Version 1.1

Revisions

April 2023

This revision incorporates a change reflecting the revision of *Guidelines for Procurement under Japanese ODA Loans, April 2012* dated April 2023 regarding one bid per bidder principle stipulated in ITB 4.2(c).
Editorial enhancements have also been made.

Preface

This Standard Bidding Document for Procurement of Design Build Plant and Works (SBD (Design Build)) has been prepared by the Japan International Cooperation Agency (JICA) for the use of the Projects financed, in whole or in part, by its Official Development Assistance (ODA) loans. This SBD (Design Build) is intended to be used for the electrical and mechanical plant and building and engineering works of lump-sum type designed by the Contractor and to be procured through international competitive bidding (ICB). On the other hand, this SBD (Design Build) is not recommended for civil works contracts with important uncertainty with respect to the subsurface ground conditions.

This SBD (Design Build) is consistent with the Guidelines for Procurement under Japanese ODA Loans, April 2012 and its use for such plant or civil works is **required** under the Guidelines. As this SBD (Design Build) reflects recent best practices of public procurement and JICA's policy, its use is also encouraged for contracts under the Guidelines for Procurement published in October 1999 or March 2009.

If the user has questions regarding the use of this SBD (Design Build), the appropriate JICA's official should be consulted.

The use of the Standard Instructions to Bidders set forth in Section I of the Standard Bidding Document for the Procurement of Design Build Plant and Works, (hereafter referred to as “Standard ITB”) is **required** in all bidding documents for the electrical and mechanical plant and building and engineering works of lump-sum type designed by the Contractor and to be procured through international competitive bidding (ICB) and financed by Japanese ODA Loans, and they shall be used without modification.

A. General

1. Scope of Bid

- 1.1 In connection with the Invitation for Bids **specified in Section II, Bid Data Sheet (BDS)**, the Employer as **specified in the BDS** located in the country, as **specified in the BDS**, issues this Bidding Document (hereinafter referred to as “Bidding Document”) for the procurement of Design Build Plant and Works as specified in Section VI, Employer’s Requirements.

The name of the Project and the name of the Contract are **specified in the BDS**.

Bids may also be invited for multiple lots of the Project, as **specified in the BDS**. Bids may be submitted either for individual lots or for multiple lots in any combination.

- 1.2 Throughout this Bidding Document:

- (a) the term “in writing” means communicated in written form and delivered against receipt;
- (b) except where the context requires otherwise, words indicating the singular also include the plural and words indicating the plural also include the singular;
- (c) “day” means calendar day;
- (d) “firm” means a private entity, a state-owned enterprise or institution;
- (e) “Joint Venture” or “JV” means any combination of two or more firms in the form of a joint venture, consortium, association or other unincorporated grouping under an existing agreement or with the intention to enter into such an agreement supported by a formal letter of intent; and
- (f) the word “Works” is synonymous with the words “Design-Build Plant and Works” and “plant and installation services”.

2. Source of Funds

- 2.1 The Borrower **specified in the BDS** has received or has applied for a Japanese ODA Loan from the Japan International Cooperation Agency (hereinafter referred to as “JICA”), with the number, in the amount and on the signed date of the Loan Agreement **specified in the BDS**, towards the cost of the Project. The Borrower intends to apply a portion of the proceeds of the Loan to payments under the

Contract(s) for which this Bidding Document is issued.

- 2.2 Disbursement of a Japanese ODA Loan by JICA will be subject, in all respects, to the terms and conditions of the Loan Agreement, including the disbursement procedures and the applicable Guidelines for Procurement under Japanese ODA Loans **specified in the BDS**. No party other than the Borrower shall derive any rights from the Loan Agreement or have any claim to the loan proceeds.
- 2.3 The above Loan Agreement will cover only a part of the project cost. As for the remaining portion, the Borrower, the Project Executing Agency and the Employer will take appropriate measures for finance through other sources **specified in the BDS**.

3. Corrupt and Fraudulent Practices

- 3.1 It is JICA's policy to require that the Bidders and the Contractors, as well as the Borrowers, the Project Executing Agencies and the Employers, under contracts funded with Japanese ODA Loans and other Japanese ODA, to observe the highest standard of ethics during the procurement and execution of such contracts. In pursuance of this policy, JICA:
- (a) will reject a proposal for award if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question.
 - (b) will recognize a Contractor as ineligible, for a period determined by JICA, to be awarded a contract funded with Japanese ODA Loans if it at any time determines that the Bidder or the Contractor has engaged in any corrupt or fraudulent practice in competing for, or in executing, another contract funded with Japanese ODA Loans or other Japanese ODA. The list of ineligible firms and individuals is available at the electronic address **specified in the BDS**.
 - (c) will recognize a Contractor as ineligible to be awarded a contract funded with Japanese ODA Loans if the Contractor or subcontractor, who has a direct contract with the Contractor, is debarred under the cross debarment decisions by the Multilateral Development Banks. Such period of ineligibility shall not exceed three (3) years from (and including) the date on which the cross debarment is imposed.

“Cross debarment decisions by the Multilateral Development Banks” is a corporate sanction in accordance with the agreement among the African Development Bank Group, Asian Development Bank, European Bank for Reconstruction and Development, Inter-American Development Bank Group and the World Bank Group signed on 9 April 2010 (as amended from time to time). JICA will recognize the World Bank Group’s debarment of which period exceeds one year, imposed after 19 July 2010, the date on which the World Bank Group started operating cross debarment, as “cross debarment decisions by the Multilateral Development Banks.” The list of debarred firms and individuals is available at the electronic address **specified in the BDS**.

JICA will recognize a Bidder or Contractor as ineligible to be awarded a contract funded with Japanese ODA Loans if the Bidder or Contractor is debarred by the World Bank Group for the period starting from the date of the Invitation for Bid, if prequalification has not been conducted, or the date of the Advertisement for Prequalification, if prequalification has been conducted, up to the signing of the contract, unless (i) such debarment period does not exceed one year, or (ii) three (3) years have passed since such debarment decision.

If it is revealed that the Contractor was ineligible to be awarded a contract according to above, JICA will, in principle, impose sanctions against the Contractor.

If it is revealed that a subcontractor, who has a direct contract with the Contractor, was debarred by the World Bank Group on the subcontract date, JICA will, in principle, require the Borrower to have the Contractor cancel the subcontract immediately, unless (i) such debarment period does not exceed one year, or (ii) three (3) years have passed since such debarment decision. If the Contractor refuses, JICA will require the Borrower to declare invalidity or cancellation of the contract and demand the refund of the relevant proceeds of the loan or any other remedies on the grounds of contractual violation.

- 3.2 If the Employer determines, based on reasonable evidence, that any Bidder has engaged in any corrupt or fraudulent practice, the Employer may disqualify such Bidder after notifying the grounds of such disqualification.

- 3.3 Furthermore, the Bidders shall be aware of the provision stated in Sub-Clause 15.6 of the Conditions of Contract.

4. Eligible Bidders

- 4.1 The Bidder may be a single firm or a JV. In the case of a JV:
- (a) All members shall be jointly and severally liable for the execution of the Contract in accordance with the Contract terms.
 - (b) The JV shall nominate a Representative who shall have the authority to conduct all business for and on behalf of any and all the members of the JV during the bidding process and, in the event the JV is awarded the Contract, during contract execution.
 - (c) A Bid submitted by a JV shall include a copy of the JV Agreement entered into by all members. Alternatively, a formal letter of intent to enter into a JV in the event of a successful Bid shall be signed by all members and submitted with the Bid, together with a copy of the proposed Agreement. The JV Agreement or the proposed JV Agreement, as the case may be, shall indicate at least the part(s) of the Works to be executed by each member.

The Bidder shall be disqualified under any of the circumstances set forth below, where it is determined to have a conflict of interest throughout the bidding/selection process and/or the execution of the Contract unless the conflict has been resolved in a manner acceptable to JICA.
- (a) A firm shall be disqualified from providing goods or non-consulting services resulting from or directly related to consulting services for the preparation or implementation of a project that it provided or were provided by any affiliate that directly or indirectly controls, is controlled by, or is under common control with that firm. However, this does not limit a firm (including its affiliate) participating in one Bid individually or as a member of a JV and at the same time, the firm (including its affiliate) participating in other Bids as a subcontractor but NOT acting as a specialized subcontractor (refer to ITB16.3). A firm (including its affiliate) acting as a specialized subcontractor or as a subcontractor in any Bid may participate in other Bids as a specialized subcontractor or as a subcontractor. (Refer to “the Guidelines for Procurement under Japanese ODA Loans (Ver.1.1, April 2012)”, CL 1.07(3), Notes 3).

In the case of a bank guarantee, the Bid Security shall be submitted either using the Bid Security Form included in Section IV, Bidding Forms, or in another substantially similar format approved by the Employer prior to Bid submission. - (b) whether there is a withdrawal, substitution, or modification;
- (c) whether there is an alternative Bid without opening its envelop;
- (d) the presence or absence of a Bid Security; and
- (e) any other details as the Employer may consider appropriate.

Only Technical Bids read out at the opening of Technical Bids shall be considered for evaluation. The Employer shall neither discuss the merits of any Bid nor reject any Bid (except for late Bids, in accordance with ITB 23.1).

25.6 The Employer shall prepare a record of the opening of Technical Bids that shall include, as a minimum:

- (a) the name of the Bidder;
- (b) whether there is a withdrawal, substitution, or modification;
- (c) whether there is an alternative Bid; and

(d) the presence or absence of a Bid Security.

The Bidders' representatives who are present shall be requested to sign the record. The omission of a Bidder's signature on the record shall not invalidate the contents and effect of the record. A copy of the record shall be distributed to all Bidders who submitted Bids in time, and to JICA.

25.7 At the end of the evaluation of the Technical Bids, the Employer will invite the Bidders who have submitted substantially responsive Technical Bids and who have been determined as being qualified for award to attend the opening of the Price Bids. The date, time, and location of the opening of Price Bids will be advised in writing by the Employer. The opening date should allow the Bidders sufficient time to make arrangements for attending the opening of Price Bids.

25.8 The Employer will notify, in writing, the Bidders who have been rejected on the grounds of their Technical Bids being substantially non-responsive to the requirements of the Bidding Document and/or who have been determined as being disqualified for award, and return their Price Bids unopened together with the Bid Security.

25.9 The Employer shall conduct the opening of Price Bids of all Bidders who submitted substantially responsive Technical Bids and who have been determined as being qualified for award, in the presence of the Bidders' representatives who choose to attend at the address, date and time specified by the Employer. The Bidders' representatives who are present shall be requested to sign a register evidencing their attendance.

25.10 All envelopes containing Price Bids shall be opened one at a time, reading out:

- (a) the name of the Bidder;

appropriate.

Only Price Bids and discounts read out and recorded at the opening of Price Bids shall be considered for evaluation. The Employer shall neither discuss the merit of any Price Bid nor reject any Price Bid at the opening of Price Bids.

25.11 The Employer shall prepare a record of the opening of Price Bids that shall include, as a minimum:

- (a) the name of the Bidder;
- (b) the total Bid Price including any discounts, and in the case of bidding for multiple lots, the total prices for each lot together with the sum of the total price for all lots including any discounts; and

The Bidders' representatives who are present shall be requested to sign the record. The omission of a Bidder's signature on the record shall not invalidate the contents and effect of the record. A copy of the record shall be distributed to all Bidders who submitted Bids in time, and to JICA.

E. Evaluation and Comparison of Bids

26. Confidentiality

26.1 Information relating to the evaluation of Bids and recommendation of Contract award shall not be disclosed to the Bidders or any other persons not officially concerned with the bidding process until information on Contract award is communicated to all Bidders in accordance with ITB 39.

The use by any Bidder of confidential information related to this bidding process may result in the rejection of its Bid.

26.2 Any attempt by a Bidder to influence the Employer in the evaluation of the Bids or Contract award decisions may result in the rejection of its Bid.

26.3 Notwithstanding ITB 26.2, from the time of Bid opening to the time of Contract award, if any Bidder wishes to contact the Employer on any matter related to the bidding process, it shall do so in writing.

27. Clarification of Bids

27.1 To assist in the examination, evaluation, and comparison of the Technical and Price Bids, and qualification of the Bidders, the Employer may, at its discretion, ask any Bidder for a

clarification of its Bid, giving a reasonable time for a response. Any clarification submitted by a Bidder that is not in response to a request by the Employer shall not be considered. The Employer's request for clarification and the response shall be in writing. No change in the substance of the Technical Bid or prices in the Price Bid, including any voluntary increase or decrease in the prices, shall be sought, offered, or permitted, except to confirm the correction of arithmetical errors discovered by the Employer in the evaluation of the Price Bids, in accordance with ITB 33.

27.2 If a Bidder does not provide clarifications of its Bid by the date and time set in the Employer's request for clarification, its Bid may be rejected.

**28. Deviations,
Reservations, and
Omissions**

28.1 During the evaluation of Bids, the following definitions apply:

- (a) "Deviation" is a departure from the requirements specified in the Bidding Document;
- (b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the Bidding Document; and
- (c) "Omission" is the failure to submit part or all of the information or documentation required in the Bidding Document.

