

WASH

Let's make lye soap from ash!

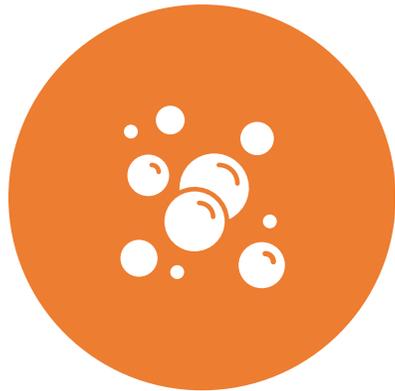

Tuyishime Angelique (Midwife of Rukira H.C)

Eri NODA (JICA volunteer)

EDIT: 10.2019

3 BENEFITS OF MAKING LYE SOAP

REMOVE
BLOOD / OIL / DIRT

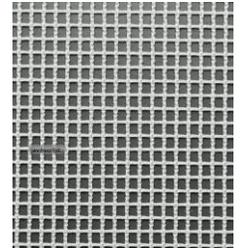

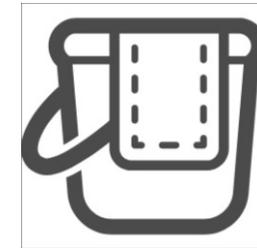

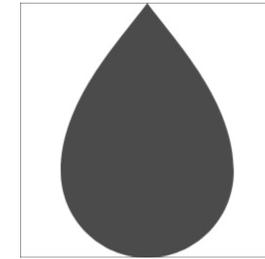

SAVE MONEY

LAST LONG

WHAT TO PREPARE FOR MAKING LYE SOAP

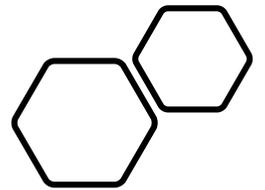

Materials	Amount
Ash	Much
Sieve / super net	1
Cloth	1
Hot water	Much
Bucket	2
Bottle	1

DIRECTIONS

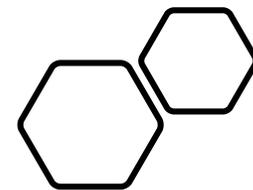

1. Filter ash with sieve. You will get pure ash powder.
2. Cover a bucket with a cloth and put ash on the cloth.

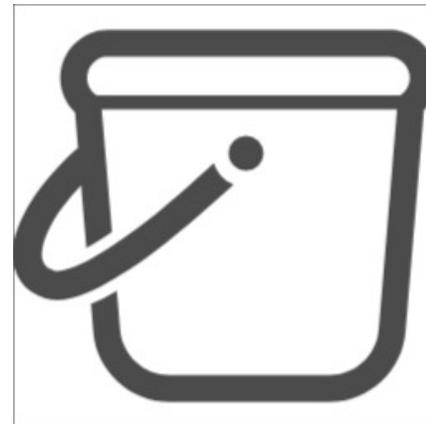

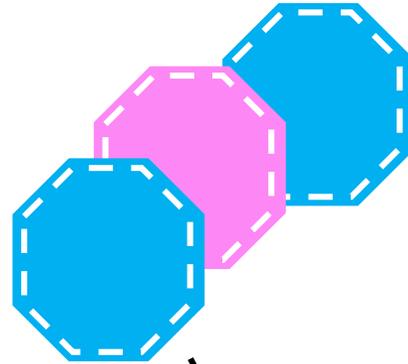

DIRECTIONS

3. Put hot water into the bucket and filter ash.
4. You will get liquid lye soap.
Color of soap looks yellowish.
Keep soap in a bottle.

HOW TO WASH KOTEX

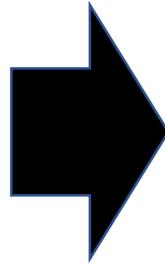

1. Wash Kotex with water.
2. Put Kotex into buckets with **lye soap and water during night.**
3. Wash Kotex with soap and water as needed.
4. Dry it.

Lye soap made from ash
→Remove blood well!

Before washing

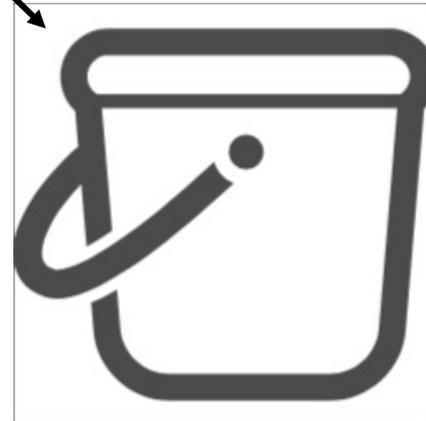

After washing

HOW TO WASH PLATES & PANS

1. Put plates or isafryia covered with oil into lye soap mixed with little water.
2. Wash plates or isafryia with soap.
3. Dry it on a kitchen rack.
