| Seminar for Local Government Officer on Private Sector Development<br>地方自治体による民間産業の活性化セミナー   |  | GROUP    | 0980029 |
|--|--|---|---------|
| Target Countries: Countries having local government policy for private company promotion   |  | 10 participants /   | English |
| OBJECTIVE  | TARGET ORGANIZATION / GROUP  |   |         |
| This program aims to enhance capabilities of local government officers of participating countries to support the private sector development by providing the participants with proper understanding of such support activities of local authorities in Japan. To achieve this objective, participants are expected; (1) to understand the local governance system and its contribution to the industrial development in Japan, (2) to understand roles played by various stakeholders during processes of industrial cluster formation by collaboration among firms of different sizes, between firms and government organizations as well as universities, (3) to understand local resource based cross-industrial development by visiting cases of coordinated development of tourism and the primary industry, manufacturing or local handicrafts, (4) to study partnership approaches for regional development planning, infrastructure and public facility development and public service delivery, and (5) to formulate an action plan to be implemented by their local governments in the respective countries based on the implications and lessons learned from the course modules. | (1) University graduates or individuals with an equivalent background in a field related to the seminar with more than 3 years experience<br>(2) Local Government Officials engaged in the Management and Planning of local government policies<br>(3) Age: between 25 to 45 years old<br>(4) Having basic computer skills |   |         |
| CONTENTS   | PROGRAM PERIOD   | Nov.9.2009 ~ Dec.11.2009  |         |
| This course is largely composed of two parts, general introduction of the local governance and the industrial development of Japan, and case studies of the private sector development with support of local governments in Kanagawa Prefecture. The general introduction is given as classroom lessons, while each case study is a combination of (1) theoretical lessons by experts, (2) explanation by local government officers of institutional systems for supporting the private sector, (3) on-site explanation of activities by the implementers through field visits, and (4) discussions among the trainees to identify lessons. Every module includes ways for human resource development and financing projects. Every participant will present their country report and the issues to be addressed by the course at the beginning of the course. At the final stage, each of them will work out and make a presentation of an action plan concept.   | IMPLEMENTING PARTNER   | Regional Planning International Co. Ltd.  |         |
|  | JICA CENTER  | JICA Yokohama   |         |
|  | COOPERATION PERIOD   | 2005~2009   |         |
|  | REMARKS  | This program will provide examples of policies implemented by local governments in Kanagawa Prefecture for their private sector development |         |
