Replacement Cost would be determined following the definitions referred by the JICA Guidelines for Environmental and Social Considerations, April 2010 (JICA Environmental Guidelines) which is equivalent to the World Bank Operational Policy 4.12 Involuntary Resettlement.

Squatter: Household or person occupying public lands without legal arrangements with the GoB or any of its concerned agencies is a squatter to the lands. Households/persons those displaced by riverbank erosion, cyclones or landlessness squat embankment /road slopes for residential, commercial and community purposes. In this project, many road squatters have their own land elsewhere for residing but they built structure beside the road for mostly commercial purposes.

Stakeholder: Refers to recognizable persons, formal and informal groups who have direct and indirect stakes in the project, such as local government representatives, government officials associated with the project, women groups, beneficiaries, affected persons/ households, shop owners, traders, squatters, community-based and civil society organizations.

Top-Up Payment: Refers to requiring body's payment (here RHD) to supplement replacement cost of land and other assets where the cash compensation under law (CCL) determined and paid by DCs is less than the replacement cost.

Tribal Peoples: Tribes, minor races, ethnic sects and communities living in the Chittagong Hill Tracts and dispersed in other plain districts in Bangladesh are distinct indigenous cultural groups having customary cultural, economic, social, or political institutions separate from those of the mainstream society and culture; and they have their own indigenous language different than the mainstream Bangla language. These small groups of peoples have similar characteristics of indigenous peoples recognized in the JICA Environmental and Social Considerations.

Vendors: Refers to petty businessmen run business in open but a designated space without structure or in a small structure on wheels or easily movable poles. Both Formal and informal vendors are included in this survey and were surveyed.

Vulnerable Household: Vulnerable groups or individuals refers to people who, by virtue of factors beyond their control: (a) are more likely to be adversely affected by the Project's environmental and social impacts; and (b) are more likely to be limited than others in their ability to claim or take advantage of Project benefits. Such an individual or group is also more likely to be excluded from or unable to participate fully in the mainstream consultation process and may require specific measures or assistance (or both) to do so.

Homestead/Residential land: The homestead land denotes a piece of land where people are living by constructing residential structure.

Vita/High land: The vita/highland is above high flood level and suitable for construction of residential or commercial structure but not yet constructed any structure,

Orchard: The orchard is same category of vita/highland and used as fruit/timber tree garden.

Agricultural land/Nul: Agricultural land, which is used for crop production in once, twice, or thrice a year. Level of land is below the homestead, vita or orchard.

Pond: A particular area of the land, which is surrounded by embankment/bund where water is found almost round the year. Fish is cultivated or even not cultivated; both are treated as pond based on characteristics of the land.

Ditch: The small water body having no embankment/ bund and not recognized as pond. Land value of such ditch is one fourth of the recognized pond.

Pucca structure: A structure with reinforced cement concrete (RCC) roof, cement-sand-brick wall and cement-sand-brick or earthen floor is defined as a pucca structure. Any other structure made of cement, sand, and brick (with or without iron rods) is also considered as a pucca structure.

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

Semi-pucca structure: A structure with tin (corrugated iron sheet) roof, cement-sand-brick wall and cement-sand-brick or earthen floor is defined as a semi-pucca structure.

Tin-made structure (double barreled or one slanting roof): A tin house with or without additional top floor with tin roof and fence as well as cement, sand, brick, wooden or earthen floor is defined as a tin-made structure.

Kutcha structure: A structure with tin roof, mud/ straw/ bamboo wall and wooden/ bamboo/mud floor is defined as a kutcha structure or house.

Thatched structure: A house structure with materials other than tin, talli or RCC roof and wall/fence with earthen floor is defined as a thatched structure.

1 INTRODUCTION TO THE PROJECT

1.1 Background of the Project

Japan International Cooperation Agency (JICA) and Roads and Highways Department (RHD) on behalf of Government of Bangladesh have come to an agreement to conduct a Feasibility Study in five major bottleneck sections along the Chattogram Cox's Bazar Highway. Out of the five bottleneck sections, four (Patiya, Dohazari, Lohagara and Keranihat) are in Chattogram district and remaining one (Chakaria) is at Cox's Bazar district. Widening of these five bottleneck sections is urgently required to minimize traffic congestion, travel time, cost and accidents and facilitate transportation of heavy vehicles of the upcoming Matarbari Port. Taking into account of the scenarios, four bypasses at four bottleneck sections (Patiya, Dohazari, Lohagara and Chakaria) and one flyover (at Keranihat) has been proposed. It is scheduled that the Detailed Design of the five bottleneck sections will be completed by December 2023 and selection of contractor will be finalized by December 2024. If everything goes well, the construction of the bypasses and flyover will be completed by June 2028.

1.2 Description of the Project

1.2.1 Project Scope

Total length of the proposed bypasses and flyover at five bottleneck sections is approximately 24.4 km. Two major rivers Shangu and Matamuhuri at Dohazari and Chakaria will be crossed by the proposed bypasses. Two new bridges will be constructed over the rivers. Four bypasses at Patiya (expanding the existing bypass), Dohazari, Lohagara and Chakaria and a flyover at Keranihat have been proposed under CCHIP. Initially, the 300 feet ROW was proposed for the bypasses as presented in the Resettlement Action Plan (RAP) report for CCHIP but in the later stage of the Feasibility Study additional survey for the change of ROW from 300 feet to 150 feet was carried out at four sections: Patiya, Dohazari, Lohagara and Chakaria. The width of the alignment at Keranihat was maintained as during the RAP study (approx. 160 feet) hence no additional survey was carried out at Keranihat. This report presents the impacts of the 150 feet ROW for the four sections and the impacts of Keranihat section that was extracted from the RAP report. In total about 2035 households and shops on private and RHD land are affected along with 27 community properties and offices/institutions. Table 1-1 describes the length and width of the proposed road section at five bottleneck sections.

Table 1-1: Length and width of the proposed bypasses and flyover

Bottleneck sections	Length	Width	Comments
Patiya	5.4 km	45.7m (150 feet)	Four-Lane road without service lane
Dohazari	3.3 km	45.7m (150 feet)	Four-Lane road without service lane
Keranihat	3.5 km	48.8m (160 feet)	Necessary minimum width for construction of 6-lane flyover
Lohagara	5.4 km	45.7m (150 feet)	Four-Lane road without service lane
Chakaria	6.8 km	45.7m (150 feet)	Four-Lane road without service lane

Source: KMC RAP Team

1.3 Scope of Work

KMC has been assigned to conduct a study on the 150 feet alignment at five bottleneck sections to identify the impacts on the affected people and properties. The scope of the work is as follows:

