Latest Cancer Diagnosis and Treatment 最新のがんの診断と治療		PITD Trainers 1080957 Sector : Health Sub-Sector : Health System
		7 participants / English
OBJECTIVE	TARGET ORGANIZATION / GROUP	
Under Planning 【Objective】 Aims to help the participants to contribute directly to diagnosis and treatment of cancer in their own countries and to transfer gained techniques that has been established in Japan to other medical personnel in order to educate them. 【Outputs】 (1) To acquire the latest skills by observing clinical activities in the individual fields. (2) To learn modern techniques and knowledge of cancer by attending the lectures on overall cancer. (3) To gain skills and knowledge on general cancer by visiting other medical institutions in local areas and observe things that are not conducted in NCC. (4) To absorb additional information on cancer treatment and additional cancer research through collecting information not only of gained in NCC.	Under Planning 【Target Organizations】 Medical Institutions that handle cancer patients. 【Target Group】 See G.I. to get more detailed information.	
CONTENTS	PROGRAM PERIOD	Oct / 19 / 2010 ~ Nov / 27 / 2010
Under Planning 【Preparatory phase(Before coming to Japan)】 Inception Report describing the current problems regarding latest cancer diagnosis and treatment in each country will be developed. 【Program in Japan】 (1) Individual training: Observation of clinical activities in each field under the supervision of each tutors. (2) Group Lectures: Extensive lectures on cancer by NCC. (3) Field Visit: Visit to other medical institutions in local areas and observe things that cannot be experienced in NCC (Radiation Effects Research Foundation, Kyoto Second Red Cross Hospital in 2008) (4) Participation in a conference on oncology: Such as the annual meeting of the Japanese Cancer Association. 【Post-program activities (After participants' return)】 Monitoring the progress by sending a questionnaire in 6 months. OBJECTIVE	TARGET ORGANIZATION / GROUP	
<p>【Objectives】 Training Plan for human resource development of doctors, public health nurses and midwives with the skill of comprehensive preventive approach for both of infectious diseases and lifestyle-related diseases is formulated in participant's organization.</p> <p>【Outputs】 (1) To be able to explain the current situation and policies for remote islands (2) To be able to explain mother-child health administration and activities on remote islands (3) To be able to understand the lifestyle diseases on remote islands and their causes and compare with the cases in participant's country (4) To be able to understand and implement health promotion activities which utilize the characteristics of remote islands (5) To formulate a Training Plan for human resource development</p>	<p>【Target Organizations】 Ministry of Health Hospital, health post, and clinic 【Target Group】 1) be in charge of management of raising nurses, public health nurses, and midwives who are involved in planning and managing of the activity on prevention approach in health care, in terms of maternal and child health, and adulthood lifestyle-related diseases. 2) be a graduate of university or equivalent level. 3) have a competent command of spoken and written English 5) Age: be above 30 and under 45 years of age</p>	
CONTENTS	PROGRAM PERIOD	Oct / 5 / 2010 ~ Nov / 8 / 2010
<p>(1) •System of community medicine in islands (primary care, emergency, telemedicine) •Administrative activity for health care in small islands without doctors, and islands with middle and large population (2) •Activity for maternal and child health in islands of Kagoshima •Mother-and-baby notebook (3) •Obesity and lifestyle-related diseases in islands of Kagoshima •Factors of lifestyle-related diseases in islands of Kagoshima •Method and usefulness of survey to investigate risk factors for prevention (4) •Activity to teach children about a healthy diet •Utilization of thalassotherapy, folk music and dance •Round system of population-based health check •Community-based volunteer activity for dietary habit improvement (5) •Make the report and presentation on Training Plan</p>	IMPLEMENTING PARTNER	Kagoshima University
	JICA CENTER	JICA Kyushu
	COOPERATION PERIOD	2008~2010
	REMARKS and WEBSITE	The ideal candidates for 2010 are those who can follow up and develop Training Plan of 2008, 2009 participants