**29. Preliminary
Examination of
Technical Bids**

29.1 The Employer shall examine Technical Bids to confirm that all documents and information requested in ITB 11.2 have been provided, and to determine the completeness of each document submitted.

29.2 The Employer shall confirm that the following documents and information have been provided in the Technical Bid. If any of these documents or information is missing, the Bid shall be rejected.

- (a) Letter of Technical Bid;
- (b) Power of Attorney to commit the Bidder;
- (c) Bid Security; and
- (d) Technical Proposal in accordance with ITB 16.

**30. Qualification of the
Bidders**

30.1 The Bidder shall substantially meet or exceed the specified qualification requirements. The Employer shall determine to its satisfaction whether the Bidders meet the qualification criteria specified in Section III, Evaluation and Qualification

Criteria, during the evaluation of Technical Bids. However, if the prequalification process was carried out prior to the bidding process, the Employer may carry out the assessment of the qualification criteria specified in Section III, Evaluation and Qualification Criteria, only for the Bidder who submitted the lowest evaluated and substantially responsive Bid.

30.2 The determination shall be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB 17. For the purposes of this determination, only the qualification of the legal entity(ies) comprising the Bidder shall be considered. In particular, the qualifications of affiliated entities (such as the parent company(ies), group companies, subsidiaries or other affiliates) shall not be considered unless they are parties to the Bidder under a JV in accordance with ITB 4.1 or as specialized subcontractors to be employed in accordance with ITB 16.3 for the key activities listed in Section III, Evaluation and Qualification Criteria 2.4.2(b).

30.3 The Employer reserves the right to waive minor (nonmaterial) deviations in the qualification criteria if they do not materially affect the technical capability and financial resources of the Bidder to perform the contract.

30.4 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the Bid.

If the assessment of the Bidder's qualification was conducted only for the lowest evaluated Bidder, in accordance with ITB 30.1, and the result of such assessment is negative, the Employer shall proceed to the next lowest evaluated Bid to make a similar determination.

30.5 The subcontractors proposed by the Bidder in its Bid shall meet the eligibility requirements of ITB 4.

Furthermore, if the specialized subcontractor proposed in accordance with ITB 16.3 who does not meet the corresponding criteria for the key activities specified in Section III Evaluation and Qualification Criteria 2.4.2(b), the Bidder who proposed such a specialized subcontractor shall be disqualified.

31. Determination of Responsiveness of Technical Bids

31.1 The Employer's determination of a Technical Bid's responsiveness is to be based on the contents of the Technical Bid itself, as defined in ITB 11.2.

31.2 For the purposes of this determination, a substantially responsive Technical Bid is one that meets the requirements of the Bidding Document without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that,

(a) if accepted, would

(i) affect in any substantial way the scope, quality, or performance of the Works specified in the Contract; or

(ii) limit in any substantial way, inconsistent with the Bidding Document, the Employer's rights or the Bidder's obligations under the proposed Contract; or

(b) if rectified, would unfairly affect the competitive position of the other Bidders presenting substantially responsive Bids.

31.3 The Employer shall examine the Technical Bid submitted in accordance with ITB 16 and Section III, Evaluation and Qualification Criteria, in particular, to confirm that all requirements of Section VI, Employer's Requirements have been met without any material deviation, reservation or omission. The Recommended Spare Parts, if any, proposed by the Bidder shall not be subject to evaluation.

Should a manufacturer or subcontractor proposed for Section III, Evaluation and Qualification Criteria 1.1.3 be determined to be unacceptable, the Bid will not be rejected, but the Bidder will be required to substitute an acceptable manufacturer or subcontractor without any change to the Bid price. Prior to issuing the Letter of Acceptance, the corresponding Schedule to the Contract Agreement shall be completed, listing the approved manufacturers or subcontractors for each item concerned.

31.4 If a Technical Bid is not substantially responsive to the requirements of the Bidding Document, it shall be rejected by the Employer and shall not subsequently be made responsive by correction of the material deviation, reservation, or omission.

32. Nonmaterial Nonconformities

32.1 Provided that a Technical Bid is substantially responsive, the Employer may waive any nonconformities (deviation,

reservation or omission) in the Technical Bid.

32.2 Provided that a Technical Bid is substantially responsive, the Employer may request that the Bidder submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities in the Technical Bid related to documentation requirements. Requesting information or documentation on such nonconformities shall not be related to any aspect of the Price Bid. Failure of the Bidder to comply with the request may result in the rejection of its Bid.

32.3 Provided that a Technical Bid is substantially responsive, the Employer shall rectify quantifiable nonmaterial nonconformities related to the Bid Price. To this effect, the Bid Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component by adding the average price of the item or component quoted by substantially responsive Bidders. If the price of the item or components cannot be derived from the price of other substantially responsive Bidder, the Employer shall use its best estimate.

33. Correction of Arithmetical Errors

33.1 Provided that the bid is substantially responsive, the Employer shall correct arithmetical errors on the following basis:

(a) where there are errors between the total of the amounts given under the column for the price breakdown and the amount given under the Total Price, the total of the amounts given under the column for the price breakdown shall prevail and the amount given under the Total Price will be corrected;

(b) where there are errors between the total of the amounts of Schedule Nos. 1 to 6 and the amount given in the Grand Summary, the total of the amounts of Schedule Nos. 1 to 6 shall prevail and the amount given in the Grand Summary will be corrected; and

(c) where there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetical error, in which case the amount in figures shall prevail subject to (a) and (b) above.

33.2 The Bidder shall be requested to accept correction of arithmetical errors. Failure to accept the correction in accordance with ITB 33.1, shall result in the rejection of the

Bid.

34. Conversion to Single Currency

34.1 For evaluation and comparison purposes, the currency(ies) of the Bid shall be converted into a single currency as **specified in the BDS**. The Employer will convert the amounts in various currencies in which the Bid Price, corrected pursuant to ITB 33, is denominated to the single currency identified above at the selling rates established for similar transactions by the authority **specified in the BDS** and on the date **stipulated in the BDS**.

35. Evaluation of Price Bids

35.1 To evaluate a Price Bid, the Employer shall consider the following:

- (a) the Bid Price, excluding the Specified Provisional Sums and contingency allowance, if any in the Grand Summary of the Price Schedule, but including the Provisional Sum for Daywork when priced competitively;
- (b) price adjustment for correction of arithmetical errors in accordance with ITB 33.1;
- (c) price adjustment due to discounts offered in accordance with ITB 14.6;
- (d) the additional evaluation factors specified in Section III, Evaluation and Qualification Criteria;
- (e) price adjustment due to quantifiable nonmaterial nonconformities in accordance with ITB 32.3; and
- (f) converting the amount resulting from applying (a) to (e) above, if relevant, to a single currency in accordance with ITB 34.

The price for the Recommended Spare Parts if any, stated in the Price Schedule shall not be subject to evaluation.

35.2 If price adjustment is allowed in accordance with ITB 14.7, the estimated effect of the price adjustment provisions of the Conditions of Contract, applied over the period of execution of the Contract, shall not be taken into account in Bid evaluation.

35.3 In the case of bidding for multiple lots, the lowest evaluated price of the lot(s) shall be determined as specified in Section III, Evaluation and Qualification Criteria.

36. Comparison of

36.1 The Employer shall compare the evaluated prices of all

Bids

substantially responsive Bids established in accordance with ITB 35.1 to determine the lowest evaluated Bid.

- 36.2 If the Bid, which results in the lowest Evaluated Bid Price, is seriously unbalanced or front loaded in the opinion of the Employer, the Employer may require the Bidder to produce detailed price analyses for any or all items of the Price Schedule, to demonstrate the internal consistency of those prices with the construction methods and schedule proposed. After evaluation of the price analyses, taking into consideration the schedule of estimated Contract payments, the Employer may require that the amount of the Performance Security be increased at the expense of the Bidder to a level sufficient to protect the Employer against financial loss in the event of default of the successful Bidder under the Contract.

- 36.3 In the event of identification of a potentially abnormally low Bid, the Employer shall seek written clarifications from the Bidder, including detailed price analyses of its Bid Price in relation to the subject matter of the contract, scope, proposed methodology, schedule, allocation of risks and responsibilities and any other requirements of the Bidding Document.

After evaluation of the price analyses, in the event that the Employer determines that the Bidder has failed to demonstrate its capability to perform the Contract for the offered Bid Price, the Employer shall reject the Bid.

For the purposes of this ITB 36.3, an abnormally low Bid is one where the Bid price, in combination with other elements of the Bid, appears so low that it raises material concerns as to the capability of the Bidder to perform the Contract for the offered Bid Price.

37. Employer's Right to Accept Any Bid, and to Reject Any or All Bids

- 37.1 The Employer reserves the right to accept or reject any Bid, and to annul the bidding process and reject all Bids at any time prior to Contract award, without thereby incurring any liability to the Bidders. In case of annulment, all Bids submitted and specifically, Bid securities, shall be promptly returned to the Bidders.

F. Award of Contract

38. Award Criteria

- 38.1 Subject to ITB 37.1, the Employer shall award the Contract to the Bidder whose offer has been determined to be the lowest evaluated Bid and is substantially responsive to the Bidding

Document, provided further that the Bidder is determined to be qualified to perform the Contract satisfactorily.

39. Notification of Award

39.1 Prior to the expiration of the period of Bid validity, the Employer shall notify the successful Bidder, in writing, that its Bid has been accepted. The notification letter (hereinafter and in the Conditions of Contract and Contract Forms called the “Letter of Acceptance”) shall specify the sum that the Employer will pay the Contractor in consideration of the execution and completion of the Works (hereinafter and in the Conditions of Contract and Contract Forms called “the Accepted Contract Amount”).

39.2 After a Contract has been determined to be eligible for financing under Japanese ODA Loans, the following information may be made public by JICA:

- (a) name of each Bidder who submitted a Bid;
- (b) Bid Prices as read out at Bid Opening;
- (c) name and address of the successful Bidder; and
- (d) signing date and amount of the Contract.

39.3 Until a formal contract is prepared and executed, the Letter of Acceptance shall constitute a binding Contract.

40. Signing of Contract

40.1 Promptly upon notification, the Employer shall send the successful Bidder the Contract Agreement.

40.2 Within twenty-eight (28) days of receipt of the Contract Agreement, the successful Bidder shall sign, date, and return it to the Employer.

41. Performance Security

41.1 Within twenty-eight (28) days of the receipt of the Letter of Acceptance from the Employer, the successful Bidder shall furnish the Performance Security in accordance with the Conditions of Contract, subject to ITB 36.2 using for that purpose the Performance Security Form included in Section IX, Contract Forms, or another form acceptable to the Employer. If the Performance Security furnished by the successful Bidder is in the form of a bond, it shall be issued by a bonding or insurance company that has been determined by the successful Bidder to be acceptable to the Employer. A foreign institution providing a bond shall have a correspondent financial institution located in the Employer’s country.

41.2 Failure of the successful Bidder to submit the above-mentioned Performance Security or sign the Contract shall constitute sufficient grounds for the annulment of the award and forfeiture of the Bid Security. In that event the Employer may award the Contract to the next lowest evaluated Bidder whose Bid is substantially responsive and is determined by the Employer to be qualified to perform the Contract satisfactorily.

**42. Notification to
Unsuccessful
Bidders and
Debriefing**

42.1 As promptly as possible upon the successful Bidder signing the Contract and furnishing the Performance Security pursuant to ITB 41, the Employer shall notify all unsuccessful Bidders of the results of the bidding.

42.2 After receipt of the Employer's notification pursuant to ITB 42.1 above, the unsuccessful Bidders (including those rejected on the grounds of their Technical Bids not being substantially responsive) may request in writing to the Employer a debriefing seeking an explanation of the grounds on which their Bids were not selected. The Employer shall promptly respond in writing to any unsuccessful Bidder who requests a debriefing in accordance with this Clause.

Section II. Bid Data Sheet

Notes for the Employer

Section II, Bid Data Sheet, shall be filled in by the Employer before issuance of the Bidding Document.

The Bid Data Sheet (BDS) contains information and provisions that are specific to each procurement and that supplement Section I, Instructions to Bidders. The Employer must specify in the BDS only the information that the ITB requires to be specified in the BDS. All information shall be provided; **no clause shall be left blank.**

To facilitate the preparation of the BDS, its clauses are numbered with the same numbers as the corresponding ITB clause.

The following directions should be observed when filling the BDS:

- (a) Specific details, such as the name of the Employer and the address for Bid submission should be furnished in the spaces indicated by italicized notes inside brackets.
- (b) The italicized notes are not part of the actual BDS, but contain guidelines and instructions for the Employer. They shall be deleted from the actual Bidding Document to be issued to the Bidders.
- (c) Where alternative Clauses or texts are shown, select those which best suit the particular contracts and delete the alternative text which is not used.

Notes for the Employer

This Section specifies the criteria to determine the lowest evaluated Bid and the qualifications of the Bidder to perform the Contract. No other factors, methods or criteria shall be used. The Bidder shall provide all the information requested in the forms included in Section IV, Bidding Forms.

