Course No. :201984561-J002

No. :201984561

Sector :Transportation/Urban Transportation

Sub-Sector :

Language :English

Outline

In developing countries, urban railway is introduced to solve issues such as increase of traffic congestion, pollution and energy consumption. For safe and efficient management of the urban railway, there are various issues to be solved. Participants of this program will learn Japanese experiences in this field, and are expected to make an improvement plan for their country's railway management.
