

Turebe Amazi kuminina igerageza

Let's try water filtration experiment

【Materials / Ibikoresho】

Icupa / Plastic bottle

Utubuye / Pebbles

Ibitambaro bisukuye / Clothes (clean fabric)

Amakara / Charcoal

Amakara ni meza cyane mu gukura umwanda mu mazi

yo kunywa yongera kandi uburyohe mu mazi yo kunywa

/ Charcoal is a very important material in removing impurities and it will also improve the taste of your drinking water.

【Icyitonderwa / Notes】

Kumimina ni uburyo bwo gukura umwanda mu mazi

/ Filtration is just a mechanical method to separate solids from liquid.

Kumimina ntibishobora gukura virusi

/ Filtration cannot remove virus.

Nyuma yo kumimina, ugomba guteka ayamazi cyangwa kongera kolore

/ After filtration, you need to boil this water or chlorinate.

Icupa rigomba kuba risukuye

/ The container must also be clean.