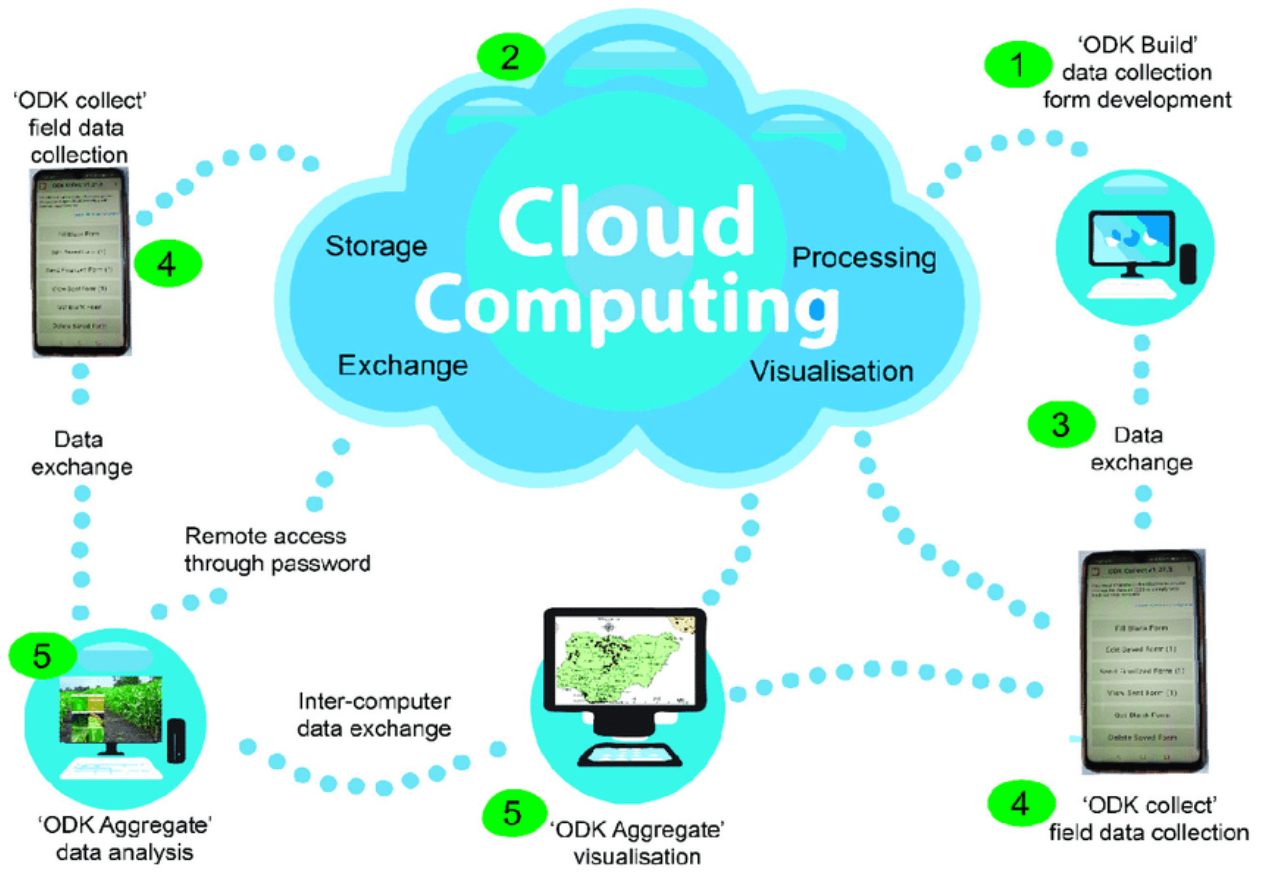

- Estimate the area of land to be acquired and the number of relocated residents and calculate land acquisition costs and resettlement-related costs, including relocation assistance and livelihood restoration assistance.
- Estimate the number of affected houses and facilities and the number of affected residents by using cadastral maps (mouza maps), satellite images, and data obtained during RAP field surveys to determine the social impact.

1.4 Methodology

A team of professionals was deployed including team leader, chief survey coordinator, surveyors and enumerators to conduct the study. The team was formed with the professionals who were involved in the first phase (300 feet survey) of the assignment for resettlement study. The surveyors took measurement at the ground from the central line given by the JICA Study Team (JST). Total 150 feet width (75 meter on either side) alignment was surveyed and each of the affected properties and households were surveyed. Original list of affected HHs (based on 300 feet survey) was taken into account for conducting the current survey on 150 feet ROW. The impact assessment survey was conducted at four bottleneck sections in August 23-30, 2022. Local people were consulted informally during the impact assessment study about potential changes of alignment from 300 feet to 150feet.

An independent database has been prepared for the affected HHs and properties on 150 feet ROW including land, structures, trees, business, wage, vendors and tenants. Cost estimate has been prepared for the affected properties under the 150 ROW following the rates adopted in the RAP for 300 feet ROW.

The surveys were conducted using electronic devices through ODK platform (Kobo Toolbox) that facilitates collection of real-time data and generate tables. The data is stored in the main server immediately after collection from the field.

Source: KMC RAP Team

2 LAND ACQUISITION AND RESETTLEMENT IMPACTS

2.1 Summary of Project Impacts

The project has caused several types of impacts on 2,071 Project Affected Units (PAUs) including HHs, shops, community properties and offices/institutions due to loss of land, structures, trees, business, livelihood, etc. for the interventions in five major bottleneck sections.

Major impacts on project affected units (PAUs¹) identified at Chakaria (710 PAUs), followed by Lohagara (541 PAUs), Dohazari (306 PAUs), Keranihat (263 PAUs) and Patiya (251 PAUs). Among the total affected PAUs, there are 27 community property resources (CPRs) out of which 03 at Patiya, 04 at Dohazari, 12 CPRs are at Lohagara, 7 CPRs at Keranihat and only 01 CPR at Chakaria. Apart from the community properties, 9 offices and institutions are also getting affected by 150 ROW among them 01 at Patiya, 02 at Dohazari and 2 offices/institutions are at Lohagara and 4 at Keranihat. No office or institution affected at Chakaria site.

Total 9,119 persons in 2035 households (excluding CPRs) are affected with average HH size is 4.48 in 150 feet ROW.

Table 2–1: Summary of Project Impacts

Sl. No.	Project Impacts	150 Feet					Total
		Dohazari	Lohagara	Chakaria	Patiya	Keranihat-Flyover	
1	Amount of Private land (acre)	35.23	59.10	75.02	28.02	1.20	198.57
2	Amount of Govt. land (acre)	0.96	0.20	0.12	0.10	0.13	1.51
3	Number of total affected HHs	300	527	709	247	252	2,035
4	Total number of households requiring relocation	212	212	254	156	237	1,071
5	Number of titled HHs losing res/com and other structures requiring relocation	199	206	250	153	82	890
6	Number of titled HHs losing res/com and other structures requiring No-relocation	7	24	11	19	4	65
7	Number of Non-title losing res/com and structures requiring relocation	13	6	4	3	155	181
8	Number of Non-title losing res/com and structures requiring No relocation	0	0	0	1	11	12
9	Only Land	81	291	444	71	0	887

¹ PAUs denote Project Affected Units that include affected households, business and community properties

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

10	Number of CPRs affected	4	12	1	3	7	27
11	Number office/Institutions	2	2	0	1	4	9
12	Total number of Project Affected Units (D-I)	306	541	710	251	263	2,071
13	Number of tenants affected	159	41	34	53	228	515
14	Number of business affected	166	46	35	46	344	637
15	Number of wage labourer affected	188	10	28	24	289	539
16	Number of Vendors affected	15	0	0	0	191	206
17	Number of trees affected	7,426	18,049	17,559	10,927	2,776	56,737
18	Total number of persons affected	1,517	2,255	3,009	1,125	1,213	9,119

Source: Census & IoL Survey August 2022

2.2 Affected Entities by Category of Loss

The data collected revealed that 705 (34.04%) HHs lost residential structures in five bottleneck sections while 332 (16.03%) HHs lost their commercial structures and 36 HHs lost both residence cum commercial structures. The proposed alignment is also affecting the agricultural land. A total of 887 HHs (42.83%) have been identified as the owners of only plain land without encumbrances. Among them 291 HHs at Lohagara, 81 HHs at Dohazari, 71 HHs at Patiya and 444 HHs at Chakaria. A total of 75 HHs are losing only secondary structures (boundary wall, tube well, drain, etc.) by the project. Primary structure owners (residence and shops) are required relocation elsewhere since major portion of the primary structures have been affected by the project.

Table 2–2: Total Entities Affected by the Project in Five Locations

Types of affected entities	150 Feet					Total	%
	Patiya	Dohazari	Lohagara	Chakaria	Keraniha t Flyover		
HHs losing Residential structure	130	149	184	238	4	705	34.04
HHs losing Commercial structure	22	53	21	13	223	332	16.03
HHs Losing both Res. Cum Commercial	4	12	7	3	10	36	1.74
HHs losing only Secondary Structure	20	5	24	11	15	75	3.62
HHs losing only Land	71	81	291	444	0	887	42.83
Community Properties (CPRs)	3	4	12	1	7	27	1.30
Other Offices/Institutions	1	2	2	0	4	9	0.43
Total PAUs	251	306	541	710	263	2,071	100.00

Source: Census & IoL Survey August 2022

2.3 Impact on land

Bangladesh is a small country bearing huge population with density of 1265 per square km (3277 per square mile). Besides, the project is in the Chattogram, region where land scarcity and price are much more than other parts of the country. Taking into account of the land scarcity, the project authority (RHD) is considering minimizing land acquisition and displacement by narrowing the width of the project right of way to 150 feet from 300 feet proposed in the RAP study.

