Objective/Outcome

**Objective**
Action plan to improve fire management and disaster risk reduction in participant’s organization is implemented utilizing fire fighting techniques, fire management and disaster risk reduction.

**Outcome**
1. To understand basic knowledge of fire prevention and disaster risk reduction in Japan.
2. To be able to command a unit depending on the situation of each country utilizing above-mentioned techniques and knowledge.
3. To be able to practice fire fighting techniques, equipment and emergency rescue techniques in various fire sites.
4. To be able to formulate an action plan for improvement of fire management and disaster risk reduction.

Target Organization / Group

**Target Organization**
Fire Service Organization (Central Government, Local Government or Private Sector)

**Target Group**
1. Be or will be a commander of firefighting or an instructor of fire education institutions
2. Be engaged in fire service more than 5 years
3. University graduates or have equivalent occupational experiences
4. Under 45 years, proficient in English

Outline

As effort for “Understanding disaster risk” and “Enhancing disaster preparedness for effective emergency response” in “Sendai Framework for Disaster Risk Reduction 2015-2030,” participants are able to enhance practical knowledge and techniques of fire fighting and rescue techniques in various fire site, and awareness activities of disaster risk reduction towards community.