The notes entitled “*Notes for the Employer*”, “boxed” notes and italicized notes are not part of the actual Evaluation and Qualification Criteria, but contain guidelines and instructions for the Employer. They shall be deleted from the actual Bidding Document to be issued to the Bidders.

The “*Notes for the Bidders*” contained in this Section III should be included in the actual Bidding Document to be issued to the Bidders.

1. Evaluation

1.1 Evaluation of Technical Bid

The evaluation of the Technical Bids consists of the following:

Determination of the substantial responsiveness of the Technical Bid includes, among other things, an assessment of the adequacy of the Bidder's Technical Proposal, during which the Bidder's technical capacity to complete the Works will be assessed in terms of the following. - (iv) quality, function and operation of any process control concept included in the Bid.
- (v) type, quantity and long-term availability of mandatory and recommended spare parts and maintenance services.

OPTION B:
Two-Stage One-Envelope Bidding

Section I. Instructions to Bidders

Notes for the Employer

Section I, Instructions to Bidders, specifies the procedures to be followed by the Bidders when preparing and submitting their Bids. It also provides information on the opening and evaluation of Bids, and on the award of the Contract.

The use of the Standard Instructions to Bidders set forth in Section I of the Standard Bidding Document for the Procurement of Design Build Plant and Works, (hereafter referred to as “Standard ITB”) is **required** in all bidding documents for the electrical and mechanical plant and building and engineering works of lump-sum type designed by the Contractor and to be procured through International Competitive Bidding (ICB) and financed by Japanese ODA Loans, and they shall be used without modification.

The Instructions to Bidders governing this bidding process are the Standard Instructions to Bidders included in **Option B: Two-Stage One-Envelope Bidding** of the Standard Bidding Document for Procurement of Design Build Plant and Works (SBD (Design Build)), the latest version.

A copy of the Standard Instructions to Bidders shall be attached to the Bidding Document prepared by the Employer. If the Instructions to Bidders in the Bidding Document contain modifications from the Standard Instructions to Bidders, JICA will not consider them valid and will require the Employer to modify the Bidding Document so that the Standard Instructions to Bidders, as defined above, shall apply.

Any necessary changes, acceptable to JICA, to address specific country and project issues, shall be introduced only through the Bid Data Sheet.

The Instructions to Bidders shall not be part of the Contract.

A. General

1. Scope Bid

- 1.1 In connection with the Invitation for Bids **specified in Section II, Bid Data Sheet (BDS)**, the Employer as **specified in the BDS** located in the country, as **specified in the BDS**, issues this Bidding Document (hereinafter referred to as “Bidding Document”) for the procurement of Design Build Plant and Works as specified in Section VI, Employer’s Requirements.

The name of the Project and the name of the Contract are **specified in the BDS**.

Bids may also be invited for multiple lots of the Project, as **specified in the BDS**. Bids may be submitted either for individual lots or for multiple lots in any combination.

- 1.2 Throughout this Bidding Document:

- (a) the term “in writing” means communicated in written form and delivered against receipt;
- (b) except where the context requires otherwise, words indicating the singular also include the plural and words indicating the plural also include the singular;
- (c) “day” means calendar day;
- (d) “firm” means a private entity, a state-owned enterprise or institution;
- (e) “Joint Venture” or “JV” means any combination of two or more firms in the form of a joint venture, consortium, association or other unincorporated grouping under an existing agreement or with the intention to enter into such an agreement supported by a formal letter of intent; and
- (f) the word “Works” is synonymous with the words “Design-Build Plant and Works” and “plant and installation services”.

2. Source of Funds

- 2.1 The Borrower **specified in the BDS** has received or has applied for a Japanese ODA Loan from the Japan International Cooperation Agency (hereinafter referred to as “JICA”), with the number, in the amount and on the signed date of the Loan Agreement **specified in the BDS**, towards the cost of the Project. The Borrower intends to apply a portion of the proceeds of the Loan to payments under the

Contract(s) for which this Bidding Document is issued.

- 2.2 Disbursement of a Japanese ODA Loan by JICA will be subject, in all respects, to the terms and conditions of the Loan Agreement, including the disbursement procedures and the applicable Guidelines for Procurement under Japanese ODA Loans **specified in the BDS**. No party other than the Borrower shall derive any rights from the Loan Agreement or have any claim to the loan proceeds.
- 2.3 The above Loan Agreement will cover only a part of the project cost. As for the remaining portion, the Borrower, the Project Executing Agency and the Employer will take appropriate measures for finance through other sources **specified in the BDS**.

3. Corrupt and Fraudulent Practices

- 3.1 It is JICA's policy to require that the Bidders and the Contractors, as well as the Borrowers, the Project Executing Agencies and the Employers, under contracts funded with Japanese ODA Loans and other Japanese ODA, to observe the highest standard of ethics during the procurement and execution of such contracts. In pursuance of this policy, JICA:
- (a) will reject a proposal for award if it determines that the Bidder recommended for award has engaged in corrupt or fraudulent practices in competing for the contract in question.
 - (b) will recognize a Contractor as ineligible, for a period determined by JICA, to be awarded a contract funded with Japanese ODA Loans if it at any time determines that the Bidder or the Contractor has engaged in any corrupt or fraudulent practice in competing for, or in executing, another contract funded with Japanese ODA Loans or other Japanese ODA. The list of ineligible firms and individuals is available at the electronic address **specified in the BDS**.
 - (c) will recognize a Contractor as ineligible to be awarded a contract funded with Japanese ODA Loans if the Contractor or subcontractor, who has a direct contract with the Contractor, is debarred under the cross debarment decisions by the Multilateral Development Banks. Such period of ineligibility shall not exceed three (3) years from (and including) the date on which the cross debarment is imposed.

“Cross debarment decisions by the Multilateral

Development Banks” is a corporate sanction in accordance with the agreement among the African Development Bank Group, Asian Development Bank, European Bank for Reconstruction and Development, Inter-American Development Bank Group and the World Bank Group signed on 9 April 2010 (as amended from time to time). JICA will recognize the World Bank Group’s debarment of which period exceeds one year, imposed after 19 July 2010, the date on which the World Bank Group started operating cross debarment, as “cross debarment decisions by the Multilateral Development Banks.” The list of debarred firms and individuals is available at the electronic address **specified in the BDS**.

JICA will recognize a Bidder or Contractor as ineligible to be awarded a contract funded with Japanese ODA Loans if the Bidder or Contractor is debarred by the World Bank Group for the period starting from the date of the Invitation for Bid, if prequalification has not been conducted, or the date of the Advertisement for Prequalification, if prequalification has been conducted, up to the signing of the contract, unless (i) such debarment period does not exceed one year, or (ii) three (3) years have passed since such debarment decision.

If it is revealed that the Contractor was ineligible to be awarded a contract according to above, JICA will, in principle, impose sanctions against the Contractor.

If it is revealed that a subcontractor, who has a direct contract with the Contractor, was debarred by the World Bank Group on the subcontract date, JICA will, in principle, require the Borrower to have the Contractor cancel the subcontract immediately, unless (i) such debarment period does not exceed one year, or (ii) three (3) years have passed since such debarment decision. If the Contractor refuses, JICA will require the Borrower to declare invalidity or cancellation of the contract and demand the refund of the relevant proceeds of the loan or any other remedies on the grounds of contractual violation.

- 3.2 If the Employer determines, based on reasonable evidence, that any Bidder has engaged in any corrupt or fraudulent practice, the Employer may disqualify such Bidder after notifying the grounds of such disqualification.
- 3.3 Furthermore, the Bidders shall be aware of the provision

stated in Sub-Clause 15.6 of the Conditions of Contract.

4. Eligible Bidders

4.1 The Bidder may be a single firm or a JV. In the case of a JV:

- (a) All members shall be jointly and severally liable for the execution of the Contract in accordance with the Contract terms.
- (b) The JV shall nominate a Representative who shall have the authority to conduct all business for and on behalf of any and all the members of the JV during the bidding process and, in the event the JV is awarded the Contract, during contract execution.
- (c) A Bid submitted by a JV shall include a copy of the JV Agreement entered into by all members. Alternatively, a formal letter of intent to enter into a JV in the event of a successful Bid shall be signed by all members and submitted with the Bid, together with a copy of the proposed Agreement. The JV Agreement or the proposed JV Agreement, as the case may be, shall indicate at least the part(s) of the Works to be executed by each member.

4.2 The Bidder shall not have a conflict of interest. The Bidder shall be disqualified under any of the circumstances set forth below, where it is determined to have a conflict of interest throughout the bidding/selection process and/or the execution of the Contract unless the conflict has been resolved in a manner acceptable to JICA.

- (a) A firm shall be disqualified from providing goods or non-consulting services resulting from or directly related to consulting services for the preparation or implementation of a project that it provided or were provided by any affiliate that directly or indirectly controls, is controlled by, or is under common control with that firm. This provision does not apply to the various firms (consultants, contractors, or suppliers) only due to the reason that those firms together are performing the Contractor's obligations under a turnkey or design and build contract.
- (b) A firm that has a close business relationship with a professional personnel of the Borrower (or the Project Executing Agency, or the Employer), who are directly or indirectly involved in any part of: (i) the preparation of the Prequalification Document (if any prepared) and/or the Bidding Document for the Contract, (ii) the prequalification evaluation (if any conducted) and/or the

Bid evaluation, or (iii) the supervision of such contract, shall be disqualified.

- (c) Based on the “One Bid Per Bidder” principle, which is to ensure fair competition, a firm and any affiliate that directly or indirectly controls, is controlled by, or is under common control with that firm shall not be allowed to submit more than one Bid, either individually as a single firm, or as a member of a JV. However, this does not limit a firm (including its affiliate) participating in one Bid individually or as a member of a JV and at the same time, the firm (including its affiliate) participating in other Bids as a subcontractor but NOT acting as a specialized subcontractor (refer to ITB14.3). A firm (including its affiliate) acting as a specialized subcontractor or as a subcontractor in any Bid may participate in other Bids as a specialized subcontractor or as a subcontractor. (Refer to “the Guidelines for Procurement under Japanese ODA Loans (Ver.1.1, April 2012)”, CL 1.07(3), Notes 3).
- (d) A firm having any other form of conflict of interest other than (a) through (c) above shall also be disqualified.

4.3 The Bidder shall meet the requirements as to eligibility of the Bidders as specified in Section V, Eligible Source Countries of Japanese ODA Loans.

4.4 The Bidder that has been determined to be ineligible by JICA in accordance with ITB 3.1 shall not be eligible to be awarded a Contract.

4.5 This bidding is open only to the prequalified Bidders unless **specified in the BDS.**

4.6 The Bidder shall provide such evidence of its continued eligibility satisfactory to the Employer, as the Employer shall reasonably request.

5. Eligible Goods and Services

5.1 The goods and services comprising the Works to be supplied under the Contract and financed by JICA shall meet the requirements specified in Section V, Eligible Source Countries of Japanese ODA Loans.

- 35.2 The inner and outer envelopes shall be:
- (a) clearly marked with the name and address of the Bidder;
 - (b) addressed to the Employer in accordance with ITB 36.1;
 - (c) clearly marked with the specific identification of this bidding process **specified in BDS 1.1**; and
 - (d) clearly marked with a warning "NOT TO BE OPENED BEFORE THE TIME AND DATE FOR THE OPENING OF THE SECOND STAGE BID" in accordance with ITB 39.1.

- 35.3 If all envelopes are not sealed and marked as required, the Employer will assume no responsibility for the misplacement or premature opening of the Second Stage Bid.
- 36. Deadline for Submission of Second Stage Bids**
- 36.1 Second Stage Bids must be received by the Employer at the address and no later than the date and time specified in the Letter of Invitation for Second Stage Bids.
- 36.2 The Employer may, at its discretion, extend the deadline for the submission of Second Stage Bids by amending the Bidding Document in accordance with ITB 8, in which case all rights and obligations of the Employer and the Bidders subject to the previous deadline shall thereafter be subject to the deadline as extended.
- 37. Late Bids**
- 37.1 The Employer shall not consider any Second Stage Bid that arrives after the deadline for submission of Second Stage Bids, in accordance with ITB 36. Any Bid received by the Employer after the deadline for submission of Second Stage Bids shall be declared late, rejected, and returned unopened to the Bidder.
- 38. Withdrawal, Substitution, and Modification of Second Stage Bids**
- 38.1 A Bidder may withdraw, substitute, or modify its Second Stage Bid after it has been submitted by and prior to the deadline for submission of Second Stage Bids, sending a written notice, duly signed by an authorized representative, and shall include a copy of the Power of Attorney in accordance with ITB 34.2 and ITB 34.3. The corresponding substitution or modification of the Second Stage Bid must accompany the respective written notice. All notices must be:
- (a) prepared and submitted in accordance with ITB 34 and ITB 35 (except that withdrawals notices do not require copies), and in addition, the respective outer envelopes shall be clearly marked “SECOND STAGE BID - WITHDRAWAL”, “SECOND STAGE BID - SUBSTITUTION”, “SECOND STAGE BID - MODIFICATION”; and
 - (b) received by the Employer prior to the deadline prescribed for submission of Second Stage Bids, in accordance with ITB 36.
- 38.2 Bids requested to be withdrawn in accordance with ITB 38.1 shall be returned unopened to the Bidders.
- 38.3 No Bid may be withdrawn, substituted, or modified in the interval between the deadline for submission of Second Stage Bids and the expiration of the period of Bid validity specified by the Bidder on the Letter of Second Stage Bid or any

extension thereof.