A total of approximately 198.57 acres (80.39 ha) of private land will be acquired for the 150 width ROW at five locations out of which approx. 28.02 acres at Patiya, 35.23 acres at Dohazari, 59.10 acres at Lohagara, 75.02 acres at Chakaria and 1.20 acre from Keranihat. It is to be noted that the land requirement at Keranihat is found same as before since the alignment width is unchanged.

Table 2-3: Quantity of private land to be acquired

Category of Land	Quantity of affected land in Acre by locations					Total in acre	Total in ha	%
	Patiya	Dohazari	Lohagara	Chakaria	Keranihat			
Residence	6.50	6.98	7.35	9.30	0.10	30.23	12.24	15.22
Commercial	0.43	2.90	0.75	0.65	0.94	5.67	2.30	2.86
Orchard	0.30	0.35	0.00	0.60	0.00	1.25	0.51	0.63
Vita	1.42	6.50	0.35	0.00	0.00	8.27	3.35	4.16
Community Property	0.00	0.00	0.55	0.50	0.08	1.13	0.46	0.57
Pond	1.50	1.56	3.65	1.55	0.00	8.26	3.34	4.16
Null	17.87	16.14	46.35	62.42	0.08	142.86	57.84	71.95
Ditch	0.00	0.80	0.10	0.00	0.00	0.90	0.36	0.45
Total (acre)	28.02	35.23	59.10	75.02	1.20	198.57	80.39	100.00

Source: Census & IoL and LA Survey August 2022

Apart from the private land about 1.505 acres of land of various agencies (other than RHD) will be used for the project. This land will require inter-Ministerial/Departmental transfer to RHD for this project. Location wise quantity of land to be taken from various agencies are presented in the table below.

Table 2-4: Land to be taken from various agencies

S.L	Ownership of land	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Total Land (Acre)
1	Education Department	0	0	0.165	0.12	0.10	0.385
2	Ansar Camp	0.05	0	0	0		0.05

2.4 Impact on Primary Structure

2.4.1 Impact on Primary Structures of Private Land

Primary structures have been divided into two types based on land ownership status i.e., on private land and on government land. Around six percent (77,282 sft out of total 1,208,315 sft) of total affected structures are on the government land at five sections.

A total of 1,131,033 square feet (sft) primary structures of various types² (Pucca, Semi-pucca, Tin-made, Katcha and Thatched) are identified on the private land in the five sections containing pucca structures with 474,620 sft, semi-pucca with 346,606 Sft, tin-made structure with 170,835 sft, Katcha structure with 133,729 Sft and thatched with 5,244 Sft. Most of the primary structures on private land are in Lohagara (355,921 Sft.) followed by Chakaria (262,245 Sft.), Dohazari (223,272 Sft.), Patiya (186,623 Sft.) and Keranihat (102,972 Sft).

It is revealed that major portion (72.61%) of the affected structures is non-shiftable (Pucca & semi-pucca) category while about 27.39% is shiftable (Katcha, Tin-made and Thatched) that indicates the economic condition of the affected people is well off. If adequate compensation is paid for the affected assets, the PAPs will be able to reconstruct their structures.

Table 2–5: Affected primary structure on Private land

Category of Structure	Quantity (sft)					Total (sft)	%
	Patiya	Dohazari	Lohagara	Chakaria	Keranihat		
Pucca	59,428	86,491	188,218	67,060	73,423	474,620	41.96
Semi-Pucca	77,235	70,693	93,744	83,430	21,504	346,606	30.65
Tin made	34,230	31,292	44,940	53,797	6,576	170,835	15.10
Katcha	15,121	34,050	28,789	54,299	1,470	133,729	11.82
Thatched	609	746	230	3,659	-	5,244	0.46
Total	186,623	223,272	355,921	262,245	102,972	1,131,033	100

Source: Census & IoL Survey August 2022

2.4.2 Impact on Primary Structures on Government Land

A total of 77,282 square feet (sft) primary structures of various types³ (Pucca, Semi-pucca, Tin-made, Katcha and Thatched) are identified on the govt. land in the five sections where pucca structure 30,282 Sft, semi-pucca structures are with 16,802 Sft, tin-made with 26,827 sft, Katcha structure with 3,278 Sft and thatched structures with 70 Sft. Pucca primary structures have been identified on govt. land Only in Keranihat.

² Pucca= Concrete roof with brick wall and concrete/brick floor, Semi-pucca= CI Sheet roof with brick wall and brick floor, Tin-made= CI sheet roof with CI sheet fence and brick/earthen floor, Katcha= CI sheet roof with wooden/ bamboo fence and earthen floor, Thatched= Straw roof with straw/bamboo/wooden/earthen fence and earthen floor.

³ Pucca= Concrete roof with brick wall and concrete/brick floor, Semi-pucca= CI Sheet roof with brick wall and brick floor, Tin-made= CI sheet roof with CI sheet fence and brick/earthen floor, Katcha= CI sheet roof with wooden/ bamboo fence and earthen floor, Thatched= Straw roof with straw/bamboo/wooden/earthen fence and earthen floor.

Most of the primary structures on govt. land are in Keranihat (67,426 Sft) followed by Dohazari (3,145 Sft), Lohagara (2,752 Sft), Patiya (2,370 Sft) and Chakaria (1,589 Sft).

Table 2–6: Affected Primary Structure on Government Land

Category of Structure	Quantity (sft)					Total (sft)	%
	Patiya	Dohazari	Lohagara	Chakaria	Keranihat		
Pucca	-	-	-	-	30,287	30,287	39.19
Semi-Pucca	2,166	1,892	1,168	-	11,594	16,820	21.76
Tin made	204	840	1,404	1,019	23,360	26,827	34.71
Katcha	-	413	180	500	2,185	3,278	4.24
Thatched	-	-	-	70	-	70	0.09
Total	2,370	3,145	2,752	1,589	67,426	77,282	100

2.5 Impact on Secondary Structures

Apart from the primary structures, there are some secondary/auxiliary structures which are affected within the proposed ROW at five bottleneck sections. The secondary structures include boundary walls, septic tanks, sanitary toilets, pucca floor, RCC pillars, machine foundation, stairs, bridge, drain, deep tube-wells etc. The major affected secondary structures are septic tanks,

Affecting secondary structures will not lead to displace the HHs. Secondary structures are measured in square feet (sft), running feet (rft), cubic feet (cft) and number based on the nature and use of structure.

There are some major impacts on Septic tanks, boundary walls (5"), pucca floors, verandas and water tanks. The below table portrays that a total of 136 septic tanks with an area of 251,139 cft will be affected; out of which 118,137 cft is in Lohagara followed by 74,727 cft in Patiya, 47,942 cft in Chakaria and 10,333 cft in Dohazari. Affected people will need to reconstruct toilets including septic tank to ensure adequate health & hygiene for their family members.

Out of 207 affected boundary walls (5") with an area of 25426 rft, 12,697 rft in Lohagara, 6,161 rft in Chakaria, 3,957 rft is in Patiya, 553 rft in Keranihat and 2,058 rft in Dohazari.

A good quantity of veranda, pucca floor and water tanks will also be affected by the project.

Table 2–7: Impact on secondary structures

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

The reduced ROW (150 feet) still affects the following community properties which were affected in 300 feet width ROW also.

Gate (Fotok)

Mosque

Ablution Points of the Mosque

Gate of Madrasah (CPRs)

Shohid Minar (Martyr Monument)

Passenger shed of a bus stop

2.6 Impact on trees

A large number of trees of various species and size⁴ have been found affected in the proposed right of way of five bottleneck sections since the alignment is passing through villages in all these five bottleneck sections. A total of 56,574 trees of various species and sizes; Large 10,096, Medium 14,597, Small 25,378 and plant (sapling) 6503 are affected.

