11. Energy Sector
12. Business Environment Improvement
13. Activities in Gujarat
14. Key message – towards “Sustainable Development”

# 1. India - Japan Relations

## ● Traditionally amicable & strong - Interdependency -

- Introduction of Buddhism to Japan from India.

In 752, an Indian monk Bodhisena (बोधिसेन) performed eye-opening of the Great Buddha built in Tōdai-ji Temple, Nara Prefecture, Japan.

- In Meiji Era, India's cotton stimulated the textile industry development in Japan. (Up to 10% of import amount from India at the end of Meiji Era.)
- In 1948, at the International Military Tribunal for the Far East in Tokyo after WWII, Indian Justice Radhabinod Pal became famous for his fair judgement.
- In 1951, then Prime Minister Jawaharlal Nehru refused to attend the San Francisco Peace Conference from a broader perspective, and at the time of establishing official diplomatic relations in 1952, India **waived all reparation claims** against Japan tolerantly.
- Indian iron ore supported the steel industry development in Japan (Up to 30% of import amount from India in 1960.)
- In 2011, 46-member team of **NDRF (the Indian National Disaster Response Force)** operated search and rescue operations in Onagawa Town, Miyagi Prefecture, just after **the Great East Japan Earthquake**.

# India - Japan Political Relations

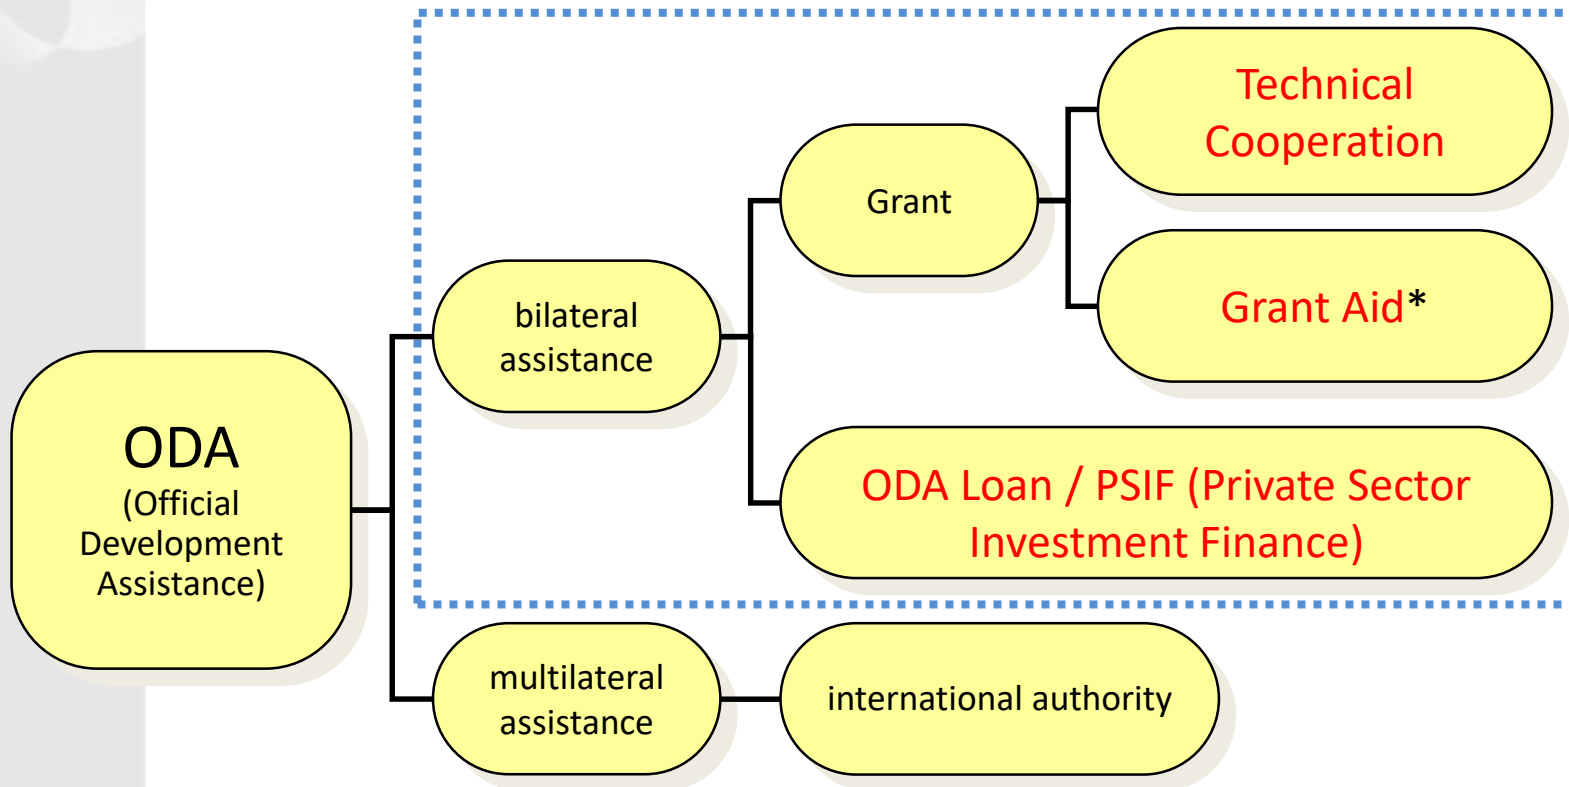

- Both established **Special** Partnership.
- For India, Japan is the **largest** donor of ODA.
- For Japan, India is the **largest** and **oldest** recipient of ODA.

