This program is designed for mid-level central and local government officers to bring awareness and encourage introducing environmentally sustainable urban transport (EST) system and city planning based on the concept of "Green Economy" (economic activities aiming at the environmental conservation and the economic development).

### Objective/Outcome

1. **Objective**
   - Action plan for promoting EST system and urban development will be shared and discussed among the related organizations.

2. **Outcome**
   - To understand and analyze the current situation and problems of EST in area of responsibility.
   - To understand actual approaches for EST by central and local government in Japan.
   - To set the direction of policies, programs and projects for promotion of EST system and urban development.
   - To formulate action plan to promote EST system and urban development in respective countries.

### Target Organization / Group

- **Target Organization**
  - Department in charge of urban transport or urban development in the central or local government.

- **Target Group**
  1. Officer in charge of planning and implementing urban transport (mainly public transport) or urban development in the central or local government.
  2. At least 5 years' experience in the relevant field.

### Contents

1. Preparing the Inception Report, summarizing the review and analysis of the current situation and problems of EST.
2. Lectures/Field visits (Example)
3. Setting the direction of policies, programs and projects for promotion of EST system and city planning through exercises and discussions.
4. Formulating action plan to promote EST system and city planning in respective countries.
5. Sharing action plan among the related organizations, and submitting the Progress Report (within 3 months).