Out of the total, 17961 trees in Lohagara, 17559 trees in Chakaria, 10887 trees in Patiya 2741 trees in Keranihar and 7426 trees in Dohazari, have been identified during the field survey in 150 feet ROW. The trees have been categorized as fruit bearing, timber type, firewood, medicinal, bamboo, cane bush, papaya, and banana. Size and species will be finally assessed by the Forest department during Land acquisition process and compensation will be paid adding 100% premium as per ARIPA 2017. The owners of trees will get replantation cost @2% of the compensation following the entitlement matrices adopted by RHD.

Table 2–8: Impacts on trees (both private and govt land)

Location	Type of Tree	Large	Medium	Small	Plant	Grand Total
Dohazari	Fruit bearing	246	524	712	240	1722
	Timber	233	538	2090	354	3215
	Timber & fruit	128	144	356	166	794
	Firewood		8	4	18	30
	Medicinal			7		7
	Bamboo bush	55	153	131		339
	Banaba	254	387	495	141	1277

⁴ **Timber:** High timber value and used for furniture fixture such as, Rain Tree/Koroi, Mehgini, Shegun, etc.

Fruits and Timber: High value of Timber and fruits as well, such as Mango, Jackfruit, Litchi, Coconut, Dates, Palm tree, etc.

Fruit bearing: High value of fruits but very less value of timber such as Guava, Lemon, Sofeda/Shorifa, Dalim, etc.

Criteria of Tree Size Measurement: Big= 16+ feet height and square 30-40 Inch, Medium= 11-15 feet height and square 20-30 Inch, Small= 6- 10 feet height and square 10-20 Inch, Plant= 1- 5 feet height and square 1-10Inch,

Note: Tree measurement will be calculated based on tree measurement log sheet of Forest Department.

2.7 Impact on community properties and public properties

2.7.1 Community Properties and Office/Institutions

As per Census and IOL survey 27 CPRs and 09 other offices/institutions will be affected by the project. Offices and institutions will be compensated, and the concerned agencies/ministries will relocate their structures by themselves. CPRs management committee will also be paid compensation and they will relocate/reconstruct their structures by themselves.

Table 2-9: Impacts on Community Properties and Office/Institutions

2.7.2 Primary Structure of Affected CPR and other offices/Institutions on Private Land

Total 45,259 Sft primary structures on private land of total community properties (CPRs)⁵ and other offices/institutions⁶ have been identified during the census and IOL survey. Out of the total quantity of

⁵ CPR: (Community Property Resource) Refers to social, religious and educational institutions constructed for the community interest and maintained by a group of people of the community.

⁶ Offices/Institutions denote government offices, schools, clubs, etc. those are operated by an interest group/government, not by community.

structures, major portion is pucca structure (41,730 sft.) followed by Tin-made (2054 sft) and Semi-pucca (1475 sft). No Katcha structures were found. Maximum quantity is affected at Keranihar (25,878 Sft) followed by Lohagara section (10,814 sft) while minimum quantity is affected at Patiya (196 sft). The table underneath presents number and quantity of affected CPRs and other offices/institutions at five bottleneck sections.

Table 2–10: Primary Structures of affected CPRs on Private Land

Category of Structure	Quantity (150 Feet)					Total (sft)
	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	
Pucca	196	3,195	10,814	4,420	23,105	41,730

2.7.3 Primary Structures of CPRs and other offices/institutions on Government Land

Total 11,727 Sft. primary structures of community properties (CPRs) and other offices/institutions have been identified on the govt. land during the census and survey. Out of the total quantity of structures, major portion is Pucca structure (4126 sft.) followed by Tin-made (3,246 sft), Semi-pucca (3,062 sft), and Katcha (1295 sft). Maximum quantity is affected at Patiya section (6,348 sft) followed by keranihat (4,258 sft) while the rest affected structures are at Lohagara (1,121 sft) as seen in the table below. There are no affected primary structures of CPR on govt. land in the other two (2) sections- Dohazari and Chakaria.

Table 2–11: Primary Structures of CPRs and other offices/institutions on Government Land

Category of Structure	Quantity of affected structure by location					Total (sft)
	Patiya	Dohazari	Lohagara	Chakaria	Keranihat

2.7.4 Secondary Structures of CPRs and other offices/ institutions

Apart from the primary structures of the CPRs and other offices/institutions, there are some secondary structures including donation box, gate, tube well, ablution bench and points, boundary wall, septic tank, etc. at all five major bottleneck sections. Types, nature and size/quantity of secondary structures will be finally assessed by Public Works Department (PWD) during Land acquisition process as per GOB rule. The secondary structures are measured in square feet (sft), running feet (rft), cubic feet (cft) and number (No.) based on nature of the structure.

Table 2–12: Secondary Structures of CPRs and other offices/institutions

2.7.5 Trees owned by CPRs and Other offices/Institutions

Total 163 trees are identified in the CPRs & other offices/institutions premises situated at five bottleneck points. Out of them, 88 trees are in Lohagara, 40 in Patiya and 35 in Keranihat. The table underneath shows that there are no affected trees in the CPRs of Dohazari and Chakaria sections.

Out of the identified trees, the major portion are small trees (180), followed by Medium trees (112), and large trees (68).

Table 2–13: Trees affected on the CPRs and Offices/Institutions land

Type of Tree	Tree (CPR)			Grand Total	
	Large	Medium	Small		
Dohazari	No trees			0

2.8 Impact on Business

Three categories of business have been identified based on nature and capital investment i.e. large (having TIN certificate and capital investment is more than BDT 500,000), medium (have no TIN certificate and capital investment is BDT 200,000 to 500,000 and small (have no TIN certificate and capital investment is less than BDT 200,000). In the five bottleneck sections, total 637 business units have been found affected of which about 67.58% is small, 22.87% is medium and 9.56% business is large. During Detailed Design stage business restoration grants for large and other categories will be assessed through final census socioeconomic & IOL survey.

Table 2–14: Nature of business affected by the project

Nature of business	Patiya	Dohazari	Lohagara	Chakaria	Keranihat Flyover	Total	%
Large business	8	7	10	3	97	125	9.56
Medium business	11	44	10	2	78	145	22.87
Small business	27	115	26	30	169	367	67.58
Total	46	166	46	35	344	637	100

Source: Census, IoL Survey August 2022

2.9 Impact on Tenants

The table underneath presents the data of affected tenants at five locations. The number of tenants (commercial) mostly were affected at Keranihat section. Keeping the Keranihat aside, the number came into 515 tenants from which 454 are identified as commercial tenants and 61 are residential tenants. Among the five bottleneck sections, Keranihat represents the maximum number of commercial tenants (216) followed by Dohazari (141) while Patiya has the maximum number of residential tenants (19). As per entitlement matrix, tenant business operators will be entitled to have resettlement benefits to restore their business, while the residential tenants will get support for alternative rental arrangement.

Table 2–15: Types of affected Tenants

Type of Tenant	Number					Total
	Dohazari	Lohagara	Chakaria	Patiya	Keranihat Flyover	
Residential	18	8	4	19	12	61
Commercial	141	33	30	34	216	454
Total	159	41	34	53	228	515

Source: Census, IoL Survey August 2022

2.10 Impact on Vendors

Apart from the squatter and tenants there are plenty of vendors⁷ at Keranihat and few at Dohazari. In the five sections there are 191 vendors at Keranihat and only 15 vendors are affected at Dohazari. No vendors are found in other bottleneck sections. These vendors are selling their goods on the RHD land without rent or tax. Numbers of vendors are always changeable and new vendors may come to the site or someone may leave at any time. Therefore, the final list of the vendors will be determined by the PAVC and GRC during implementation of the Resettlement Action Plan. Affected vendors may get resettlement benefits to restore their business elsewhere.

