Outline

While decentralization and local development with community participation have been promoted in developing countries, local governments in those countries are facing difficulties in delivering public services and projects which respond to the needs of the community, due to the lack of financial, organizational and administrative capacity. This course provides opportunities for officers of municipalities as well as of central ministries responsible for regional development to learn experience and approaches regarding local governance and community participation in Japan, and to be able to effectively play a role in regional development in their own country.

Objective/Outcome		Target Organization / Group	
<p>【Objective】 Administrative officials of local and central government deepen their understanding on local development with community participation facilitated by the local government, elaborate action plans and implement these plans within the organization which they belongs to.</p> <p>【Outcome】 1.
