Outline

Hokkaido succeeded in creating the society and economy being equal to country size though it had been left far behind from other regions 140 years ago. This program inspires the participants to consider the regional development by the introduction of comprehensive development plan, implementation and monitoring methods recognizing importance of the regional development for long term in an integrated way.

Objective/Outcome

Target Organization / Group

【Objective】

Participants' organizations start to consider workable regional development method in an efficient manner toward formulation of comprehensive regional development plan or implementation of some specific projects, based on Action Plans formulated by the participants.

【Target Organization】

Organization working for regional development in developing countries

【Target Group】

Senior administrative officer engaged in regional development

【Outcome】

- 1) Identify current situation and issues in regional development
- 2) Through understanding of Hokkaido comprehensive development plan, consider issues and countermeasures in applying to respective country regarding the subject below. Objective, system, methods of implementation and management of Hokkaido comprehensive development plan/ Role of central and local government/ Relationship and collaboration between local government, private sector and community
- 3) Understand practical process of regional development (participatory planning and implementation process, infrastructure improvement, industrial development, environmental and social considerations) in Hokkaido.
- 4) Consider management method which is applicable to respective country by analyzing regional development and understanding monitoring/evaluation process of policies/project operation.
- 5) Formulate concrete and feasible "Action Plan"