Table 2–16: Affected vendors at Lohagara and Keranihat

Types of Vendors	Dohazari	Keranihat	Total
Bag seller	0	1	1
Cloth seller	0	40	40
Cosmetics shop	0	4	4
Flexi load/ Bkash shop	0	8	8
Fruits shop	0	61	61
Grocery shop	0	5	5
Jhal Muri (spicy puffed rice)	0	2	2
Lock & Key repair	0	1	1
Bycycle Mechanics	0	1	1
Betel leaf, Cigaratte, betel nut	7	33	40
Shoemaker	0	17	17
Street food	2	9	11
Tailors	0	1	1
Tea Stall	0	2	2

⁷ Petty businessmen who do their business on small structure on wheel or sit on the ground without structure. They sit on a particular location every day and sale their goods. Mobile vendors who sale goods (betel leaf, nuts, cigarette, etc.) on foot are not included in this category. It is to be noted that the vendors without permanent structures, doing business on the same place for almost every day, were considered entitled vendors in some Development Partners financed projects (e.g. MRT Line 6 project of JICA, Bus Rapid Transit Project of ADB) in Bangladesh.

Types of Vendors	Dohazari	Keranihat	Total
Vegetable	4	4	8
Watch Repairing Shop	0	2	2
Dry Fish	1	0	1
Meat	1	0	1
Total	15	191	206

Source: Census, IoL Survey August 2022

2.11 Impact on wage laborers

A total of 539 wage laborers have been identified during census and IOL survey at five bottleneck sections. Most of them are male wage laborers (533) and remaining are female (06). The female wage laborers are mainly engaged in the restaurant as assistant to the cook, supplying of drinking water, etc. On the other hand, male wage laborers are mostly engaged in restaurant, grocery shop, wholesale market, etc. Major impacts on wage laborers are found at Keranihat (289) followed by Dohazari (188) and Patiya (24). Wage laborers will be entitled to have grants for wage loss for a certain period as per policy of the RAP.

Table 2–17: Affected wage laborers at Five bottleneck sections

Impacts on Wage laborers	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Total
Male Wage Laborer	24	188	10	22	289	533
Female Wage Laborer	0	0	0	6	0	6
Total	24	188	10	28	289	539

Source: Census, IoL Survey August 2022

2.12 Impact on vulnerable group

The vulnerable HHs have been defined as (a) income below poverty line⁸, (b) HH head with disability, (c) female headed poor⁹ households, and (d) old aged headed poor households. According to the census and socioeconomic survey income level of the HHs has been assessed. Considering set vulnerability parameter, 948 HHs are found vulnerable from which 752 male headed under poverty line, 84 female headed HHs, 17 HHs headed by person with disability and 88 HH heads aged above 65 years at five bottleneck sections. Along with the HHs living under poverty line other vulnerable HHs will be entitled to have additional resettlement benefits as per policy of the RAP. The table underneath presents the vulnerable HHs of different categories in five bottleneck sections.

⁸ According to the Household Income and Expenditure Survey (HIES) 2016 of the Bangladesh Bureau of Statistics (BBS) the upper poverty line for HH size of 4.06 in 2016 was BDT 15,988 per HH/month. Acknowledging the average HH size of the project area (4.55) BDT 23,500 (Say 24,000) has been adopted as the 2021 poverty line for the project. Therefore, HHs with average income up to BDT 24,000 per month is considered to be living under the poverty line.

⁹ Living under poverty line

Table 2–18: Vulnerable HHs in the Five bottleneck sections

Vulnerable Type (150 Feet)	Patiya	Dohazari	Lohagora	Chakoria	Keranihat	Total
Male Headed HHs Under poverty line (Income up to BDT 24000/HH)	83	89	197	335	48	752
Female headed HH under poverty line	7	9	30	37	1	84
HHs Headed by person with disability under poverty line	2	5	3	5	2	17
Old Aged (>65) under poverty line	5	3	33	47	7	95
Total	97	106	263	424	58	948

3 ELIGIBILITY POLICY AND ENTITLEMENT MATRIX

3.1 Eligibility Criteria

All Entitled Persons (EPs) irrespective of their title to land will get compensation, resettlement benefit and assistance following the JICA Environmental Guideline based on loss and impact categories identified through census, SES and IoL for the RAP study of the CCHIP project. Nevertheless, eligibility to receive compensation and other assistance has been limited by the cut-off date. The cut-off date for compensation under the law (ARIPA 2017) is considered for those identified on the project right of way (RoW) land to be proposed for acquisition at the time of serving notice under Section 4 for titleholders. The cut-off date of eligibility for resettlement assistance under the RAP study is the commencement date of the census and socioeconomic survey for non-titleholders and the Section notice 4 issue date for titleholders. The absence of legal title will not bar PAPs from compensation and assistance, as specified in the entitlement matrix (Table 6-1).

PAPs with legal rights to the land and other assets to be acquired will receive cash compensation under law (CCL) to be paid by DC office following the ARIPA 2017 while the EPs without title will receive compensation, grants, resettlement benefits and assistance as per entitlement matrix presented below. The entitlement matrix has been developed considering the category of losses & magnitude of impacts identified during consultation meetings and census, SES and IoL for the RAP study. EPs may also receive additional assistance (Top up amount which is a difference between replacement cost and CCL). Affected vulnerable household (e.g., Poor male and female headed households, disabled headed households and old aged headed households) will be eligible for one-time special subsistence allowance as per approved e policy. Non-vulnerable households with structures affected will be entitled to compensation for structures and assistance for shifting and reconstruction of the same. Any structure not directly used by a non-vulnerable household i.e., rented out for income will not qualify for additional resettlement assistance.

3.2 Compensation and Entitlements

The Entitlement Matrix for each category of impacts has been prepared on the basis of the Census, SES and IoL for RAP study conducted from August 2020 to June 2021 with the affected households, residential and commercial structures, businesses and community assets following the project's resettlement policy. The below table (6-1) presents compensation and entitlement matrices for various categories of losses assessed during the census and IOL survey. A person could be eligible for compensation/ entitlement in more than one category of losses and in more than one mauza. DC office will pay compensation under law (CCL) as per market value assessed through legal procedure for each mouza separately for one person whose lands/assets have been acquired in more than one mauza.¹⁰ The resettlement benefit for indirect losses and the difference between replacement value and the CCL will be paid by RHD with assistance from RAP Implementing Agency (IA). Following the resettlement principles suggested for the project, all affected households and persons will be entitled to a combination of compensation packages and

¹⁰The awards or CCLs are determined under units of mouza (revenue village & minimum boundary under land administration system in Bangladesh). As a result, a person becomes entitled to as many awards or CCLs as the number of mouzas where his/her property are acquired. The awards are paid separately for each mouza.

resettlement assistance depending on the nature of ownership rights on lost assets, the scope of the impacts including the socio-economic vulnerability of the affected persons and measures to support livelihood restoration if livelihood impacts are envisaged. The affected persons will be entitled to

- a) compensation for the loss of land, crops/ trees at their replacement value;
- b) compensation for structures (residential/ commercial) and other immovable assets at their replacement value;
- c) assistance for loss of business/ wage income;
- d) assistance for shifting and reconstruction of affected structures.
- e) assistance to vulnerable households

Based on the principles proposed for impact mitigation, the following matrix (Table 6-1) defines the specific entitlements for different types of losses and the entitled persons.

Table 3–1: Compensation and entitlement matrix

No.	Type of Loss	Entitled Person	Entitlement
1	Loss of land (all types of land to be acquired for the project)	Entities with legal title	i. Compensation at Replacement Cost (RC) ii. If the Replacement Cost is more than the cash Compensation under Law (CCL), the difference (top-up/assistance/grant) is to be paid by the project. iii. Stamp duty, registration cost, Tax, Value Added Tax and other fees incurred for replacement land will be paid at actual for those affected landowners purchasing alternative land within the one year from the date of CCL received. iv. Dislocation/relocation allowances/grant for affected land @BDT 300/decimal.
2	Loss of standing seasonal crops on the affected land	Owners with legal titles/sharecropper/lease holders	Compensation for standing crops as per ARIPA 2017 (Cash Compensation under Law)
		Socially recognized owner/without legal titles/squatters/encroachers.	i. Compensation for standing crops to actual owners/ cultivators as per ARIPA 2017 ii. Owner/grower to take away the crop
3	Loss of Trees/ Perennials/ fish stocks	Owners with legal title	i. Compensation for trees/perennials/fish stocks as per ARIPA 2017 (Cash Compensation under Law) ii. 2% of CCL value of trees or perennials as grant/allowance for plantation.
		Socially recognized owner/ without legal titles/ squatters/ encroachers	i. Cash compensation at market rates for replacement of trees/ perennials/ fish stocks value ii. For fruit bearing trees- compensation for trees and fruits as per Dept of Forest scheduled rate. Fruit compensation will not exceed @ 30% of timber value for one years. iii. Compensation for fish stocks as determined by DC as per ARIPA 2017 on private land and by PVAT on GoB land. iv. 5 tree saplings (2 fruit trees, 2 timber type and 1 medicinal tree) will be provided for households losing trees. v. Owners will be allowed to fell and take away their trees, perennial crops/ fishes, etc. free of cost without delaying the project works.