Human Resource Development for Improvement of Community Health for Reconstruction in the Middle East Countries 中東地域復興における地域保健改善に向けた人材能力開発		PRTD Solution 1084228
		Sector : Health Sub-Sector : Health System
		2 participants / English
OBJECTIVE	TARGET ORGANIZATION / GROUP	
To make improvement plan for community health activity in primary medical institutes or secondary medical institutes. ①To be able to explain advantage and weakness for medical system of community health in participant's country. ②To be able to explain the concept of community health. ③To be able to explain health problem-based approach and health program. ④To be able to explain actual healthcare service in local medical institutes. ⑤To be able to make feasible action plan.	Primary medical institute, secondary medical institute Nurse, Midwife, Health worker	
CONTENTS	PROGRAM PERIOD	Aug / 20 / 2010 ~ Oct / 10 / 2010
1. Structure and elements of health system 2. Japanese helthcare system 3. Community healthcare system 1. epidemiology 2. Primary healthcare, community health 3. formulation of partnership and empowerment of local community 4. nursing diagnosis 1. Infection disease, environment sanitation and water supply, administration of food and nutrition, logistic. 2. Healthcare service in emergency, mental healthcare in emergency, reproductive health in emergency, disaster. 1. Maternal and child health care activity, countermeasure activity to infection disease, and countermeasure activity to disaster by healthcare center. 2. Cooperation from primary to third medical institutes in local community. 1. How to make action plan 2. Action plan presentation	IMPLEMENTING PARTNER	The Japanese Red Cross Kyushu International College of Nursing
	JICA CENTER	JICA Kyushu

Human Resource Management in Health Sector for French Speaking West African Countries 仏語圏西アフリカ保健人材管理		PRTD Int.Dialogue Sector : Health Sub-Sector : Health System	1084296
		16 participants /	French
OBJECTIVE	TARGET ORGANIZATION / GROUP		
<p>【Objective】 Participants will understand the concept of human resource management, related policies of Japan, and related policies of their neighboring countries, French speaking West African countries. They also, based on those understanding, become capable of planning applicable policies to their countries.</p> <p>【Expected Results】 (1)Participants know the actual working places in health sector in Japan, such as in ministry, in hospital, and in public health center. (2)Participants understand the human resource management. (3)Participants understand the related policies in Japan. (4)Participants understand the related policies in neighboring countries. (5)Participants prepare a paper on applicable policies or improvement policies for own countries.</p>	Management-level staff dealing with human resource management in the health sector in French speaking West African countries		
CONTENTS	PROGRAM PERIOD	Nov / 2 / 2010 ~ Nov / 27 / 2010	
<p>This program is designed for manager-level staff in related field to learn various policies in human resource management towards improvement in their countries (1)Participants visit the actual working places in health sector in Japan, such as in ministry, in hospital, and in public health center. (2)Participants learn various aspects of human resource management, such as workforce planning, personnel administration, recruitment, training and development, pay, working environment, and unions. They also learn actual cases in Japanese health sector in order to deepen their understanding of the aspects. (3)Participants learn not just the characteristics of Japanese human resource management, such as seniority system, lifetime employment, and organization based unions, but actual policies applied to health sector in Japan, following the aspects of human resource management. They also conduct interviews to policy makers. (4)Participants join in a discussion. In the discussion, they each other present the policies in own countries and point out advantages and/or points to improve. (5)Participants prepare the paper led by a lecturer.</p>	IMPLEMENTING PARTNER	National Center for Global Health and Medicine

Laboratory Diagnosis Techniques for the Control of Vaccine Preventable Diseases, including Poliomyelitis and Measles ポリオを含むワクチン予防可能疾患の世界的制御のための実験室診断技術		PITD Trainers	1080739
		Sector : Health Sub-Sector : Immunization	
		15 participants /	English
OBJECTIVE	TARGET ORGANIZATION / GROUP		
<p>To improve the quality of laboratory diagnosis activities and to strengthen global and local laboratory networks throug face to face comunication by sharing updated knowledge and basic techniques for virus diagnosis related to vaccine preventable diseases,including polio and measles, through a practice-based training course.</p> <p>(1) To enable participants to maintain cell lines for virus isolation. (2) To enable participants to isolate and identify viruses. (3) To enable participants to understand biosafety regulations and to improve data management at laboratory. (4) To enable participants to perform molecular diagnosis for virus infection, to improve serological diagnosis technique. (5) To enable participants to understand the information on current status of globa polio eradication program and GIVS,and to share technical points for troubleshooting with other laboratorystaffs andEPI experts in the country.</p>	<p>(1) Current Duties: Doctors and laboratory technicians engaged in national laboratory under the WHO. (2) Experience in the relevant field: have a minimum of 1 years of experience in virological diagnosis.</p>		
CONTENTS	PROGRAM PERIOD	Jan / 12 / 2011 ~ Feb / 6 / 2011	
<p>【Preliminary Phase】Formulate coutry report 【Core Phase in Japan】 (1)According to WHO standard manual for laboratory diagnosis, practices and lectures for the maintenance and quality control of cell lines will be scheduled. (2)According to WHO standard manual for laboratory diagnosis, practices and lectures for virus isolation and identification, using polioviruses will be scheduled. (3)Lectures and practices for biosafety regulations and the maintenance of laboratory facilities will be scheduled, lectures and group discussion will be scheduled for data and laboratory management. (4)Lectures or practices for molecular diagnosis of polio, measles, hepatitis, Japanese encephlitis, and papilloma, and serological diagnosis methods for measles will be scheduled. (5)Group discussions on presentations from each participant to share lalcal situations and their own experiences with other participants and experts. 【Finalization Phase】Formulate progress report</p>	IMPLEMENTING PARTNER	National Institute of Infectious Diseases