- 1952.4 Established official diplomatic relations
- 1958 Japan's first ODA Loan in the world extended to India.
- 2000.8 **"Japan-India Global Partnership in the 21st Century"**
- 2005.4 Japanese PM Koizumi visited India. Annual based PMs mutual visits started.
- 2006.12 **"Joint Statement Towards Japan-India Strategic and Global Partnership"**
- 2014.9 Indian PM Modi visited Japan. **"Tokyo Declaration for Japan-India Special Strategic and Global Partnership"**
  - a) *Doubling Japan's foreign direct investment in India within five years.*
  - b) *Doubling the number of Japanese companies in India within five years.*
  - c) *JPY 3.5 trillion (Rs. 2 trillion) of public and private investment and financing to India from Japan, including ODA, within five years.*
- 2015.12 Japanese PM Abe visited India (Delhi and Varanasi).
- 2016.11 Indian PM Modi visited Japan (Tokyo and Hyogo).
- 2017.9 Japanese PM Abe visited India (Commencement ceremony of HSR in Ahmedabad)

## 2. Activities of JICA

# What is “JICA”?

- ✓ **JICA** is a governmental agency of Japan that coordinates official development assistance (ODA)
- ✓ **JICA** is the world’s largest bilateral development agency
- ✓ **India** is the largest and the oldest partner of JICA

\* Part of grant aid is provided by the Ministry of Foreign Affairs.

# India is JICA's Largest Partner in the World

## Soft Loan

### Accumulated Commitment by FY2017/18:

- JPY 5.3 trillion in total  
(equivalent to over Rs. 3 lakh crore)

### Operational Results in FY2017/18:

- Commitment: JPY 398.4 billion  
(equivalent to about Rs. 24,000 crore)
- Disbursement: JPY 264.3 billion  
(equivalent to over Rs. 16,000 crore)

### Terms and conditions: (as of Jan. 2018)

- General terms: Interest rate 1.5%, repayment period 30 years (including 10 years grace period)
- STEP: Interest rate 0.1%, repayment period 40 years (including 12 years grace period)

### Major Sector (FY2008/09-2017/18)

## Grant Aid

Two on-going projects  
in  
Varanasi & Bengaluru

## Technical Cooperation

- Results in FY 2016/17  
JPY 16.0 billion (about Rs. 850 crore)
- About 1100 Japanese experts to India
- About 250 Trainee from India to Japan

## Citizen Partnership / Public-Private Partnership

- Japanese Volunteers
- Japanese NGO activities
- Partnerships with  
Private-Sector Activities

# 3. Women Empowerment

# Women Empowerment

Addressing women empowerment through gender mainstreaming approach in various projects for Inclusive Development

Sector	Projects (Examples)	Outcomes
Forestry	<ul style="list-style-type: none"> <li>Biodiversity Conservation and Greening Project in Tamil Nadu (Loan)</li> <li>Gujarat Forestry Development Project (Loan)</li> <li>Swan River Integrated Watershed Management Project in Himachal Pradesh (Loan)</li> </ul>	Enhancing Self Help Group activities; micro-credit, vocational training.
Health	<ul style="list-style-type: none"> <li>The Project for Improvement of the Institute of Child Health and Hospital for Children, Chennai (Grant)</li> <li>Tamil Nadu Urban Health Care Project (Loan)</li> </ul>	Improving maternal health.
Water and Sanitation	<ul style="list-style-type: none"> <li>Sanitation Facilities (Public Toilet) Study in India</li> </ul>	More than 1,500 public toilets were built to reduce the open defecation.
Transport (Metro)	<ul style="list-style-type: none"> <li>Delhi Mass Rapid Transport System Project (Loan)</li> </ul>	Coach for women only was introduced.