**39. Second Stage Bid
Opening**

- 39.1 Except in the cases specified in ITB 37 and ITB 38, the Employer shall publicly open and read out in accordance with ITB 39.5 all Second Stage Bids received by the deadline, at the date, time and place specified in the Letter of Invitation for Second Stage Bids, in the presence of the Bidders' designated representatives and anyone who choose to attend.
- 39.2 First, envelopes marked "SECOND STAGE BID - WITHDRAWAL" shall be opened and read out and the envelope with the corresponding Bid shall not be opened, but returned to the Bidder. No Bid withdrawal shall be permitted unless the corresponding withdrawal notice contains a valid authorization to request the withdrawal and is read out at the opening of Second Stage Bids.
- 39.3 Second, outer envelopes marked "SECOND STAGE BID - SUBSTITUTION" shall be opened. The inner envelopes containing the Substitution Second Stage Bid shall be exchanged for the corresponding envelopes being substituted, which are to be returned to the Bidder unopened. Only the Substitution Second Stage Bid, if any, shall be opened and read out. No envelope substitution shall be permitted unless the corresponding substitution notice contains a valid authorization to request the substitution and is read out at the opening of the Second Stage Bids.
- 39.4 Next, outer envelopes marked "SECOND STAGE BID - MODIFICATION" shall be opened. No Second Stage Bid modification shall be permitted unless the corresponding modification notice contains a valid authorization to request the modification and is read out at the opening of Second Stage Bids. Only the Second Stage Bids, both Original as well as Modification, are to be opened and read out at the opening.
- 39.5 Next, all other envelopes holding the Second Stage Bids shall be opened one at a time, reading out:
- (a) the name of the Bidder;
 - (b) whether there is a withdrawal, substitution, or modification;
 - (c) the total Bid Price including any discount, and in the case of bidding for multiple lots, the total price for each lot together with the sum of the total prices for all lots

including any discounts;

- (d) the presence or absence of the Bid Security; and
- (e) any other details as the Employer may consider appropriate.

Only Bids and Bid discounts read out and recorded at Second Stage Bid opening shall be considered for evaluation.

The Employer shall neither discuss the merit of any Bid nor reject any Bid at Second Stage Bid opening except for late Bids, in accordance with ITB 37.1.

39.6 The Employer shall prepare a record of the opening of Second Stage Bids that shall include, as a minimum:

- (a) the name of the Bidder;
- (b) whether there is a withdrawal, substitution, or modification;
- (c) the total Bid Price including any discount, and in the case of bidding for multiple lots, the total price for each lot together with the sum of the total prices for all lots including any discounts; and
- (d) the presence or absence of a Bid Security.

The Bidders' representatives who are present shall be requested to sign the record. The omission of a Bidder's signature on the record shall not invalidate the contents and effect of the record. A copy of the record shall be distributed to all Bidders who submitted Second Stage Bids in time, and to JICA.

E3. Second Stage Bids: Evaluation and Comparison

40. Clarification of Second Stage Bids

- 40.1 To assist in the examination, evaluation, and comparison of the Second Stage Bids, and qualification of the Bidders, the Employer may, at its discretion, ask any Bidder for a clarification of its Bid, giving a reasonable time for a response. Any clarification submitted by a Bidder that is not in response to a request by the Employer shall not be considered. The Employer's request for clarification and the response shall be in writing. No change in the price or substance of the Second Stage Bid including any voluntary increase or decrease in the prices, shall be sought, offered, or permitted, except to confirm the correction of arithmetical errors discovered by the Employer in the evaluation of the

Bids, in accordance with ITB 46.

- 40.2 If a Bidder does not provide clarifications of its Second Stage Bid by the date and time set in the Employer's request for clarification, its Bid may be rejected.

**41. Deviations,
Reservations, and
Omissions**

- 41.1 During the evaluation of Second Stage Bids, the following definitions apply:
- (a) "Deviation" is a departure from the requirements specified in the Bidding Document;
 - (b) "Reservation" is the setting of limiting conditions or withholding from complete acceptance of the requirements specified in the Bidding Document; and
 - (c) "Omission" is the failure to submit part or all of the information or documentation required in the Bidding Document.

**42. Preliminary
Examination of
Second Stage Bids**

- 42.1 The Employer shall examine Second Stage Bids to confirm that all documents and information requested in ITB 28.1 have been provided, and to determine the completeness of each document submitted.
- 42.2 The Employer shall confirm that the following documents and information have been provided in the Second Stage Bid. If any of these documents or information is missing, the Bid shall be rejected.
- (a) Letter of Second Stage Bid;
 - (b) Power of Attorney to commit the Bidder;
 - (c) Bid Security;
 - (d) the updated First Stage Bid; and
 - (e) Price Schedules.

**43. Qualification of the
Bidders**

- 43.1 The Employer shall determine to its satisfaction whether the Bidder that is selected as having submitted the lowest evaluated and substantially responsive Bid still meets the qualification criteria specified in Section III, Evaluation and Qualification Criteria.
- 43.2 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the Bid, in which event the Employer shall proceed to the next lowest evaluated Bid to

make a similar determination of that Bidder's qualifications to perform Contract satisfactorily.

- 43.3 The subcontractors proposed by the Bidder in its Bid shall meet the eligibility requirements of ITB 4.

**44. Determination of
Responsiveness of
Second Stage Bids**

- 44.1 The Employer's determination of a Second Stage Bid's responsiveness is to be based on the contents of the Second Stage Bid itself, as defined in ITB 28.1.

- 44.2 For purposes of this determination, a substantially responsive Second Stage Bid is one that meets the requirements of the Bidding Document and has properly incorporated all modifications listed in the Memorandum entitled "**Changes Required Pursuant to First Stage Evaluation**", without material deviation, reservation, or omission. A material deviation, reservation, or omission is one that,

- (a) if accepted, would:
 - (i) affect in any substantial way the scope, quality, or performance of the Works specified in the Contract;
or
 - (ii) limit in any substantial way, inconsistent with the Bidding Document, the Employer's rights or the Bidder's obligations under the proposed Contract;
or
- (b) if rectified, would unfairly affect the competitive position of the other Bidders presenting substantially responsive Second Stage Bids.

- 44.3 The Employer shall carry out a technical evaluation of the Second Stage Bids not previously rejected as being substantially non-responsive, in order to determine whether the technical aspects concerning the modifications to the technically acceptable Bid detailed in the Memorandum entitled "**Changes Required Pursuant to First Stage Evaluation**", pursuant to ITB 26.5, have been properly addressed and are substantially responsive to the requirements set forth in the Bidding Document.

- 44.4 The capabilities of additional or different manufacturers or subcontractor proposed in its Bid in compliance with the Memorandum "**Change Required Pursuant to First Stage Evaluation**" will also be evaluated for acceptability in accordance with Section III, Evaluation and Qualification Criteria 1.1.3. Should any such additional or different

manufacturers or subcontractor determined to be unacceptable, the Bid will not be rejected, but the Bidder will be required to substitute an acceptable manufacturer or subcontractor without any change to the Bid price. Prior to issuing the Letter of Acceptance, the corresponding Schedule to the Contract Agreement shall be completed, listing the approved manufacturers or subcontractors for each item concerned.

- 44.5 If a Second Stage Bid is not substantially responsive to the requirements of the Bidding Document, it shall be rejected by the Employer and may not subsequently be made responsive by correction of the material deviation, reservation, or omission.

**45. Nonmaterial
Nonconformities**

- 45.1 Provided that a Second Stage Bid is substantially responsive, the Employer may waive any nonconformities (deviation, reservation or omission) in the Second Stage Bid.
- 45.2 Provided that a Second Stage Bid is substantially responsive, the Employer may request that the Bidder submit the necessary information or documentation, within a reasonable period of time, to rectify nonmaterial nonconformities in the Second Stage Bid related to documentation requirements. Requesting information or documentation on such nonconformities shall not be related to any aspect of the price of the Second Stage Bid. Failure of the Bidder to comply with the request may result in the rejection of its Second Stage Bid.
- 45.3 Provided that a Second Stage Bid is substantially responsive, the Employer shall rectify quantifiable nonmaterial nonconformities related to the Bid Price. To this effect, the Bid Price shall be adjusted, for comparison purposes only, to reflect the price of a missing or non-conforming item or component by adding the average price of the item or component quoted by substantially responsive Bidders. If the price of the item or components cannot be derived from the price of other substantially responsive Bidder, the Employer shall use its best estimate.

**46. Correction of
Arithmetical
Errors**

- 46.1 Provided that the Second Stage Bid is substantially responsive, the Employer shall correct arithmetical errors on the following basis:
- (a) where there are errors between the total of the amounts given under the column for the price breakdown and the amount given under the Total Price, the total of the

amounts given under the column for the price breakdown shall prevail and the amount given under the Total Price will be corrected;

- (b) where there are errors between the total of the amounts of Schedule Nos. 1 to 6 and the amount given in the Grand Summary, the total of the amounts of Schedule Nos. 1 to 6 shall prevail and the amount given in the Grand Summary will be corrected; and
- (c) where there is a discrepancy between words and figures, the amount in words shall prevail, unless the amount expressed in words is related to an arithmetical error, in which case the amount in figures shall prevail subject to (a) and (b) above.

46.2 The Bidder shall be requested to accept correction of arithmetical errors. Failure to accept the correction in accordance with ITB 46.1, shall result in the rejection of the Bid.

47. Conversion to Single Currency

47.1 For evaluation and comparison purposes, the currency(ies) of the Bid shall be converted into a single currency as **specified in the BDS**. The Employer will convert the amounts in various currencies in which the Bid Price, corrected pursuant to ITB 46, is denominated to the single currency identified above at the selling rates established for similar transactions by the authority **specified in the BDS** and on the date **stipulated in the BDS**.

48. Financial Evaluation of Second Stage Bids

48.1 To evaluate a Second Stage Bid, the Employer shall consider the following:

- (a) the Bid Price, excluding the Specified Provisional Sums and contingency allowance, if any in the Grand Summary of the Price Schedule, but including the Provisional Sum for Daywork when priced competitively;
- (b) price adjustment for correction of arithmetic errors in accordance with ITB 46.1;
- (c) price adjustment due to discounts offered in accordance with ITB 30.6;
- (d) the additional evaluation factors indicated in Section III, Evaluation and Qualification Criteria;
- (e) price adjustment due to quantifiable nonmaterial

nonconformities in accordance with ITB 45.3; and

- (f) converting the amount resulting from applying (a) to (e) above, if relevant, to a single currency in accordance with ITB 47.1.

The price for the Recommended Spare Parts if any, stated in the Price Schedule shall not be subject to evaluation.

- 48.2 If price adjustment is allowed in accordance with ITB 30.7, the estimated effect of the price adjustment provisions of the Conditions of Contract, applied over the period of execution of the Contract, shall not be taken into account in Bid evaluation.

- 48.3 In the case of bidding for multiple lots, the lowest evaluated price of the lot(s) shall be determined as specified in Section III, Evaluation and Qualification Criteria.

49. Comparison of Bids

- 49.1 The Employer shall compare the evaluated prices of all substantially responsive Second Stage Bids in accordance with ITB 48.1 to determine the lowest evaluated Bid.

- 49.2 If the Bid, which results in the lowest Evaluated Bid Price, is seriously unbalanced or front loaded in the opinion of the Employer, the Employer may require the Bidder to produce detailed price analyses for any or all items of the Price Schedule, to demonstrate the internal consistency of those prices with the construction methods and schedule proposed. After evaluation of the price analyses, taking into consideration the schedule of estimated Contract payments, the Employer may require that the amount of the Performance Security be increased at the expense of the Bidder to a level sufficient to protect the Employer against financial loss in the event of default of the successful Bidder under the Contract.

- 49.3 In the event of identification of a potentially abnormally low Bid, the Employer shall seek written clarifications from the Bidder, including detailed price analyses of its Bid Price in relation to the subject matter of the contract, scope, proposed methodology, schedule, allocation of risks and responsibilities and any other requirements of the Bidding Document.

After evaluation of the price analyses, in the event that the Employer determines that the Bidder has failed to demonstrate its capability to perform the Contract for the offered Bid Price, the Employer shall reject the Bid.

For the purpose of this ITB 49.3, an abnormally low Bid is

one where the Bid price, in combination with other elements of the Bid, appears so low that it raises material concerns as to the capability of the Bidder to perform the Contract for the offered Bid Price.

50. Employer's Right to Accept Any Bid, and to Reject Any or All Bids

- 50.1 The Employer reserves the right to accept or reject any Bid, and to annul the bidding process and reject all Bids at any time prior to Contract award, without thereby incurring any liability to Bidders. In case of annulment, all Bids submitted and specifically, Bid Securities, shall be promptly returned to the Bidders.

F. Award of Contract

51. Award Criteria

- 51.1 Subject to ITB 50.1, the Employer shall award the Contract to the Bidder whose offer has been determined to be the lowest evaluated Bid and is substantially responsive to the Bidding Document, provided further that the Bidder is determined to be qualified to perform the Contract satisfactorily.