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

No.	Type of Loss	Entitled Person	Entitlement
4	Loss of structures	Owners with legal title	<ul style="list-style-type: none"> i. Compensation for affected structures as per ARIPA 2017 (Cash Compensation under Law) ii. Transfer grant @ BDT 10 per sft of main structure iii. Reconstruction grant at 2% of Cash Compensation under the Law (CCL) value for affected structures. iv. Rental assistance for 2 months' actual rent not exceeding BDT 10,000/= for the owner of the commercial & residential structures/HHs
		Loss of structure on Khas/Waqf land/other government land	<ul style="list-style-type: none"> i. Replacement Cost of affected structures to be determined by Resettlement Assessment and Valuation Committee (RAVC). ii. Structures (including CPR) or occupancies constructed with an intent of getting unworthy compensation or benefits, identified by RAVC, shall not be considered for entitlements. The decisions of RAVC on entitlement and compensation of encroachers or squatters shall be final. iii. Unauthorized Signboard on these types of land shall not be allowed for entitlements.
5	Loss of residential structure by Informal Resident (Resident Squatter)	Informal Resident (Resident Squatter)	<ul style="list-style-type: none"> i. Replacement cost of structure as assessed by PVAT considering scheduled rate of Public Works Department. ii. Transfer grant @ BDT 10 per sft of main structure iii. Reconstruction grant @ BDT 15 per sft of main structure. iv. Rental assistance for 2 months' actual rent not exceeding BDT 10,000/= for the owner of the commercial & residential structures/HHs v. Owners will be allowed to take away all salvage materials free of cost.
	Loss of commercial structure by Informal Occupant (Commercial Squatter)	Informal Occupant (Commercial Squatter)	<ul style="list-style-type: none"> i. Replacement cost of structure as assessed by PVAT considering scheduled rate of Public Works Department. ii. Informal occupant (commercial squatter) PAPs will be eligible for transfer grant @ BDT 10 per sft, only if PAP's shop will be physically displaced. iii. Informal occupant (commercial squatter) PAPs below poverty line will be eligible for reconstruction grant @ BDT 15 per sft of main structure, only if PAP's shop will be physically displaced and eligible for assistance for vulnerable PAPs. iv. Rental assistance for 2 months' actual rent not exceeding BDT 10,000/= for the owner of the commercial & residential structures/HHs v. Owners will be allowed to take away all salvage materials free of cost
	Loss of residential/commercial structure by Informal Occupant (Encroacher)	Informal Occupant (Encroacher)	<ul style="list-style-type: none"> i. Replacement Cost of structure as assessed by PVAC considering scheduled rate of Public Works Department.

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

No.	Type of Loss	Entitled Person	Entitlement
	Informal Occupant (Encroacher)		<ul style="list-style-type: none"> ii. Encroacher PAPs will be eligible for transfer grant @ BDT 10 per sft, only if PAPs will be physically displaced. iii. Encroacher PAPs below poverty line will be eligible for reconstruction grant @ BDT 15 per sft of affected main structure, only if PAPs will be physically displaced and eligible for assistance for vulnerable PAPs. iv. Rental assistance for 2 months' actual rent not exceeding BDT 10,000/= for the owner of the commercial & residential structures/HHs v. Owners will be allowed to take away all salvage materials free of cost.
6	Loss of Common Property Resources (CPRs)	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroaches	<ul style="list-style-type: none"> i. Special grant for reconstruction at 7% of CCL value on structures for the title holders ii. Special grant for reconstruction at 7% of Replacement Cost on structures determined by RAVC for non-title holders
7	Loss of utility connection	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroaches	Cash grant for utility replacement will be paid at actual amount required for replacement
8	Loss of tenancy right/access	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroaches	Moving/shifting assistance for commercial and residential tenants at 2 months' actual rent not exceeding BDT 10,000/=
9	Loss of business due to dislocation of Commercial and Business Enterprise (CBE)	Owners with the legal title /Socially recognized owner/without legal titles/squatters/encroachers	<ul style="list-style-type: none"> i. Business restoration grant @ BDT 10,000 for each business unit without trade license. ii. BDT 20,000/each entity for those who have valid trade licenses. iii. BDT 80,000/each entity for those who have a valid trade license & up to date BIN (Business Identification Number) certificate. iv. BDT 150,000/each entity for those who have a valid trade license, up-to-date BIN (Business Identification Number) certificate, company registration/ audited balance sheet.
10	Loss of income and workdays due to shifting/relocating activities	Owners with the legal title /Socially recognized owner/without legal titles/squatters/encroachers	BDT 600 x 30 days = BDT 18,000/-
11	Loss of grave/graveyard /tomb/cremation place relocation	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroaches	<ul style="list-style-type: none"> i. BDT 50,000/each for community graveyard/cremation place ii. BDT 10,000/each for family grave/tomb
12	Assistance for Vulnerable (VG) HHS	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroaches	One time grant to all male headed vulnerable HHs @ BDT 10,000/HH

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

No.	Type of Loss	Entitled Person	Entitlement
13	Assistance for women headed HHs	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroach es	One time grant to all female headed vulnerable HHs @ BDT 15,000/HH
14	Assistance for Indigenous HHs	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroach es	One time grant to affected indigenous HHs @ BDT 10,000/HH
15	Loss of income/source of livelihood	Owners with legal title /Socially recognized owners/without legal titles/squatters/encroach es who lost or need to change their income sources due to relocation	Training on Income Generating Activities (IGA) to one eligible member (age 15-50) from HH that has lost income source or need to change their job due to relocation. Training needs will be assessed by the RAP IA
		Owners with legal title /Socially recognized owners/without legal titles/squatters/encroach es	Linkage with financing institutions (Banks, NGOs) for financial assistance such as business loans through RAP IA.
		Owners with legal title /Socially recognized owners/without legal titles/squatters/encroach es with vulnerability	Seed money @BDT 15,000/one trained member from vulnerable HHs as grant for Income Livelihood Restoration Program (ILRP)
16	Temporary impact during construction	Households/persons/com munity affected during construction	The contractor shall bear the impact on structure or land. It is the responsibility of the contractor to pay for any damage caused by construction works and normally the contractor enters direct contract with the households whose land/properties will be affected by the construction activities.
17	Unforeseen adverse impact	Households/persons/com munity affected during construction/RP implementation	Compensation/allowance/grant/assistance depending on types of loss will follow the principle of safeguard policy and entitlement matrix proposed in the document.

Source: JST

4 ESTIMATED COST AND BUDGET

4.1 Budgeting and Financial Planning

All land acquisition & resettlement funds will be provided by the RHD based on the financing plan agreed by the Government of Bangladesh and JICA. Land acquisition, compensation, relocation, and rehabilitation of livelihood will be considered as an integral component of the project costs. The rehabilitation and training to the potentially affected persons will be provided under the LRP based on vulnerability and needs to be assessed during project implementation stage through a special census and consultation exercise.

The cost estimate for land acquisition by the DC will be prepared by the LA section and placed to the RHD for transfer of the fund to the account of the DC. The additional benefits to the affected people will be paid by the RHD (PMO) with assistance from the RAP IA. However, the RAP IA will assess the number of losses and the eligible persons for resettlement benefits and produce a resettlement budget to RHD for approval and periodic release.

