Farmer-led extension is executed by the participants after returning country.

1. To be able to develop a curriculum which will be used in farmer-led extension activities.
2. To be able to explain the relationship between basic and the applied science.
3. To be able to explain the role of agriculture including both crops and livestock in terms of community development.
4. Action plan concerning farmers-led agricultural extension activities which will be implemented after returning is formulated.

The participants in this training program will design a practical curriculum through learning a scientific way of thinking and the idea of rural development with enough attention to local resident’s mind. They are expected to plan and manage farmer-led extension such as "Farmer field school" and "Farmer to farmer extension".
