

Target Countries : Member of Southern African Development Community (SADC)

Course No. : 201984611-J002

No. : 201984611

Sector : Economic Policy/Financial System

Sub-Sector : Economic Policy/Other Economic Policy Issues

Language : English

Outline

Under conditions for continued economic growth in Southern African Development Community (SADC) countries, governments of these countries set up their own strategies for additional economic and industrial development.

To obtain the expected results of these strategies, governmental financial support for required entities has become more integrant. To this end, development financial institutions (DFIs) in each country have to play a crucial role of the governmental financial support. However, DFIs in these countries are currently facing severe shortages of experience and knowledge.

Through JICA's group training program titled "Strengthening of Project Value Chain for Development Financial Institutions (DFIs) in SADC Countries" held in Japan, appropriate knowledge for DFIs would be shared to SADC member countries based on experiences in Japan and Asian countries.

Objective/Outcome	Target Organization / Group	
<p>【Objective】 Through this program, knowledge of 1) appropriate governance (especially of relationships with government), 2) effectual resource mobilization and management of long-term capital, and 3) applicable and effective concept, individual contents and mutual relationships of project value chain based on accumulated experience in the process of economic and industrial development in Japan and Asian countries.</p> <p>【Outcome】 Through this program, the participants are expected to: 1. be able to explain the challenges of participant's home country by comparing the situation of DFIs with those of other participants. 2. be able to explain the appropriate governance as DFIs (especially of relationships with government) 3. be able to explain the effectual resource mobilization and management of long-term capital 4. be able to explain the applicable and effective concept, individual contents and mutual relationships of project value chain 5.