52. Notification of Award

- 52.1 Prior to the expiration of the period of Bid validity, the Employer shall notify the successful Bidder, in writing, that its Bid has been accepted. The notification letter (hereinafter and in the Conditions of Contract and Contract Forms called the "Letter of Acceptance") shall specify the sum that the Employer will pay the Contractor in consideration of the execution and completion of the Works (hereinafter and in the Conditions of Contract and Contract Forms called "the Accepted Contract Amount").
- 52.2 After a Contract has been determined to be eligible for financing under Japanese ODA Loans, the following information may be made public by JICA:
- (a) name of each Bidder who submitted a Bid;
 - (b) Bid Prices as read out at Bid Opening;
 - (c) name and address of the successful Bidder; and
 - (d) signing date and amount of the Contract.
- 52.3 Until a formal Contract is prepared and executed, the Letter of Acceptance shall constitute a binding Contract.

53. Signing of Contract

- 53.1 Promptly upon notification, the Employer shall send the

successful Bidder the Contract Agreement.

- 53.2 Within twenty-eight (28) days of receipt of the Contract Agreement, the successful Bidder shall sign, date, and return it to the Employer.

**54. Performance
Security**

- 54.1 Within twenty-eight (28) days of the receipt of the Letter of Acceptance from the Employer, the successful Bidder shall furnish the Performance Security in accordance with the Conditions of Contract, subject to ITB 49.2, using for that purpose the Performance Security Form included in Section IX, Contract Forms, or another form acceptable to the Employer. If the Performance Security furnished by the successful Bidder is in the form of a bond, it shall be issued by a bonding or insurance company that has been determined by the successful Bidder to be acceptable to the Employer. A foreign institution providing a bond shall have a correspondent financial institution located in the Employer's country.

- 54.2 Failure of the successful Bidder to submit the above-mentioned Performance Security or sign the Contract shall constitute sufficient grounds for the annulment of the award and forfeiture of the Bid Security. In that event the Employer may award the Contract to the next lowest evaluated Bidder whose Bid is substantially responsive and is determined by the Employer to be qualified to perform the Contract satisfactorily.

**55. Notification to
Unsuccessful
Bidders and
Debriefing**

- 55.1 As promptly as possible upon the successful Bidder's signing the Contract and furnishing the Performance Security pursuant to ITB 54, the Employer shall notify all unsuccessful Bidders of the results of the bidding.
- 55.2 After receipt of the Employer's notification pursuant to ITB 55.1 above, unsuccessful Bidders (including those rejected on the grounds of their First Stage Bid not being substantially responsive) may request in writing to the Employer a debriefing seeking an explanation on the grounds on which their Bids were not selected. The Employer shall promptly respond in writing to any unsuccessful Bidder who requests a debriefing in accordance with this Clause.

Section II. Bid Data Sheet

Notes for the Employer

Section II, Bid Data Sheet, shall be filled in by the Employer before issuance of the Bidding Document.

The Bid Data Sheet (BDS) contains information and provisions that are specific to each procurement and that supplement Section I, Instructions to Bidders. The Employer must specify in the BDS only the information that the ITB requires to be specified in the BDS. All information shall be provided; **no clause shall be left blank.**

To facilitate the preparation of the BDS, its clauses are numbered with the same numbers as the corresponding ITB clauses.

The following directions should be observed when filling the BDS:

- (a) Specific details, such as the name of the Employer and the address for Bid submission should be furnished in the spaces indicated by italicized notes inside brackets.
- (b) The italicized notes are not part of the actual BDS, but contain guidelines and instructions for the Employer. They shall be deleted from the actual Bidding Document to be issued to the Bidders.
- (c) Where alternative Clauses or texts are shown, select those which best suit the particular contracts and delete the alternative text which is not used.

Second Stage Bids

1 Evaluation

1.1 Technical Evaluation

The evaluation of the Second Stage Bids consists of the following:

- (a) assessment of the qualification of the Bidder to perform the Contract satisfactorily, in accordance with ITB 43. The qualification criteria for the purpose of this assessment have been described in detail under item 2 (*Qualification*) below.
- (b) determination of the substantial responsiveness of the Second Stage Bid in accordance with ITB44. The evaluation criteria for the purpose of this determination have been described hereinunder.

Determination of the substantial responsiveness of the Second Stage Bid includes, among other things, an assessment of the adequacy of the Bidder's Technical Proposal, during which the Bidder's technical capacity to complete the Works will be assessed in terms of the following. Based on such assessment, the Employer will determine whether the Technical Proposal is substantially responsive to the requirements stipulated in Section VI, Employer's Requirements.

- (i) overall completeness and compliance with the Employer's Requirements and Memorandum entitled "Change Required Pursuant to First Stage Evaluation".
- (ii) conformity of the Works with specified performance criteria, including conformity with the specified minimum (or maximum, as the case may be) acceptable levels corresponding to each functional guarantee, as indicated in the Employer's Requirements and in this Section.
- (iii) suitability of the Works in relation to the environmental and climatic conditions prevailing at the site.
- (iv) quality, function and operation of any process control concept included in the Bid.
- (v) type, quantity and long-term availability of mandatory and recommended spare parts and maintenance services.
- (vi) mobilization of key construction equipment and personnel in execution of the Works.
- (vii) adequately supervising and controlling of the execution of the Works by the appropriate allocation of staff.
- (viii) planning and scheduling of all work activities in such a manner that the Works will be completed on time and meet with all Contract requirements, mainly the compliance with the Time for Completion, as evidenced by a design and construction schedule provided in the Technical Proposal.
- (ix) execution of the Works fully in accordance with all Contract requirements including but not limited to work methods, material sourcing, etc.
- (x) carrying out all operations for the execution of the Works safely and in an environmental friendly manner.

- (xi) conformity of subcontractors proposed in accordance with the items listed in Sub-Factor 1.1.3 in First Stage Evaluation, if applied.

The Bid that does not meet minimum acceptable standards of completeness, consistency and detail, and the specified minimum (or maximum, as the case may be) acceptable levels for the specified functional guarantees, will be rejected.

1.2 Financial Evaluation

In addition to the criteria listed in ITB 48.1 (a) – (c), (e) and (f), the following criteria shall apply:

1.2.1 Other Evaluation Criteria (ITB 48.1(d))

The following factors and methods will apply under ITB 48.1 (d):

(a) Operating and Maintenance Costs

[If Operating and Maintenance Costs will be subject to evaluation, insert the following. Otherwise delete all below and state “N/A”.]

Since the operating and maintenance costs of the Works being procured form a major part of the life cycle cost of the Works, these costs will be evaluated according to the principles given hereafter, including the cost of spare parts for the initial period of operation stated below and based on prices furnished by each Bidder in Price Schedules as well as on past experience of the Employer or other employers similarly placed. Such costs shall be added to the Bid Price for evaluation.

The operating and maintenance costs factors for calculation of the life cycle cost are:

- (i) number of years for life cycle *[insert life cycle period in years. The period should not exceed the period before a major overhaul of the Works becomes necessary.]*
- (ii) operating costs *[insert fuel and/or other input, unit cost for annual and total operational requirements.]*
- (iii) maintenance costs, including the cost of spare parts for the initial period of operation, and
- (iv) a rate of *[insert rate in words and figures]* percent, to be used to discount to present value all annual future costs calculated under (ii) and (iii) above for the period specified in (i).

(b) Performance Guarantees of the Works

The norms and the minimum/ maximum acceptable levels stated in the Employer's Requirements for functional guarantees are:

[insert the requirements stated in the Employer's Requirements]

Required Performance Guarantee	Requirement	
	Norm	Minimum/Maximum Acceptable Level
1.		
2.		
3.		
...		

For the purposes of evaluation: the following shall apply:

If the value(s) of the performance guarantee(s) of the proposed Works, as provided by the Bidder in Schedule of Guarantees:

- (i) meet(s) the Norm specified in the table above, there shall no adjustment to the Bid Price.
- (ii) is/ are within the range between the Norm and the Minimum/ Maximum Acceptable Level in the table above, for each percentage point that the value of the performance guarantee is deviated from the Norm, the Bid Price shall be adjusted using the methodology stated below:

[state methodology for calculation of adjustment]

- (iii) is/are not within the Minimum/ Maximum Acceptable Level in the table above, the Bid shall be rejected.

(c) Specific Additional Evaluation Criteria

1.2.2 Award Criteria for Multiple Lots (ITB 48.3)

[Insert the following paragraph in case of bidding for multiple lots, if applicable. Otherwise delete in its entirety and state "N/A".]

"If so provided in BDS 1.1, the Bidders have the option to bid for multiple lots of the Project in any combination. Bids for each lot or each combination of lots will then be

evaluated taking into account discounts offered, if any, for the award of such multiple lots.

The lots will be awarded to the Bidder(s) offering the lowest evaluated cost to the Employer considering such discounts offered, subject to the selected Bidder(s) meeting the required qualification criteria for the award of such multiple lots.”]

Column (iv) shall be left blank in the Bidding Document and shall be filled in with the relevant Values and Dates, prior to contract signing, as stated in note 3 below.					
For very large and/or complex contracts, it may be necessary to specify several price adjustment formulae for the different classes of pay items involved and to prepare the corresponding adjustment tables.

Total						1.00

Notes for the Bidders

1. The Bidder shall fill in column (v), the Total Amount of each index component (i.e.: labour, material, equipment, etc as stated in column (ii)) quoted in the local currency.

The Total Amount of the relevant “Non-adjustable” component shall also be indicated in the corresponding cell.

2. The Bidder shall specify a value within the ranges given by the Employer in 'b', 'c', 'd' and 'e' of column (vi), so that the total weighting equals 1.00.
3. The Values and the Dates of the Base Cost Index(ices) will be provided by the Employer prior to contract signing.

The Employer shall indicate the necessary information in columns (i) and (ii), and shall also provide a fixed value in 'a' and a range of values in 'b', 'c', 'd' and 'e' of column (vii).

For very large and/or complex contracts, it may be necessary to specify several price adjustment formulae for the different classes of pay items involved and to prepare the corresponding adjustment tables.

Notes for the Bidders

1. If so provided in BDS 15.1, in case of Single-Stage Two-Envelope Bidding and in BDS 31.1 in case of Two-Stage One-Envelope Bidding, the Bidder may quote in more than one foreign currency and, then this table should be repeated for each of those foreign currencies.

If the Source Currency of any index component is as same as the Payment Currency of this table, the Bidder may leave the corresponding cell of column (v) blank.

6. The Bidder shall derive the Total Amount in Payment Currency in Column (vi) by applying the exchange rate prevailing on the Base Date (as defined in GC Sub-Clause 1.1.3.1), as published by the central bank of the country of the source currency, to the Total Amount in Source Currency in column (v).

The Total Amount of the “*Non-adjustable*” component quoted in the subject foreign currency shall also be indicated in the corresponding cell.

7. The Bidder shall specify a value within the ranges given by the Employer in ‘b’, ‘c’, ‘d’ and ‘e’ of column (vii), so that the total weighting equals 1.00.

Price Schedule

Notes for the Employer

Objectives

The objectives of the Price Schedule are:

- (a) to provide sufficient information on fundamental types and volume of the Works to be performed to enable Bids to be prepared efficiently and accurately; and
- (b) when a contract has been signed, to provide a completed Price Schedule for use in the valuation of the Works performed, where necessary.

In order to attain these objectives, the Price Schedule should be well-structured and coherent, and its layout and content should be as simple and brief as possible.

The following guidance and directions should be complied with when preparing the Price Schedule.

Content

The Price Schedule should be divided generally into the following sections:

- (a) Preamble;
- (b) Work Items (grouped into part Schedules);
- (c) Daywork Schedule;
- (d) Schedule of Provisional Sums; and
- (e) Grand Summary.

Preamble

The Preamble should:

- (a) contain the provisions that describe the inclusiveness (and/or the exclusiveness where appropriate) of the unit prices; and
- (b) if the Contract includes items subject to re-measurement, set out the methods of measurement which has been used for measurement of estimated quantities of those items in the Price Schedule and that is to be used for measurement of actual quantities executed (i.e. re-measurement).

Work Items

All works should be itemized in sufficient detail to distinguish between the different classes of Works, or between Works of the same nature carried out in different locations or in other circumstances which may give rise to different considerations of cost.

The items should be grouped into sections (e.g., Schedule No. XX and Schedule No. YY) to distinguish between those parts of the Works that by nature, location, access, timing, or any other special characteristics may give rise to different methods of construction, phasing of the Works, or considerations of cost. General items common to all parts of the Works may be grouped as a separate section (i.e., Schedule No. 1: General Items) in the Price Schedule.

Generally, there should be no quantities indicated against lump sum items. Therefore, in order to avoid any confusions, it is advisable to indicate ‘-’ in the respective cells of the ‘Quantity’ and ‘Rate’ columns.

Normally, this type of contract is based on a lump sum price, with little or no re-measurement. However, if re-measurement item of the Works is applied, it should be clearly identified and described in the Particular Conditions of Contract. The estimated quantities should be indicated against those items so that the Bidder could fill in its unit prices accordingly. In this regard, reference shall be made to Sub-Clause 14.1 of the Conditions of Contract.

