**Outline**

Improvement of a system of intellectual properties promotes foreign direct investment, a technology transfer and industrial diversification, and is indispensable for sound social economy development. Therefore, the purposes of the program are  
 1) to promote understanding of systems of intellectual properties to promote economic development and  
 2) to contribute to improve business environment in respective country  
 through understanding the Japanese systems of intellectual properties to promote economy development and introducing cases of economy development by utilization of intellectual properties.

Objective/Outcome	Target Organization / Group
-------------------	-----------------------------

<p><b>【Objective】</b>                      Participants can understand the situation of Japan and the foreign countries on the systems of intellectual properties and suggest to improve their own countries' intellectual properties system.</p> <p><b>【Outcome】</b>                      1) To understand the problems of participants' countries through making a country report on the systems of intellectual properties.                      2) A plan suitable for an own country can be considered by making reference to the Japanese intellectual property systems (intellectual property right protection, utilization and creation) on promotion of understanding, enlightenment, education and specialist upbringing, etc.                      3) To make suggestion reports for their own organization which are targeting short-term (1 year later, degree) and mid-term(3 or 5 years).</p>	<p><b>【Target Organization】</b>                      1) IP office                      2) Agencies related to IPR                      3) Governmental organization relating to economy</p> <p><b>【Target Group】</b>                      More than 3 years of working experience in this field</p>
