

Target Countries : Member countries of the United Nations Convention to Combat Desertification

Course No. : 201984911-J002

No. : 201984911

Sector : Nature Conservation/Sustainable Forest Management

Sub-Sector : Nature Conservation/Revegetation of Degraded Land

Language : English

Outline

This course targets senior government officers who are responsible for policymaking on combating desertification in Sub-Saharan Africa. The aim of the course is to enhance participants' capacity for formulating policy to combat desertification through acquiring necessary knowledge from lectures and discussions. This course encourages the participants to share their knowledge and experiences with others.

Objective/Outcome	Target Organization / Group	
<p>【Objective】 Understand the international discussions of desertification and measures for combating desertification of Japan and other countries, and develop an action plan to improve their policy and plan on this issue.</p> <p>【Outcome】 1. To understand international discussions of desertification in UNCCD and other international forums 2. To understand supports of Japan for combating desertification 3. To understand effective techniques and approaches to combat desertification, which include revegetation, food security by soil conservation, poverty reduction, and participatory development 4. To develop an action plan to improve their policy and plan on combating desertification 5. To build network among participants</p>	<p>【Target Organization】 Governmental agencies those are responsible for addressing desertification or internally/internationally coordinating this issue</p> <p>【Target Group】 Senior governmental officials (preferably Director level or above) who have more than 10 years' experience in the relevant field and are taking a leadership role in combating desertification and responsible for internal and international coordination in their government.</p>