The schedules allocated for plant shall, among other things, include spare parts required for attaining the completion. The spare parts that the Employer considered necessary for the operation and maintenance of the plant shall be included in the schedule allocated for the Mandatory Spare Parts, whereas additional spare parts proposed by Bidder shall be included in Schedule allocated for the Recommended Spare Parts. Specific instruction for the Bidder to the above effect should be included in the Preamble of the Price Schedule.

When a series of Price Adjustment Formulae is used, each Price Adjustment Formula should relate to the appropriate section(s) in the Price Schedule.

Moreover, in accordance with ITB 14.3 (in case of Single Stage Two-Envelope Bidding) or ITB 30.3 (in case of Two-Stage One-Envelope Bidding), the Bidder is required to provide a breakdown of the prices in the manner and detail specified in the Price Schedule. As such, the Employer should include a clear and specific instruction in the Preambles of the Price Schedules so that the detailed breakdown will be proposed.

Item Descriptions

The Contract is generally carried out a lump-sum payment basis and the schedules do not necessarily give a full description of the works or plant and installation services to be performed. Each item description shall identify the work covered by the respective item, but the exact nature and extent of the work, or plant and installation services is to be ascertained from the Employer’s Requirements and Conditions of Contract, as the case may be.

The drafter shall make sure that details provided in item descriptions shall be consistent with the Preambles to the Price Schedule, Employer’s Requirements and the Conditions of Contract, where applicable.

Daywork Schedule

A Daywork Schedule should be included if the probability of work of a minor or incidental nature, outside the items included in the Price Schedule, is relatively high. To facilitate checking by the Employer of the competitiveness of rates quoted by the Bidders, the Daywork Schedule should normally comprise:

- (a) a list of the various classes of Labour, Materials, and Contractor’s Equipment for which basic Daywork rates or prices are to be inserted by the Bidder, together with a statement

of the conditions under which the Contractor will be paid for work executed on a Daywork basis; and

- (b) a percentage to be entered by the Bidder against each basic Daywork Subtotal amount for Labour, Materials, and Contractor's Equipment representing the Contractor's profit, overheads, supervision, and all other charges.

Provisional Sums

Specified Provisional Sums

The estimated cost of:

- (a) specialized work to be carried out, or special goods to be supplied by a nominated Subcontractor; or
- (b) work or service which is known to be required and the scope of which can be defined but cannot be completely designed or specified in detail;

should be specified in the relevant part of the Price Schedules (i.e. Schedule of Specified Provisional Sums) as a Specified Provisional Sum with an appropriate brief description.

Where the nominated Subcontractors are engaged (in respect of the Specified Provisional Sums falling into the category of (a) above), a separate bidding procedure is normally carried out by the Employer to select the respective nominated Subcontractors. Any facilities, amenities, attendance, etc., to be provided by the Contractor for the use and convenience of the nominated Subcontractor shall be deemed to be included within the percentage for the overhead charges and profit stated in the Contract Data 13.5(b)(ii) of the Particular Conditions: Part A.

The Provisional Sums for the cost of a Dispute Board (DB)

The Provisional Sum for the cost of a Dispute Board (DB) is one such specified Provisional Sum which falls into the category of (b) above. This Provisional Sum shall be included to cover a portion of the cost of the Dispute Board which consists only of its Regular Cost and the Employer's share (one-half) of its Non-Regular Cost as specified in Sub-Clause 20.2 of the Particular Conditions: Part B: Specific Provisions.

The Employer shall indicate in the Schedule of Specified Provisional Sums, an amount equivalent to the Employer's estimate of the portion of the cost of the DB covered under the Provisional Sum. Unlike other specified Provisional Sums, no Contractor's profits, overheads, etc. shall be included or payable on this Provisional Sum. When preparing the Employer's estimate above, reference shall be made to the table below which shows allocation of the various fees and expenses of the DB between the Regular Cost and Non-Regular Cost.

Fees and Expenses		Cost of the DB	
Item No.	Description	Regular Cost	Non-Regular Cost
1.	Retainer fees	<i>All.</i>	<i>None.</i>

2.	Daily fees	<i>only for regular Site visits.</i>	<i>for dispute referrals and work not accomplished during regular Site visits.</i>
3.	Expenses (a) international travel (b) local transport (c) accommodation (d) printing/photocopying (e) international telephone calls (f) document courier services (g) postage (h) others	<i>only for regular Site visits.</i>	<i>for dispute referrals and work not accomplished during regular Site visits.</i>
	Total	$\sum RC$	$\sum NRC$
Provisional Sum for the cost of the DB		$= \sum RC + \frac{\sum NRC}{2}$	

Contingency Allowance

Allowance for additional costs which may arise during the implementation of the Project due to unforeseen circumstances should be made by allocating contingency allowance in the Grand Summary and not by artificially increasing the quantity of any item of work or class of work. Allocation of this contingency allowance will make the resulting Bid Price a more realistic final contract value and thereby facilitate budgetary approval by avoiding the need to obtain supplementary approvals as the future need arises. When determining the value of this contingency allowance, the effect of price escalations (if allowed under the contract adjustments) on the estimated contract value, should be taken into account so that it can cover not only quantity and work contingencies but also price contingencies.

Line Items to Address Social Clauses

The Employer shall decide whether the cost to comply with the requirements of the so called “social clauses” (Sub-Clauses 6.1 through 6.24 of the Conditions of Contract), to the scope and extent specified in the Employer’s Requirements, is to be considered by the Bidder as part of its overhead or reflected as a cost associated with one or more-line items in the Price Schedule addressing such requirements. As a general rule, such cost should be part of the

Bidder's overhead unless the cost to comply with the requirements of some or all of the "social clauses" represents a large component of the Works, as specified in the Employer's Requirements. If line items are included in the Price Schedule, the facilities may be measured and paid through monthly instalments to make the Employer able to control the implementation of the facilities and services to be provided.

The following example illustrates when the cost to comply with the social clauses could be included by the Contractor as part of the general overheads and when as a part of line items. In regard to HIV-AIDS Prevention under Sub-Clause 6.7 of the Conditions of Contract, in some countries the government has public programs for HIV/AIDS and the Contractor will only need to create a support basis whose cost may be included in its overhead. Actually, in many civil works contracts (like in urban areas), workers do not live in the construction site but at their homes and the issue could be addressed in a different manner. In cases of plant or works in remote locations where the cost of such support is of a higher value, then it should be an item in the Price Schedule (e.g. Schedule No 1).

Grand Summary

The Grand Summary should contain a tabulation of the separate parts of the Price Schedule carried forward, with the Specified Provisional Sums and contingency allowance where applicable.

A. Preamble

Notes for the Employer

The Preamble is an essential part of the Price Schedule as it sets out the general principles based on which the Price Schedule is prepared and priced. The following paragraphs have been drafted for the reference of the Employer and they shall be modified or supplemented as appropriate, considering the country, project and work specific requirements.

The Preamble shall be consistent with the General and Particular Conditions of Contract, Employer's Requirements and any other document forming part of the Contract. The Employer shall make sure that the Preamble is attached to the completed Price Schedule when compiling the Contract documents.

1. The Price Schedule shall be read in conjunction with the General and Particular Conditions of Contract and the Employer's Requirements.
2. Unless otherwise stated in the Particular Conditions of Contract, the Contract is executed on a lump-sum price basis. The Schedules do not generally give a full description of the Works to be executed under each item. Bidders shall be deemed to have read the Employer's Requirements and other sections of the Bidding Document and reviewed the drawings to ascertain the full scope of the requirements included in each item prior to filling in the rates and prices. The quantities (if any) given in the Price Schedule shall be used in accordance with Sub-Clause 14.1 of the Conditions of Contract..
3. Any parts, consumables or spare parts required for attaining the completion of the Works shall:
 - (a) be included in or deemed to be covered by the rates and/or prices entered in the relevant Schedules of Rates and Prices of the Price Schedule. No separate payment shall be made in respect of any of such parts, consumables or spare parts.
 - (b) become the Employer's property immediately after they are brought to the Site, regardless of whether they will be subsequently used for the completion or will remain unused.
4. The Spare Parts that the Employer considered necessary for the operation and maintenance of the Works shall be included in the Price Schedule entitled "Mandatory Spare Parts", whereas Price Schedule entitled "Recommended Spare Parts" shall include additional spare parts proposed by the Bidder. Both Mandatory and Recommended Spare Parts are to be supplied prior to the completion of the Works.
5. The rates and prices in the completed Price Schedule shall, except insofar as it is otherwise provided under the Contract, include all of design, construction plant, labour, supervision, materials, erection, maintenance, insurance, profit, taxes, and duties, together with all general risks, liabilities, and obligations set out or implied in the Contract.

6. A rate or price shall be entered against each item in the Price Schedule, irrespective of whether quantities are stated or not. Items against which no rate or price is entered in the completed Price Schedule shall be deemed to be covered by the rates or prices entered for other items therein, and will not be paid for separately.
7. The whole cost of complying with the provisions of the Contract shall be included in the items provided in the completed Price Schedule, and where no items are provided, the cost shall be deemed to be included in the rates or prices entered for the related items of work.
8. The payment shall be made in accordance with the Conditions of Contract in the currency or currencies indicated under each respective item in the Price Schedule.

If any composite or lump sum items require price breakdowns (as indicated in B: *Work Items* below), for the purposes of making payments or partial payments, valuation of Variations or evaluation of claims, or for such other purposes as the Engineer considers reasonable, the Engineer may use the breakdown of such items submitted by the Contractor during the bidding stage and included as an attachment to this Price Schedule.

Such breakdowns shall clearly show the items of work activities that the respective composite or lump item consists of, their quantities and unit prices in the manner which can be used for the purposes described above.

9. General requirements, directions and/or descriptions of work and materials are not necessarily repeated or summarized in the Price Schedule. Relevant sections of the Contract documents shall be referred before entering prices against each item in the Price Schedule.
10. Provisional Sums included and so designated in the Price Schedule shall be expended in whole or in part at the direction and discretion of the Engineer in accordance with Sub-Clause 13.5 or Sub-Clause 13.6 of the Conditions of Contract, as applicable. Notwithstanding the above, the Provisional Sum for the cost of the DB shall require no prior instruction of the Engineer.
11. No Contractor's overhead charges or profit shall be included or payable on the Provisional Sum for the cost of the DB.
12. If the Contract specifically provides for any item to be executed on a re-measurement basis, the method of measurement of completed work for payment in respect of that item shall be in accordance with [*The Employer shall insert the name of a standard reference guide, or full details of the methods to be used.*].
13. Any unit rates and/or prices quoted in the Price Schedule in:
 - (a) [*The Employer shall insert name of local currency, as indicated in BDS 15.1 (in the case of Single-Stage Two-Envelope Bidding) or BDS 31.1 (in the case of Two-Stage One-Envelope Bidding), as appropriate.*], there shall be [*The Employer shall insert number of decimal places.*] decimal places below zero.

- (b) Japanese Yen (JPY), there shall be no decimal places below zero.
- (c) [*The Employer shall insert name of any other foreign currency, as indicated in BDS 15.1 in the case of Single-Stage Two-Envelope Bidding) or BDS 31.1 (in the case of Two-Stage One-Envelope Bidding)*], there shall be [*The Employer shall insert number of decimal places.*] decimal places below zero.

Any price(s) resulting from computations (such as unit price multiplied by quantity) shall be rounded down to the nearest decimal place(s) as indicated for each relevant currency above.

14. Where there are any items of work provided in the Price Schedule for complying with requirements of Sub-Clauses 6.1 through 6.24 of the Conditions of Contract, payment for such items are made only by monthly instalments upon the Contractor's compliance with all contract requirement with respect of that item, for each month, to the satisfaction of the Engineer.

B. Work Items

Notes for the Employer

The following paragraphs and the part Schedules below have been included only for the reference of the Employer and/or the Employer's consultant, and they shall be modified or supplemented as appropriate, considering the country, project and work specific requirements.

They shall also be consistent with the Conditions of Contract, Employer's Requirements and any other document forming part of the Contract. Where appropriate, the work items should be categorized into part Schedules considering their nature and scope, and timing of execution.

The Recommended Spare Parts are not subject to evaluation in accordance with ITB 31.3 and ITB 35.1 (in case of Single-Stage Two-Envelope Bidding), and ITB 25.3 and ITB 48.1 (in case of Two-Stage One-Envelope Bidding).

C. Daywork Schedule

Notes for the Employer

A “Daywork Schedule” is commonly found in contracts where minor or incidental work cannot be covered by the items in the Price Schedule. The preferred alternative is to value the additional work in accordance with Sub-Clauses 13.1 and 13.2 of the Conditions of Contract. A Daywork Schedule normally has the disadvantage of not being competitive among the Bidders, who may therefore load the rates assigned to some or all the items. If a Daywork Schedule is to be included at all in the Bidding Document, it is preferable to include nominal quantities against the items most likely to be used, and to carry the sum of the extended amounts forward into the Bid Summary in order to make the basic Schedule of Daywork Rates competitive.