The PMO of RHD will ensure that the land acquisition and resettlement budgets are delivered on time to the DC account for payment of compensation to legal owners. The budgets for compensation for land, structures, other assets, crops and trees, and special assistance have been calculated using the market rates. The costs for relocation and special assistance are consistent with the resettlement policy. Other costs involving project disclosure, public consultations and focus group discussions, LRP are also included in the budget. There is also a budget allocation as contingency @5% of the resettlement cost.

Taking into account of the ARIPA 2017, compensation for land, structures, trees and crops have been assessed in this study. Since the LA plan process is not started therefore, the Mouza rates including 200% premium has been considered for preparation of the land price as DC's rate, while the market survey rate (people's opinion) has been taken into account as replacement cost. Higher price between Mouza rates plus 200% premium and people's opinion have been considered for preparation of the land budget.

In the case of structures and trees, the affected people are entitled to have a 100% premium as per ARIPA 2017 and the PAPs are allowed to take away salvageable materials free of cost. This is why additional compensation on top of DC's payment has not been considered for the structures and trees.

4.2 Summary Budget

The total estimated cost for land and structures acquisition and for payment of resettlement benefits is BDT **16,860,771,264** including the CCL amount (BDT **13,863,164,590**) to be determined by the DC and additional amount including resettlement benefits is BDT **2,997,606,673**. The total estimated cost for private land stands at 76.32% and Govt. land is 0.64% of the total cost while compensation for structures is about 11.70% and other resettlement benefits is 3.17% of the budget. Compensation for structure on private land has been kept in the DC's head while compensation for structures on GOB land is in the RHD head. The resettlement benefits include structure transfer grants, reconstruction grants, business restoration grants and grants for vulnerable PAHs. Operation cost for the implementing agency and external monitoring agency have been estimated based on experience of other similar types of projects.

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

An estimated budget for the capacity building training of the PMO officials on land acquisition and resettlement has been kept in the budget. Summary is presented in Table 3-1 below.

Table 4–1: Summary budget for Land Acquisition and Resettlement

S L.	Category of Loss	DC Budget	Additional budget and Resettlement benefits	Estimated RC amount in BDT	Percentage
A	Compensation For Land	11,405,795,750	1,462,749,920	12,868,545,670	76.32%
A 1	Compensation for Govt. Land	107,434,753.5		107,434,753.5	0.64%
B	Compensation for structure	1,881,887,850	949,98,073.48	1,976,885,924	11.72%
C	Compensation for Trees	196,219,480		196,219,480	1.16%
	Impact Budget (A+C)	13,591,337,834	1,557,747,994	15,149,085,827	
D	Other Resettlement Benefits		534,908,941	534,908,941	3.17%
E	Operation cost for RAP Implementing Agency/ INGO		50,000,000	50,000,000	0.30%
F	Operation cost for External Monitoring Agency		5,000,000	5,000,000	0.03%
G	Capacity building training of the RHD PMO officials		10,000,000	10,000,000	0.06%
	Civic Amenities in the Resettlement Site in case of group relocation		50,000,000	50,000,000	0.30%
H	Contingency @5% of the Sub-total		789,949,738.4	789,949,738.4	4.69%
I	Administrative cost @ 2% on the DC budget	271826756.7		271,826,756.7	1.61%
	Grand Total	13,863,164,590	2,997,606,673	16,860,771,264	100

Source: KMC Survey Team

4.3 Compensation for Private Land

A total of **198.57** acres of private land are identified in the proposed five bottleneck sections. The replacement cost for the affected lands has been estimated based on Mouza rate adopted for the year 2020 by the GOB and added 200% premium as per ARIPA 2017 or the market survey rate whichever is higher. Private land of 83 types (mutually exclusive) in Five bottlenecks among which in 38 cases the Mouza rate (including 200% premium) is higher than the people’s opinion while in remaining 45 cases people’s expectation is higher than the Mouza rate including 200% premium. A land market survey was conducted during the preparation of the RAP study to assess the current market price of affected land. The land market survey has been conducted to assess replacement value of the land. It is seemed that current market price at Patiya (Kachuai Mouza Vitakhain Mouza and Parigram Mouza) and in Chakaria (almost all Mouza) is higher than the Mouza rate including 200% premium. Total estimated cost for private land is **BDT 12,868,545,670** from which DC’s head is **BDT 11,405,795,750** and additional compensation to be paid by RHD directly **BDT 1,462,749,920**. Detailed budget is attached in Annex-2.

Table 4–2: Estimated Cost for affected private land

4.4 Compensation for Government Land

Apart from the private land, about 1.505 acres of government land (several agencies other than RHD) are also affected within the right of way. The Government land affected within the ROW is homestead category (office premise) and therefore rate of homestead of the concerned Mouzas including 200% premium have been applied. The compensation for Government land stands at **BDT 107,434,754**. Compensation for Government land will be transferred to concerned department by the DC office or RHD as per law.

4.5 Compensation for structure

Various categories of primary and secondary structures are affected on private land and government land. Structures are used for residential, commercial and community interest/offices/institutions. Affected structures are primarily categorized as main/primary structure and auxiliary/ secondary structures. Five categories of primary structures are identified such as Pucca, semi-pucca, tin-made, katcha and thatched. Besides, several categories of secondary structures are also identified.

Compensation for primary and secondary structures have been assessed based on PWD rates and recent project experience of RHD (Syhet Tamabil Project, Nov 2019).

4.5.1 Estimated cost for Primary Structures (Houses and shops)

Affected structures are owned by the households, shops, community properties and government/NGO offices on private and government land. Various categories of structures are affected within the right of way. Costs of structures have been assessed considering the rates of recent project i.e. Improvement of Sylhet-Tamabil Road to a 4 Lane Highway Project of RHD (Nov 2019). During implementation of the project, Deputy Commissioner will determine price for structure on private land based on the assessed price by the Public Works Department and adding 100% premium as per ARIPA 2017. Additional compensation on top of DC's payment will not be required since the structure owners will be allowed to take away salvageable materials free of cost after payment of compensation. Price of structures on the GOB land will be directly paid by the RHD since DC office will not pay for them. Structures on Govt land has been calculated @ 80% of the structure rate on private land considering the quality of structures and formula used in Improvement of Sylhet-Tamabil Road to a 4 Lane Highway Project (Nov 2019).

Total estimated cost of primary structures is **BDT 1,616,909,551** including the structures on private land and govt. land. Compensation for structures affected on private land will be paid by DC while on GOB land will be paid by RHD through RAP IA. Compensation for structures will be finally assessed based on the PVAC recommended rates. Tables (3.4 & 3.5) underneath present estimated cost of primary structures on private and government land.

Table 4–4: Estimated cost for primary structures

Affected Primary Structure HHs	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Estimated Budget
pucca	121,174,426.04	176,355,342.71	384,070,118.00	136,735,340.00	199,113,337	1,017,448,564
Semi-pucca	85,126,829.17	77,839,459.27	102,063,315.20	89,937,540.00	33,179,439	388,146,582
Tin-made	28,787,121.79	26,753,858.79	38,554,898.40	45,710,411.40	21,145,777	160,952,068
Katcha	5,519,190.55	12,548,862.43	10,507,985.00	19,965,135.00	1,174,570	49,715,743
Thatched	74,328.50	90,975.40	28,060.00	453,230.00	0	646,594
Compensation for primary Structure HHs B.1	240,681,896	293,588,499	535,224,377	292,801,656	254,613,123	1,616,909,551

Source: KMC Survey Team

4.5.2 Estimated cost for Secondary Structure (Houses and shops)

Apart from the primary structures, there are quite large numbers of secondary structures affected in the ROW on private and GoB land. Rates of secondary structures have been applied considering other recent projects of RHD and information obtained from the PAPs. Total estimated cost for secondary structures is **BDT 237,816,153** for housing and commercial structures at five bottleneck sections.

