

**Target Countries :**

**Course No. :** (A) J1704170/(B) J1704297/(C) J1704195/(D) J1704329

**No. :** (A) 1784597/(B) 1784598/(C) 1784599/(D) 1784937

**Sector :** Natural Resources and Energy/Energy Conservation

**Sub-Sector :**

**Language :** (A) English/(B) English/(C) Spanish/(D) Russian

**Outline**

The characteristic of this training course is that training participants will learn energy efficiency policies and technologies in commercial and industrial sectors through attending lectures and participating in site visits to examples by the local government such as Environmental model city and the energy efficiency examples in the commercial, residential and industrial section in order to provide a curriculum to be able to learn systematically.

Objective/Outcome	Target Organization / Group	
<p><b>【Objective】</b> The participants make action plans to promote energy efficiency at their organization to improve their current situation through completing the training.</p> <p><b>【Outcome】</b> 1. Participants understand energy efficiency related policies and activities of their countries and are able to explain the current challenge that they are facing through presenting a job report. 2. Participants are able to compare energy efficiency policy, law and promotion activities of their countries with the ones of Japan and discuss its adaptability. 3. Participants are able to discuss adaptability of energy efficiency measures in Japan to their countries after participating in site visits examining its effect and benefit. 4. Participants make action plans for their organizations inclusive of energy efficiency measures and technologies learned through the training.</p>	<p><b>【Target Organization】</b> Public and private organization and pertinent agency in charge of political measure, promoting and inspection for energy efficiency</p> <p><b>【Target Group】</b> ①English A: Officers of public or private organization, governmental administrators ②English B: Same as above ③Spanish: Same as above but from Spanish speaking countries ④Russian: Same as above but from Russian speaking countries.</p>	
<p><b>Contents</b></p> <p>&lt;Lecture&gt;Lecture includes following topics: History and structure of energy efficiency promotion in Japan, energy efficiency related policy, law and regulation, energy efficiency in commercial and industrial sector, ESCO business, energy diagnosis and management, basic of policy planning &lt;Site Visit&gt;Participant will understand energy-saving concrete measures, effects and profits by field visits for excellent practice examples of the energy efficiency.</p>	<p><b>Course Period</b></p>	<p>(A) 2017/07/02~2017/08/05 (B) 2017/11/05~2017/12/16 (C) 2017/07/12~2017/08/20 (D) 2017/05/31~2017/07/05</p>
	<p><b>Department in Charge</b></p>	<p>Industrial Development and Public Policy Department</p>
	<p><b>JICA Center</b></p>	<p>(A) JICA Kyushu/(B) JICA Kyushu/(C) JICA Chugoku/(D) JICA Tokyo (Industry&amp;Public)</p>
	<p><b>Cooperation Period</b></p>	<p>2017~2019</p>
<p><b>Implementing Partner</b></p>	<p>(A) Kitakyushu International Techno-cooperative Association/(B) Kitakyushu International Techno-cooperative Association, (C) Hiroshima University (D) The Energy Conservation Center, Japan</p>	
<p><b>Remarks and Website</b></p>	<p>This program is to be conducted in JICA Tokyo(Russian), JICA Chugoku(Spanish) and JICA Kyushu(English A&amp;B).</p>
