

**Target Countries :**Mainly Asia and the Pacific region. Possible to accept from other regions.

**Course No. :**J1704222

**No. :**1784512

**Sector :**Governance/Statistics

**Sub-Sector :**

**Language :**English

**Outline**

To build the institutional capacity of national statistical systems to produce basic statistics related to the post-2015 sustainable development indicators by training on internationally agreed statistical standards, frameworks, and methodologies. The training course also introduces current good practices and how these may be adapted at the country level in modernizing their statistical business processes.

Objective/Outcome	Target Organization / Group	
<p><b>【Objective】</b>                      To increase the capability of national statistical systems to produce the statistical data requirements for monitoring the post-2015 sustainable development goals and related measurements of national development</p> <p><b>【Outcome】</b>                      As a result of the course, participating organizations are expected to have statistical staff with:</p> <ol style="list-style-type: none"> <li>1. Increased knowledge and understanding of the internationally recommended standards, frameworks and good practices applied in the production and analysis of core sets of population, social, economic and environmental official statistics</li> <li>2. Knowledge and understanding of goals, targets and indicators of the post-2015 development agenda</li> <li>3. Improved skills in applying basic statistical theory and methods in the production of quality data and basic statistics</li> <li>4. Demonstrated ability to conduct a sample survey and produce and analyze development indicators from sample survey data</li> <li>5. Improved communication and presentation skills as applied to effectively presenting and explaining statistical results</li> </ol>	<p><b>【Target Organization】</b>                      National statistical offices; national government agencies engaged in data collection and production and use of official statistics</p> <p><b>【Target Group】</b>                      Junior-to-middle level official statisticians with at least five (5) years of working experience in abovementioned target organizations</p>	
<p><b>Contents</b></p> <ol style="list-style-type: none"> <li>1. Foundations of official statistics: standards, frameworks and methods</li> <li>2. Goals, targets and indicator framework of the post -2015 development agenda</li> <li>3. Statistical theory and methods relevant to the production, analysis and presentation of official statistics</li> <li>4. Methodologies and tools for producing, analyzing and disseminating quality data and official statistics in a modernized statistical organization</li> <li>5. Statistical business processes for core sets of statistics: population, social, economic and environment</li> <li>6. Core values and competencies of official statisticians: fundamental principles of official statistics</li> </ol>	<p><b>Course Period</b></p>	<p>2017/08/15~2017/12/16</p>
	<p><b>Department in Charge</b></p>	<p>Industrial Development and Public Policy Department</p>
	<p><b>JICA Center</b></p>	<p>JICA                      Tokyo (Industry&amp;Public)</p>
<p><b>Implementing Partner</b></p>	<p>UN Statistical Institute for Asia and the Pacific</p>	
<p><b>Remarks and Website</b></p>	<p>The training program is conducted jointly by SIAP and JICA                      (URL) <a href="http://www.unsiap.or.jp/">http://www.unsiap.or.jp/</a></p>	
	<p><b>Cooperation Period</b></p>	<p>2016~2018</p>