The total amount assigned to such competitive daywork is regarded as a Provisional Sum to be expended under the direction and at the discretion of the Engineer. A limitation on quantity should not apply, and the unit rate quoted should remain unchanged whatever quantities of work are ordered.

The Employer or the consultant on his behalf, shall list out in the Daywork Schedules below, items of Labour, Material and the Contractor’s Equipment, likely to be required in case of work not covered under the Contract, considering the nature, extent and scope of the Works, project and the locality. Nominal quantities for each item shall be indicated as realistically as possible predicting the likelihood of any future requirement. The units of measurement shall be consistent with those specified in the Preambles, Employer’s Requirements or any other relevant document forming part of the Contract.

Daywork (for Labour, Materials or Equipment) shall indicate profit and overheads separately which facilitates the addition of further items of daywork, if needed, as the basic cost can then be checked more easily. An alternative is to make daywork rates all-inclusive of the Contractor’s overhead and profit, etc., in which case, paragraph 3, 4 or 5 and the relevant Daywork Schedule should be modified accordingly.

General

1. Reference should be made to Sub-Clause 13.6 of the General Conditions. Work shall not be executed on a daywork basis except by written order of the Engineer. The Bidders shall enter basic rates for Daywork items in the Schedules, which rates shall apply to any quantity of Daywork ordered by the Engineer. Nominal quantities have been indicated against each item of daywork, and the extended total for Daywork shall be carried forward as a Provisional Sum to the Grand Summary. Unless payment is at current rate or as otherwise adjusted, payments for daywork shall be subject to price adjustment in accordance with the provisions in the Conditions of Contract. The basic rates applied to Daywork items may be quoted and payable in a single currency (either local currency or foreign currency) or multiple currencies (both local and foreign currencies), as appropriate.

Daywork Labour

2. In calculating payments due to the Contractor for the execution of daywork, the hours for labour will be reckoned from the time of arrival of the labour at the work location to execute the particular item of daywork to the time of return to the original place of departure. Only the time of classes of labour directly doing work ordered by the Engineer and for which they are competent to perform will be measured. The time of gangers (charge hands) actually doing work with the gangs will also be measured but the time of foremen or other supervisory personnel supervising the work will not be measured.
3. The Contractor shall be entitled to payment in respect of the total time that labour is employed on Daywork, calculated at the basic rates entered by him in the **Schedule of Daywork Rates: 1. Labour**, together with an additional percentage payment on basic rates representing the Contractor's profit, overheads, etc., as described below:
 - (a) The basic rates for labour shall be deemed to cover all direct costs to the Contractor, including (but not limited to) the amount of wages paid to such labour, transportation time, overtime, subsistence allowances, and any sums paid to or on behalf of such labour for social benefits in accordance with all laws and regulations of [*country of Employer*].
 - (b) The additional percentage to be quoted by the Bidder shall be applied to basic costs incurred under (a) above, and this additional percentage payment shall be deemed to cover the Contractor's profit, overheads, superintendence, liabilities, and insurances and allowances to labour, timekeeping, and clerical and office work, the use of consumable stores, water, lighting, and power; the use and repair of stagings, scaffolding, workshops, and stores, portable power tools, manual plant, and tools; supervision by the Contractor's staff, foremen, and other supervisory personnel; and charges incidental to the foregoing.

Daywork Materials

4. The Contractor shall be entitled to payment in respect of materials used for Daywork (except for materials for which the cost is included in the percentage addition to labour costs as detailed heretofore), at the basic rates entered by him in the **Schedule of Daywork Rates: 2. Materials**, together with an additional percentage payment on the basic rates representing the Contractor's profit, overhead charges, etc., as described below:
 - (a) the basic rates for materials shall be calculated on the basis of the invoiced price, freight, insurance, handling expenses, damage, losses, etc., and shall provide for delivery to store for stockpiling at the Site.
 - (b) the additional percentage shall be quoted by the Bidder and applied to the basic cost incurred under (a) above, and this additional percentage payment shall be deemed to cover the Contractor's profit, overheads, administrative costs and all other charges related to the procurement and supply of such material.

- (c) the cost of hauling materials for use on work ordered to be carried out as daywork from the store or stockpile on the Site to the place where it is to be used:
 - (i) shall not be included in the basic rate or percentage above; and
 - (ii) shall be paid separately under Schedule of Daywork Rates 1. Labour and/or Schedule of Daywork Rates 3. Contractor's Equipment, as appropriate.

Daywork Contractor's Equipment

5. The Contractor shall be entitled to payments in respect of Contractor's Equipment (including those already on Site) employed on Daywork at the basic rates entered by him in the **Schedule of Daywork Rates: 3. Contractor's Equipment**, together with an additional percentage payment on basic rates representing the Contractor's profit, overheads, etc., as described below:
 - (a) The basic rates for equipment shall be deemed to cover all direct cost to the Contractor including (but not limited to) the depreciation, interest, indemnity, and insurance, repairs, maintenance, supplies, fuel, lubricants, and other consumables directly related to the use of such equipment.
 - (b) The additional percentage shall be quoted by the Bidder and applied to the basic cost incurred under (a) above and this additional percentage payment shall be deemed to cover the Contractor's profit, overheads, administrative costs and all other charges related to the use of such equipment.
 - (c) The cost of drivers, operators, and assistants
 - (i) shall not be included in the basic rate or percentage above; and
 - (ii) shall be paid for separately under Schedule of Daywork Rates 1. Labour.

Notes for the Employer

An alternative to the separate payment stated in subparagraph (c)(i), (sometimes adopted for administrative convenience) is to include the cost of drivers, operators, and assistants in the basic rates for Contractor's Equipment. The subparagraph 5 should then be modified accordingly.

6. In calculating the payment due to the Contractor for Contractor's Equipment employed on Daywork, only the actual number of working hours will be eligible for payment, except that where applicable and agreed with the Engineer, the travelling time from the part of the Site where the Contractor's Equipment was located when ordered by the Engineer to be employed on Daywork and the time for return journey thereto shall be included for payment.

[illegible]

1. The Bidder shall indicate the percentage for Contractor's profit, overheads, etc. in accordance with paragraph 3(b) above.

[illegible]

1. The Bidder shall indicate the percentage for Contractor's profit, overheads, etc. in accordance with paragraph 4(b) above.

PART 2 –EMPLOYER’S REQUIREMENTS

Section VI. Employer's Requirements

Notes for the Employer

This Section VI. Employer's Requirements contains the scope of Works, the Employer's Requirements and Supplementary Information that describe the Works and the Site Data to be used during the implementation of the Contract.

This bidding process results in a design-build contract where the Contractor is responsible for both design and construction. Therefore, the Employer is not required to provide conventional technical specifications with detailed drawings. It is, nevertheless, in this Section, that the Employer precisely specifies the performance to be achieved or output specification for the completed Works, design criteria, and any other technical requirements the Employer wishes to impose (e.g. quality of materials and workmanship, protection of the environment, occupational safety and health, etc.).

On the other hand, it is advisable to avoid over-specifying details to the extent that the flexibility and potential benefits associated with a design build concept are eroded or compromised. The Employer's Requirements should, therefore, be carefully prepared by suitably qualified engineers who are familiar with the requirements and with the technical aspect of the Works.

The Employer's Requirements should also define the procedures and requirements with respect to:

- (a) review and/or approval of the Contractor's Documents (Sub-Clause 5.2 of the Conditions of Contract), including designs; and
- (b) tests, including the Test on Completion (and, if applicable, Test after Completion).

In particular, the extent of the contractor's design obligation must be defined without any room for uncertainty. If the Employer is responsible for the detailed design of any part of the Permanent Works, the extent of the scope and the extent of his obligations must be stated in the Employer's Requirements.

Under a design build contract, no detailed drawings are generally available at the bidding stage. It would rather be useful to include outline and/or conceptual drawings as are appropriate to supplement or help illustrate the general concept of the Employer's needs. The Bidder should be well advised to the extent to which the Employer's outline design is a suggestion or a requirement.

The Employer's Requirements should include, as appropriate, information of a technical nature, referring to the Employer's Requirement or stating as specified, described or indicated in the Contract, in the following Sub-Clauses of the Conditions of Contract:

Care must be taken when drafting the Employer's Requirements to ensure that the requirements are not restrictive. Recognized international standards should be used as much as possible in the descriptions of design, goods, materials and workmanship. Where any particular standards are specified, whether national standards from the Employer's country or other standards, it should be stated that goods, materials and workmanship that meet other authoritative standards are acceptable if they guarantee equal or higher quality than the standards specified.

The Employer's Requirements should stipulate that all of the goods and materials to be incorporated in the works are new, unused, of the most recent or current models and incorporate all recent improvements in design and materials.

The Employer shall perform appropriate front-end tasks (such as geotechnical/environmental investigations and permit acquisitions). In this regard, pursuant to Sub-Clause 4.10 of the Conditions of Contract, the Employer shall make available to the Bidder all relevant data in

the Employer's possession pertaining to the Site and the proposed works.

Scope of Works

Notes for the Employer

The Employer shall insert hereunder Contractor's scope of work in accordance with the Conditions of Contract, Sub-Clauses 4.1 and 5.1 in particular.

Specifications

Notes for the Employer

The Specification consists of major two parts, i.e., the Safety Specification and the General and Technical Specification. The Safety Specification shall have priority over the other parts of the Specification in respect of health and safety matters.

The Safety Specification consists of Particular Safety Specification and JICA Standard Safety Specification, JSSS here-under.

The Particular Safety Specification shall be prepared for each particular project considering specific requirements, characteristics, conditions, environments, etc. of the project while JSSS describes general safety affairs.

Bidders shall be informed that the project is carried out under the basic principle, "Safety First", based on the Safety Specification.

The Employer shall insert hereunder specifications which set out the applicable minimum standards that applies for the Plant and Materials as well as the other technical requirements to be incorporated in the design. Refer to the Notes for the Employer at the beginning of the section. In addition to the information required and matters to be referred, pursuant to the Conditions of Contract (as stated in the notes above), any or all of the following information may be specified;

- intended performance of the plant
- definition of the location of the site
- design and other technical criteria
- applicable technical standards, codes and regulation
- quality and performance criteria
- quality control and assurance system
- customs requirements
- proposed or required time programme, programme software, periodical programme revision, required milestones
- other contractors (and others) on the site
- setting-out points lines and levels of reference
- permissions being obtained by the Employer
- involvement of third parties
- environmental constrains
- access constrains: road, rail, air and sea
- electricity, water, gas and other services available on the site
- criteria for design personnel
- contractor's documents required, and whether required for information, review and/or approval, and number of copies
- operational training for the Employer's personnel

- as-built drawing and other records of the works
- operation and maintenance manuals
- spare parts
- work covered under Provisional sums
- health, safety and environmental plan
- operation and maintenance by the Contractor (if any)

Drawings

Notes for the Employer

The Employer's Requirements may include drawings, on which the proposed Works may be outlined. In such cases, the Employer's Requirements should define the extent to which (for example) the Works must comply with the outline. The incorporation of design aspects into the drawings should be carried out with care, with full consideration being given to the consequences, including any ultimate responsibility for this design by the Employer.

The drawings, even if not fully developed, must show sufficient details to enable Bidders to understand the type and complexity of the Works.

A map showing the location of the Site in relation to the local geography, including major roads, ports, airports, and railroads, is helpful.

It is customary to bind the drawings in a separate volume, which is often larger than other volumes of the Contract documents. The size will be dictated by the scale of the drawings, which must not be reduced to the extent that details are rendered illegible.

Required Contractor's Documents

Notes for the Employer

As stated in the note above on the drafting on the Employer's Requirement referring to Sub-Clause 5.2 of the Conditions of Contract, the Employer shall insert the list of documents that are required to be submitted by the Contractor, for the Engineer's review and/or approval. A sample list has been indicated below.

Description		For review	For review and approval
1	Design Schedule		
2	Preliminary Design		
3	Detailed Design		
4			
5			
6			
7			
8			
9			
10

12			

The Employer should carefully weigh-in the documents that it requires for review and/or for approval. Unreasonable approval requirements may interfere in the Contractor's design process. Further, notwithstanding the last paragraph of Sub-Clause 5.2 of the Conditions of Contract, it may be difficult, in case a dispute arises, for the Employer to refute all liability for an approved submission.

The Employer's Requirements may also require the Contractor to provide some or all of the following (Contractor's Documents for approval):

- Stakeholder engagement plan.
- Environmental and social management plan.
- Occupational and health and safety management plan.
- Traffic management plan.

Supplementary Information

Notes for the Employer

The Supplementary information may typically include any additional data or information relating to the Works, project, country or locality, which may be useful or helpful for the Bidder for preparation of its Bid.

Site Data

Notes for the Employer

The pursuant to Sub-Clause 4.10 of the Conditions of Contract, the Employer shall make available to the Bidders, all relevant data in the Employer's possession pertaining to the Site and the proposed Works, which may typically include the following:

- (a) topographical survey data
- (b) environmental and social baseline data
- (c) meteorological data and tidal data
- (d) ground investigation and ground condition data (i.e. geotechnical data, geological data)
- (e) utility records
- (f) land ownership data
- (g) ground water, surface water and hydrological data
- (h) orders, consents, permits, licenses and compliance requirements
- (i) as-built records of existing infrastructure
- (j) quality and environmental, health or safety systems to apply
- (k) details of any risks or hazards
- (l) any other physical constraints

If the Site Data is voluminous and the Employer finds it difficult to attach with the Bidding Document, he may include only the list of such Site Data hereunder and issue them separately to the Bidders in CD(s)/ DVD(s).