Clinical Medicine and Research for Tropical Doctors 熱帯地の医師のための臨床医学と研究		PITD Leaders	1080813
		Sector : Health	
		Sub-Sector : Other infectious diseases	
		7 participants /	English
OBJECTIVE	TARGET ORGANIZATION / GROUP		
【Objectives】 This course will provide the participants with opportunities to learn a broad range of skills and knowledge relevant to practicing medicine, formulating disease control programs and conducting medical research in tropical and developing countries. It also aims to provide participants with an ability to solve practical problems they are likely to encounter in the tropics by applying the principles of epidemiology and the methods of state-of-the-art molecular medicine. 【Outputs】 (1) To acquire essential and advanced knowledge of clinical tropical medicine (2) To get the idea of method for ensuring program effectiveness by seeing real cases in a developing country (3) To obtain a master's degree in tropical medicine.	【Target Organizations】 Governmental organization, research institute, or NGO, which treat with tropical disease control 【Target Group】 1) Current Duties: be a medical doctor with at least 2 years of clinical experience 2) Educational Background: be a graduate of university with a degree in medicine (MD, MBBS, MBChB, or equivalent) 3) Age: be between the ages of twenty-four (24) and forty (40) years 4) Language: have sufficient command of spoken and written English		
CONTENTS	PROGRAM PERIOD	Mar / 28 / 2011 ~ Mar / 27 / 2012	
(1) Lectures and Practicals (from April to July) Lectures and practicals aim to teach essential and advanced knowledge of clinical infectious diseases with reference to microbiology, virology, parasitology and entomology. It will also build up diagnostic laboratory skills and epidemiological skills including study design, data management and medical statistics. The course will hold a series of case discussions on clinical cases and disease outbreaks with particular focus on diagnosis, treatment, prevention and control. (2) Overseas Training (August) All participants will travel to Thailand and stay for two weeks where they will visit local hospitals, other health facilities, internationally recognized research groups, and non-governmental organizations. The activities will be hosted and supervised by a Division in the Ministry of Public Health of Thailand. (3) Research Project (from September to March) All participants will be assigned to conduct a research project under the supervision of professors and will submit a Master thesis.	IMPLEMENTING PARTNER	The Institute of Tropical Medicine, Nagasaki University	
	JICA CENTER	JICA Kyushu	
	COOPERATION PERIOD	2008~2010	
	REMARKS and WEBSITE	By successfully completing this program, participants will be awarded the degree of Master of Tropical Medicine by Nagasaki University.	

Laboratory Management for Diagnosis and Monitoring of HIV Infection 診断とモニタリングのためのHIV 感染検査マネジメント		PITD Trainers	1080787
		Sector : Health	
		Sub-Sector : Other infectious diseases	
		12 participants /	English
OBJECTIVE	TARGET ORGANIZATION / GROUP		
【Objectives】 Knowledge and skill which is essential for Laboratory Management for Diagnosis and Monitoring of HIV Infection will be disseminated in participants' organization. 【Outputs】 (1) To learn the basic knowledge concerning HIV/AIDS. (2) To understand the principles of serodiagnosis and quality control techniques. (3) To acquire the theoretical background knowledge of PCR technology and its practice. (4) To learn technique of HIV Infection monitoring. (5) To formulate an action plan to disseminate the acquired knowledge and technique in their organizations.	【Target Organizations】 National reference lab and its equivalent. 【Target Group】 See G.I. to get more detailed information.		
CONTENTS	PROGRAM PERIOD	Jun / 8 / 2010 ~ Jul / 17 / 2010	
(1) Lectures: Biosafety management, Retrovirology, Epidemiology of HIV/AIDS, etc. Practice: Laboratory set-up. (2) Lecture: Laboratory diagnosis of HIV infection. Practice: Serodiansis of HIV infection, Workshop. (3) Lecture: Basics of PCR (1) (2) (before and after practice). Practice: DNA PCR, RT PCR, Workshop. (4) Practice: Amplicor, QT-PCR, CD4 count (FACS & Dynabeads), Workshop. (5) Country report presentation, Interim report (Action plan) presentation and discussion, Final report submission to show that the action plan is actually performed in the participants' organization.
