**Outline**

Participants are supposed to be government officers engaged in national/regional development project/policy. They learn policies, strategies systems, best practices in national & regional development plans and projects, as well as effective management of local & regional development. They make a study report for the improvement of national/regional development systems in relation to their on-going activities.

Objective/Outcome	Target Organization / Group
<p><b>【Objective】</b> To have participating government officers master practical ways of planning and management capacity, so that they can plan national and regional development policies or schemes useful for regional development of their countries in an appropriate manner according to a particular social situation</p> <p><b>【Outcome】</b> (1) To be able to explain basic concepts and theories of Japan's national spatial planning and policies towards applying them to the national and regional development policies of their own country. (2) To be able to explain problems and weakness of the national and regional development policies of their own country by applying Japan's national and regional development policies (3) To be able to make a study report, applying the knowledge obtained through the above two items to the solution of their country's problems</p>	<p><b>【Target Organization】</b> Organizations in charge of planning and implementing national and regional development policies</p> <p><b>【Target Group】</b> More than 2 years experience in the field of planning or implementation of national or regional development projects or polices.</p>