PART 3 – CONDITIONS OF CONTRACT AND CONTRACT FORMS

Notes for the Employer

The Conditions of Contract comprise two parts:

- (a) **General Conditions** – GC (Section VII of this document); and
- (b) **Particular Conditions** – PC (Section VIII of this document).

This Standard Bidding Document has been prepared for the use with the Fédération Internationale des Ingénieurs-Conseils (FIDIC) General Conditions of the Contract for Plant and Design Build for Electrical and Mechanical Plant, and for Building and Engineering Works, Design by the Contractor, 1st edition, 1999 (Standard GC).

In compliance with the license agreement between JICA and FIDIC, the Standard GC are not included in this Standard Bidding Document, and instead, in Section VII, it contains information as to where these GC can be obtained. The incorporation of the GC by an appropriate reference (following the format given under Section VII) is required in all bidding documents/ contracts for the electrical and mechanical plant and building and engineering works of lump-sum type designed by the Contractor and to be procured through international competitive bidding (ICB).

The Particular Conditions (PC) complement the General Conditions (GC) to specify data and contractual requirements linked to the special circumstances of the country, the Employer, the Engineer, the sector, the overall project, and the Works. It is good practice to have a list of tax and custom regulations applicable in the country, to be provided as non-binding general information, attached to the Bidding Document.

This Section consists of Part A, Contract Data, which contains data specific to each contract, and Part B, Specific Provisions, which contains provisions specific to each contract. . . Moreover, Part B consists of a set of provisions prepared by JICA which should be used **without modification**. In addition to those, country- or project-specific provisions may also be prepared and incorporated in each case (in Part B). Whoever drafts the PC should be thoroughly familiar with the provisions of the GC and with any specific requirements of the Contract. Legal advice is recommended when amending provisions or drafting new ones. Note that **the PC provisions take precedence over those in the GC**. Clause numbers in the PC correspond to those in the GC.

Section VII. General Conditions (GC)

The General Conditions of Contract shall be the “General Conditions” of the “FIDIC General Conditions of Contract for Plant and Design Build for Electrical and Mechanical Plant, and for Building and Engineering Works, Designed by the Contractor”, First edition 1999 released by the *Fédération Internationale des Ingénieurs-Conseils* (FIDIC).

Section VIII. Particular Conditions (PC)¹

Notes for the Employer

This Section consists of Part A, Contract Data, which contains data specific to each Contract and Part B, Specific Provisions, which contains clauses specific to each Contract. The contents of this Section supplement the GC.

Whereas the choice for a Dispute Board (DB) is appointment of a Standing DB, an Ad-hoc DB, or no use of DB, JICA strongly recommends the use of Standing DBs in all projects financed by JICA due to the dispute avoidance function. Therefore, Specific Provisions of the PC are prepared for a Standing DB. However, when appointment of an Ad-hoc DB or no use of DB is agreed with JICA, the Employer may proceed with the incorporation of it into the Contract by revising the relevant DB related Specific Provision. The instructions for preparing the specific provisions for Ad hoc DB or no use of DB are provided in the end of Specific Provisions.

The “*Notes for the Employer*”, “boxed” notes and italicized notes are not part of the PC, but contain guidelines and instructions for the Employer. They shall be deleted from the actual Bidding Document to be issued to the Bidders except for CD 1.3 (Contractor’s name and address) and CD 4.3 (Contractor’s Representative’s Name), which require the relevant data to be filled in prior to signing of the Contract.

¹ Based on the General Conditions of Contract for Plant and Design Build Engineering for Electrical and Mechanical Plant and for Building and Engineering Works, Designed by the Contractor © FIDIC 2018 – Licenced to JICA 2018 -2023.

Promptly after the latest of the expiry dates of the Defects Notification Periods, the outstanding balance of the Retention Money shall be certified by the Engineer for payment to the Contractor. The Contractor shall ensure that the guarantee is in the amounts and currencies of the second half of the Retention Money and is valid and enforceable until the Contractor has executed and completed the Works and remedied any defects, as specified for the Performance Security in Sub-Clause 4.2. On receipt by the Employer of the required guarantee, the Engineer shall certify and the Employer shall pay the second half of the Retention Money. The release of the second half of the Retention Money against a guarantee shall then be in lieu of the release under the second paragraph of this Sub-Clause. The Employer shall return the guarantee to the Contractor within 21 days after receiving a copy of the Performance Certificate.

If the Performance Security required under Sub-Clause 4.2 is in the form of a demand guarantee, and the amount guaranteed under it when the Taking-Over Certificate is issued is more than half of the Retention Money, then the Retention Money guarantee will not be required. However, if a list of potential members has been agreed by the Parties and is included in the Contract, the members shall be selected from those on the list, other than anyone who is unable or unwilling to accept appointment to the DB.

The agreement between the Parties and either the sole member or each of the three members shall incorporate by reference the General Conditions of Dispute Board Agreement contained in the Appendix A to these General Conditions, with such amendments as are agreed between them.

If a member declines to act or is unable to act as a result of death, disability, resignation or termination of appointment, a replacement shall be appointed in the same manner as the replaced person was required to have been nominated or agreed upon, as described in this Sub-Clause.

The appointment of any member may be terminated by mutual agreement of both Parties, but not by the Employer or the Contractor acting alone. Both Parties shall promptly make available to the DB all such additional information, further access to the Site, and appropriate facilities, as the DB may require for the purposes of making a decision on such dispute. The DB shall be deemed to be not acting as arbitrator(s).

Within 84 days after receiving such reference, or within such other period as may be proposed by the DB and approved by both Parties, the DB shall give its decision, which shall be

reasoned and shall state that it is given under this Sub-Clause. The decision shall be binding on both Parties, who shall promptly give effect to it unless and until it shall be revised in an amicable settlement or an arbitral award as described below. Unless the Contract has already been abandoned, repudiated or terminated, the Contractor shall continue to proceed with the Works in accordance with the Contract.

If either Party is dissatisfied with the DB's decision, then either Party may, within 28 days after receiving the decision, give a Notice of Dissatisfaction to the other Party indicating its dissatisfaction and intention to commence arbitration. If the DB fails to give its decision within the period of 84 days (or as otherwise approved) after receiving such reference, then either Party may, within 28 days after this period has expired, give a Notice of Dissatisfaction to the other Party.

In either event, this Notice of Dissatisfaction shall state that it is given under this Sub-Clause, and shall set out the matter in dispute and the reason(s) for dissatisfaction. The place of arbitration shall be a neutral location determined in accordance with the applicable rules of arbitration; and the arbitration shall be conducted in the language for communications defined in Sub-Clause 1.4 [*Law and Language*].

The arbitrators shall have full power to open up, review and revise any certificate, determination, instruction, opinion or valuation of the Engineer, and any decision of the DB, relevant to the dispute. Nothing shall disqualify representatives of the Parties and the Engineer from being called as a witness and giving evidence before the arbitrators on any matter whatsoever relevant to the dispute.

Neither Party shall be limited in the proceedings before the arbitrators to the evidence or arguments previously put before the DB to obtain its decision, or to the reasons for dissatisfaction given in its Notice of Dissatisfaction. Any decision of the DB shall be admissible in evidence in the arbitration.

Arbitration may be commenced prior to or after completion of the Works. The obligations of the Parties, the Engineer and the DB shall not be altered by reason of any arbitration being conducted during the progress of the Works.”

- “ 1. Unless otherwise agreed by the Employer and the Contractor, the DB shall visit the Site at intervals of not more than 140 days, including times of critical construction events, at the request of either the Employer or the Contractor. Unless otherwise agreed by the Employer, the Contractor and the DB, the period between consecutive visits shall not be less than 70 days, except as required to convene a hearing as described below.
2. The timing of and agenda for each Site visit shall be as agreed jointly by the DB, the Employer and the Contractor, or in the absence of agreement, shall be decided by the DB. The purpose of Site visits is to enable the DB to become and remain acquainted with the progress of the Works and of any actual or potential problems or claims, and, as far as reasonable, to endeavour to prevent potential problems or claims from becoming disputes.
3. Site visits shall be attended by the Employer, the Contractor and the Engineer and shall be coordinated by the Employer in co-operation with the Contractor. The Employer shall ensure the provision of appropriate conference facilities and secretarial and copying services. At the conclusion of each Site visit and before leaving the site, the DB shall prepare a report on its activities during the visit and shall send copies to the Employer and the Contractor.
4. The Employer and the Contractor shall furnish to the DB one copy of all documents which the DB may request, including Contract documents, progress reports, variation instructions, certificates and other documents pertinent to the performance of the Contract. All communications between the DB and the Employer or the Contractor shall be copied to the other Party. If the DB comprises three persons, the Employer and the Contractor shall send copies of these requested documents and these communications to each of these persons.

5. If any dispute is referred to the DB in accordance with Sub-Clause 20.4 of the Conditions of Contract, the DB shall proceed in accordance with Sub-Clause 20.4 and these Rules. Subject to the time allowed to give notice of a decision and other relevant factors, the DB shall:
 - (a) act fairly and impartially as between the Employer and the Contractor, giving each of them a reasonable opportunity of putting his case and responding to the other's case, and
 - (b) adopt procedures suitable to the dispute, avoiding unnecessary delay or expense.
6. The DB may conduct a hearing on the dispute, in which event it will decide on the date and place for the hearing and may request that written documentation and arguments from the Employer and the Contractor be presented to it prior to or at the hearing.
7. Except as otherwise agreed in writing by the Employer and the Contractor, the DB shall have power to adopt an inquisitorial procedure, to refuse admission to hearings or audience at hearings to any persons other than representatives of the Employer, the Contractor and the Engineer, and to proceed in the absence of any party who the DB is satisfied received notice of the hearing; but shall have discretion to decide whether and to what extent this power may be exercised.
8. The Employer and the Contractor empower the DB, among other things, to:
 - (a) establish the procedure to be applied in deciding a dispute,
 - (b) decide upon the DB's own jurisdiction, and as to the scope of any dispute referred to it,
 - (c) conduct any hearing as it thinks fit, not being bound by any rules or procedures other than those contained in the Contract and these Rules,
 - (d) take the initiative in ascertaining the facts and matters required for a decision,
 - (e) make use of its own specialist knowledge, if any,
 - (f) decide upon the payment of financing charges in accordance with the Contract,

 - (h) open up, review and revise any certificate, decision, determination, instruction, opinion or valuation of the Engineer,

relevant to the dispute.

9. The DB shall not express any opinions during any hearing concerning the merits of any arguments advanced by the Parties. Thereafter, the DB shall make and give its decision in accordance with Sub-Clause 20.4, or as otherwise agreed by the Employer and the Contractor in writing. If the DB comprises three persons:
 - (a) it shall convene in private after a hearing, in order to have discussions and prepare its decision;
 - (b) it shall endeavour to reach a unanimous decision: if this proves impossible the applicable decision shall be made by a majority of the Members, who may require the minority Member to prepare a written report for submission to the Employer and the Contractor; and
 - (c) if a Member fails to attend a meeting or hearing, or to fulfil any required function, the other two Members may nevertheless proceed to make a decision, unless:
 - (i) either the Employer or the Contractor does not agree that they do so, or

Guidance for preparing Project Specific Provisions

Notes for the Employer

The Dispute Board (DB) provided for in GC Clause 20 to be read conjunction with the Part B: Specific Provisions of the PC is a Standing DB which is appointed soon after the Contractor commences the Works and which remains in place for the duration of the Contract. A Standing DB typically visits the Site on a regular basis. During the Site visit or in any other timing, the Standing DB would also be available to assist the Parties by giving advice to avoid any disputes. Due to this dispute avoidance function, JICA strongly recommends the use of Standing DBs in all projects financed by JICA.

If only there are specific justifiable reasons, however, Dispute Boards can also be appointed when there is an actual dispute. This type of DB is called an Ad-hoc DB. Unlike a Standing DB, an Ad-hoc DB is by its very nature not available to exercise any dispute avoidance function as it is only appointed after a specific dispute referred to it has arisen.

The Employer, in consultation with JICA, shall decide which type of a dispute board is appropriate taking into account all relevant circumstances of the project. The choice for a particular project could be one of the following:

- (a) Appointment of a Standing DB (strongly recommended by JICA)
- (b) Appointment of an Ad-hoc DB
- (c) No use of DB

Upon JICA's agreement to the DB mechanism chosen, the Employer shall proceed with the incorporation of it into the Contract by revising the relevant DB related Specific Provision provided below. Necessary guidance is given for (b) appointment of an Ad-hoc DB and (c) No use of DB hereinunder.

"Guidance for preparing Project Specific Provisions" shall be deleted from the actual Bidding Document to be issued to the Bidders.

No prior instruction of the Engineer shall be required with respect to the work of the DB.
