

## Quiz for Baseline Survey

Name: \_\_\_\_\_

Number of correct answers: \_\_\_\_\_ out of **6**

Choose only one answer from the listed four choices.

	Question	Choices	Answer
1	Which of the following statements is true when implementing the Participatory Baseline Survey?	1. The primary purpose of the Participatory Baseline Survey is to obtain data necessary for national statistical database. 2. The extension staff may ask the target farmers to consult their spouses or other family members to get accurate data, if necessary. 3. The extension staff should invite only literate farmers to the Participatory Baseline Survey. 4. The extension staff has multiple responsibilities of survey design, format development, data collection, data entry in spreadsheets, analysis, reporting and the feedback of the result to the target farmers.	
2	What are the two main purposes of the Participatory Baseline Survey which benefit both farmers and implementers?	1. Farmers can understand their current farming situations. Implementer can decide which farmers should be selected as target farmers 2. Farmers can establish business linkages with potential buyers. Implementers can introduce the farmers to them. 3. Farmers can understand the importance of record keeping. Implementers can gather data on the target farmers' farming practices. 4. Farmers can understand the profitability of their farming. Implementer can recommend most profitable crops for the target farmers.	
3	What data should be collected during the Participatory Baseline Survey?	1. Buyers' information such as addresses and phone numbers 2. Cultivation schedule	

		<p>3. Production of cereal crops and livestock</p> <p>4. Production, income, cost and agricultural practices</p>	
4	<p>What discussions should the extension staff facilitate after farmers have completed the Baseline Survey formats? Choose one question which is NOT appropriate to start the discussions.</p>	<p>1. "Did we meet many market stakeholders at the Stakeholder Forum?"</p> <p>2. "Do we have sufficient cultivation skills?"</p> <p>3. "Are we making as much profit as we want?"</p> <p>4. "Are our current methods of record keeping good enough?"</p>	
5	<p>Which of the following reactions from the target farmers should you expect after Participatory Baseline Survey?</p>	<p>1. "I am glad the survey is finished. I don't need to worry about data anymore."</p> <p>2. "I don't want to record my income and expenses since I was afraid to know I may be losing money."</p> <p>3. "I understand the importance of record keeping. But I can calculate everything in my mind so I don't really need to write down everything."</p> <p>4. "I should make it a rule to record everything so that I can accurately know the financial situation of my agricultural business."</p>	
6	<p>The extension staff in Country Y asked the target farmers to take the Baseline Survey Form home and bring it back the next time after filling it out at home. Why did they intentionally make such an arrangement?</p>	<p>1. Because only female farmers attended the meeting.</p> <p>2. Because the literacy rate was very low in Country Y.</p> <p>3. Because the farmers' attendance rate was very low.</p> <p>4. Because the extension staff were not confident in conducting the Baseline Survey.</p>
