**Outline**

Many developing countries have national development plans of agriculture, livestock industry. However, few countries have systems of human resources development. This program aims at making middle level officials capable to ensure that national development plans contribute development of national livestock industry.

Objective/Outcome	Target Organization / Group	
<p><b>【Objective】</b>                      This program is given to the middle level officials who are directly involved in national plans formulation. After 3-year program, measures to improve the existing national plans will be started. By inviting senior officials, outcomes of this program contribute to promote comprehensive human resources development measures.</p> <p><b>【Outcome】</b>                      1. Preliminary Phase : challenges of existing national livestock development plans are clarified                      2. Core phase in Japan : (1)challenges of livestock development plans are explained and shared by Japanese related institutions (2)essential points so as to formulate, implement/manage national plans are understood. (3)institutional approach necessary to formulate, implement /manage national plans, and facilitations for effective policy extension, gender and development are understood. (4)action plans for livestock promotion, including measures to improve existing plans, are presented.                      3. Final Phase : action plan is reviewed and revised based on the results of discussions and evaluations by the related institutions, and some of the components of action plan are implemented accordingly.</p>	<p><b>【Target Organization】</b>                      Government-related organizations related to livestock promotion</p> <p><b>【Target Group】</b>                      Senior and middle level officials with more than 3 years career of livestock promotion policy., after the program, shall be engaged in livestock promotion policy formulation</p>