Table 4–5: Estimated cost for secondary structure

Affected Secondary Structure HHs	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Estimated Budget
Auto rice machines	-	300,000	-	-	0	300,000

4.5.3 Estimated cost for Primary Structures (CPRs/Offices)

Four categories of primary structures i.e., Pucca, Semi-pucca, Tin-made and Katcha are found affected on GoB land while only three categories (pucca, Semi-pucca and Tin-made) are affected on private land. Following the same rate of structures applied for houses and commercial premises, the CPRs compensation has been assessed. Total estimated cost for primary structures of CPRs/offices both on private land and Govt. land stands at **BDT 100,316,160**. CPRs on both private and government land will be paid compensation and encouraged for self-relocation. In case of Mosque and graveyard, the project may take initiative to reconstruct new CPRs in consultation with management committee. Table underneath presents the estimated cost of primary structures of CPRs on private and government land.

Table 4–6: Estimated cost for Primary Structure of CPRs/Offices

Affected Primary Structure (CPR+ Social and other institute)	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Estimated Budget
Pucca	1,011,344	6,514,299.15	23,878,321	9,012,380	51,398,418.74	91,814,763
Semi-pucca	1,234,957	814,968.00	-	-	2,180,612.896	4,230,538

4.5.4 Estimated cost for Secondary Structures of CPRs /Offices

Apart from the primary structures, secondary structures of the CPRs/offices are also affected. Secondary structures include donation box of the mosque, boundary wall, tube-well, septic tank, etc. Total estimated cost of the secondary structures of CPRs/Offices is **BDT 21,679,867**.

Table 4–7: Estimated cost for secondary structures of the affected CPRs/Offices

Affected Secondary Structure (CPR+ Social)	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Estimated Budget
Donation box	-	61,572	-	-	0	61,572

4.6 Compensation for Trees

The compensation for trees affected on private and government land has been assessed based on the scheduled rate of the Department of Forest for various species and size. The rates of trees have been taken from recent development project (Dhaka-Chattoogram Cox's Bazar Railway Project Preparatory Facility, PPP). Total estimated cost of affected trees of private owners stood at **BDT 195,553,880** while cost of trees on CPRs land stood at **BDT 665,600**. Compensation for trees with 100% premium will be assessed by DC office based on scheduled rate of Department of Forest. Additional compensation on top of DC's payment will not be required since people will be allowed to fell and take away the trees after payment of compensation as per best practice of other development projects. The table below present compensation for affected trees owned by the people and CPRs respectively.

Table 4–8: Compensation for trees owned by people

Compensation For tree HHs	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Estimated Budget
Large	8,731,600	7,652,600	36,569,800	26,742,600	4100200	83,796,800
Medium	8,541,000	7,924,500	25,465,500	19,746,000	4009500	65,686,500

4.7 Other Resettlement Benefits

The total estimated resettlement benefits is **BDT 534,908,942** that includes stamp duty and registration cost, dislocation allowance, structure transfer grant, reconstruction grant, business restoration grant, grants for the affected tenants and wage laborers, vulnerable HHs, etc. to be paid by RHD. The table underneath shows detailed of the estimated amount of resettlement benefits.

Table 4–10: Estimated Amount of Resettlement Benefits

Other Resettlement Benefits	Patiya	Dohazari	Lohagara	Chakaria	Keranihat	Estimated Budget
Stamp Duty and Registration Cost @ 10.5% of replacement cost of land. (Probable case 25%)	45,829,169	67,089,370	156607158.7	58391308	12702479.87	340,619,486

4.8 Land acquisition and resettlement implementation cost

The estimated land acquisition and resettlement implementation cost is BDT 115,000,000 including operation cost for the implementing Agency, Operation cost for External Monitoring Agency, Capacity building training for officials of RHD PMO, civic amenities in the self-managed relocation site for the PAPs, etc. Below table shows the detailed of estimated amount of land acquisition and resettlement implementation cost.

Table 4–11: Estimated Amount of resettlement implementation cost

Head of Expenditure	Unit	Estimated cost
Operation cost of the Implementing Agency	LS	50,000,000
Operation Cost for External Monitoring Agency	LS	5,000,000
Civic Amenities cost in relocation site in case of self relocation in cluster manner (if necessary)	LS	50,000,000
Capacity building training for the RHD PMO officials (tentative)	LS	10,000,000
Total		115,000,000

Source: KMC Survey Team

4.9 Contingency for resettlement implementation

Estimated cost for administrative and contingency head stands at **BDT 1,061,776,495** including contingency budget @5% BDT 789,949,738 and administrative cost for DC office @2% BDT 271,826,757. The contingency budget has been kept meeting unforeseen expenses including cost for grievance redress mechanism, meetings of the GRC, JVC and PVAC. Project Director will allocate fund from the contingency head for unforeseen expenses. Table shows the detailed of Estimated Amount of contingency and administrative cost for RAP implementation

Table 4–12: Estimated Amount of Contingency for resettlement Implementation

Head of Expenditure	Rate	Estimate
Administrative cost for LA process @ 2% of the total budget	2%	271,826,757
Contingency @5% of the total budget	5%	789,949,738
Total		1,061,776,495

3	Access to Toilet (specify....)		
4	Access to clinic/Hospital		
5	Access to School		
6	Access to marketplace		
7	Access to religious Place		
8	Access to public transportation		

Use of natural resources in the area by the respondents Household

Any member of the household is using in connection to the households Livelihood?

Sl. No.	Activities	Location	Season
1	Fishing		
2	Feeding livestock		
3	Hunting		
4	Collecting Spices		
5	Collecting Herbs		
6	Collecting mushrooms		
7	Logging		
8	Other (Specify)		

Resettlement & Rehabilitation

Average total monthly income of the affected family (Tk.):

Consumption Pattern

Kindly indicate the consumption/expenditure on different items in the previous month by sector.

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

Sl. No.	Head of Expenditure	Monthly Expenditure (Tk.)
1	Food	
2	Transportation	
3	Clothing	
4	Health	
5	Education	
6	Communication/(phone bill)	
7	Social functions (marriage, birthday, donation etc)	
8	Agriculture inputs (such as seeds, hiring of farmhands)	
9	Consumption of fuel/Gas for Household	
10	Fuel/ Electric Bill	
11	Others Specify	

Average total monthly expenditure of the affected family (Tk.):

Resettlement/ Relocation Option Preferred: (expectation of HHs who will lose residential land with structure)

Self-Relocation through purchasing new land-1; Relocation on residual land-2; Project Assisted Resettlement-3;

Compensation Option for Anyone Losing Land: (expectation of HHs who will lose land only): Land for land lost-1; Cash for Land lost-2

Compensation Options for Anyone Losing Structure:(expectation of HHs who will lose the structures only): House for house lost-1Shop for shop lost-2; Cash for House-3Cash for shop-4

Income Restoration Assistance (the most preferred option) (Multiple)

1. Employment opportunities in construction work
2. Assistance/loan from other ongoing development scheme

Impact Assessment Report on 150 Feet ROW at Five Bottleneck Sections

- 3. Assistance/loan arranged through this project
- 4. Vocational training
- 5. Others (specify

How would you like to spend the compensation money? (Multiple)

- 1. To buy land. 2. To shift a house 3. To build a house
- 4. To get training for taking a new occupation 5. To get a job 6. To invest in business
- 7. To market produce 8. To invest for self-employment
- 9. To adjust a loan 10. Other (Please specify)

1 st	2 nd	3 rd

* Planning according to preference

What are the available sources/opportunities for employment in your locality?

- 1. Agriculture
- 2. Motor mechanics
- 3. Livestock
- 4. Auto Rickshaw Pulling
- 5. Rickshaw /vanpulling
- 6. Fisheries
- 7. Horticulture
- 8. Small business
- 9. Poultry rearing
- 10. CNG Auto Driving
- 11. Transport Working
- 12. Others (Please mention)

1 st	2 nd	3 rd

Do you think that you or your family members need training to develop skills for taking up a new occupation? Yes=1, No=2

If the answer is yes, please specify the name(s) or type(s) of training essential for you or your family members:

- 1. Agriculture
