

**Target Countries :**

**Course No. :** J1804027

**No. :** 1884964

**Sector :** Environmental Management/Global Warming

**Sub-Sector :**

**Language :** English

**Outline**

In the Paris Agreement, entered into force November 2016, it requires all parties including developing countries put forward their best efforts to reduce total greenhouse gas emissions targeting in “nationally determined contributions” (NDC) and strengthen these efforts to implement the activities. In order to enhance capacity for development and implementation, and secure transparency for NDC in developing countries, this course aims to learn Japan’s experience in NDC, especially focusing on mitigation.

Objective/Outcome	Target Organization / Group
<p><b>【Objective】</b>                      To establish action plan to improve NDC through capacity building for development and implementation of NDC focusing on mitigation.</p> <p><b>【Outcome】</b></p> <ul style="list-style-type: none"> <li>• To specify issues for development and implement of NDC</li> <li>• To consider applicable Japanese knowledge and technology, understanding actions and organization structure for Japan’s NDC.</li> <li>• To establish action plan to improve NDC in own country.</li> </ul>	<p><b>【Target Organization】</b>                      National organization or institution which is in charge of policy making or mitigation in Climate Change</p> <p><b>【Target Group】</b></p> <ul style="list-style-type: none"> <li>• officer in charge of policy making or mitigation</li> <li>• more than 3 years of experience in the relevant field</li> </ul>

Contents	Course Period	2018/7/29~2018/8/11
