Outline

This training aims at capacity building of government officers who are in charge of practicing environmental and social considerations (ESC) in infrastructure development related institutions. It is aiming at obtaining practical skills in smoothly implementing ESC in the real world. The focus is given to anti-pollution measures and natural environment.

Objective/Outcome	Target Organization / Group		
<p>【Objective】 Officials mainly from governmental institutions in charge of infrastructure development will obtain fundamental knowledge and deepen their understanding on ESC, and also enhance their administrative capacity to practice ESC in the real world, particularly in the field of anti-pollution measures and natural environment.</p> <p>【Outcome】 1. Understand the concepts of ESC and JICA Guidelines for Environmental and Social Considerations, and be able to explain. 2. Be able to explain about implementation methods and procedures of ESC in development projects. 3. Be able to propose concrete measures against issues on ESC in home country.</p>	<p>【Target Organization】 Governmental organization in charge of infrastructure development and governmental organization in charge of Environmental Impact Assessment.</p> <p>【Target Group】 1) Officials from organizations in charge of infrastructure development. Staff who deal with environmental impact assessment can join as well. 2) More than 3 years' experience on ESC related fields.</p>
