**Subject: Confirmation letter on the Environmental and Social impact of the Project for Improvement of Urban Untreated Water Supply Schemes in the Independent State of Samoa**

On behalf of Samoa Water Authority (SWA), this letter serves to confirm that, there are no Environmental and Social impacts of the Project for Improvement of Urban Untreated Water Supply Schemes in the Independent State of Samoa. The objective of this project is to ensure increased access for safe water services for communities within the target areas, in order to meet health, environment and economic development needs. The sites of the project are located at Tapatapao, Vailima and Vaivase-uta water supply schemes in Apia.

We would like to confirm that no major problems were caused from this project following appropriate countermeasures and necessary parameters conducted as stipulated under the Minutes of Meeting dates 13 December, 2013.

We hereby certify that all the above information is true and correct to the best of our knowledge.

Yours faithfully,

---

**Heseti Vaai**  
Acting Managing Director  
Samoa Water Authority