# Women Empowerment

## **Grassroots activity**

(Through the volunteer approach, support primary health care and youth activities)

## **Twinning NGO partnership**

(Empowering girls and women through NGO supported activities)

## **Technical training in Japan**

(Improvement of reproductive and maternal health by enhancing capacity of medical professionals )

## **BOP Business program**

(Strengthening nutrition through supplementary food for children and women, Sanitary products for women in rural area)

# Women Empowerment – Way forward

Tokyo Declaration for Japan-India Special Strategic and Global Partnership  
(Sep 2014)

Recognized necessity of women empowerment by both Prime Ministers

Gender Profile Survey (Mar 2015)

Data Collection Survey on Women Empowerment (Jul 2016)

Data Collection Survey on Gender Mainstreaming in Irrigation (Feb 2016)

Support on Gender Mainstreaming in Forestry Management (Mar 2016)

Support on Gender Mainstreaming in Rajasthan Water Sector Livelihood  
Improvement Project (Apr 2018 - Mar 2019)

**Gender Mainstreaming across the sectors in India**

## 4. Water Sector

## Issues

### ① Demand / supply gap

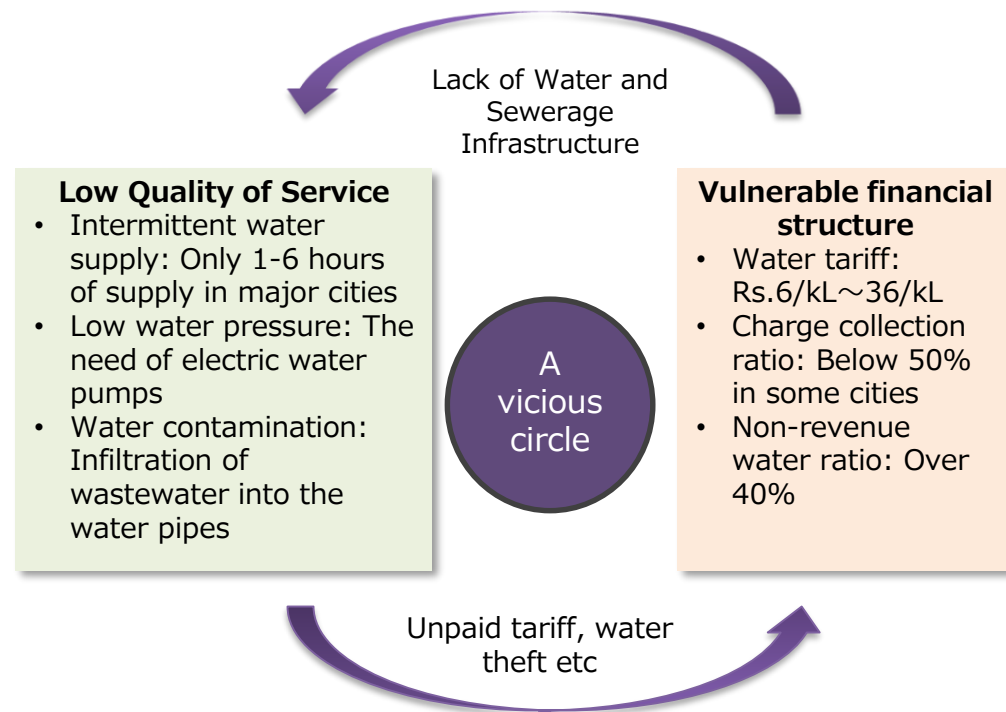

- Only a few hours of water supply can be provided per day, even in urban areas
- Further increase in demand is inevitable due to the growth of population and economic development

### ② Financial vulnerability in water-supply corporations

NRW\* ratio is 52% in Delhi and 51% in Bengaluru, compared to 3% in Tokyo \*the difference between the water distribution volume and the billed volume

### ③ Environmental, sanitary and health issues

- Decrease of groundwater levels and contamination of water by toxins such as arsenic and fluorine
- Contamination of rivers due to lack of sewerage system, leading to health hazards such as diarrhea and hepatitis

**A countermeasure for non-revenue water: water leakage detection**

## Our Works

### **Non-revenue water (NRW) reduction**

To reduce non-revenue water, renewal of water pipes and meters and installment of SCADA / GIS system are implemented. Capacity development is also addressed.

### **Projects throughout the country**

In major cities, such as Agra, Varanasi, Bengaluru, Hyderabad, Jaipur and Delhi

Total number of beneficiaries :

Water Supply: approx. 30 million people

Sanitation : approx. 15 million people

### **Rejuvenation of rivers**

Assistance for rejuvenation of the Ganga River and Yamna river over the last 20 years toward hygienic environment.

#### **Goa's case of NRW Reduction**

	Before (%)	After (%)
Curtorim	45.1	18.0
Khadpaband	58.7	34.4
Moirá	53.0	36.1

## Assistance Policies

### **① Improving water and sewerage infrastructure in major cities and industrial areas**

### **② Utilizing Japanese knowledge, experience, and advanced technology**

- Introduction of SCADA · GIS system
- Advanced wastewater treatment
- Cooperation with municipalities of Japan, with Tokyo City in Delhi and with Yokohama City in Jaipur

### **③ Enhancing Sustainability**

- Enhancing O/M capacity
- Securing financial stability by ensuring the collection of water tariff
- Enhancing of public awareness for safety water and sanitation

## Consideration of further assistance based on data collection survey on toilet facilities in India

### Outline of the Survey

**Survey period** : Sep. 2014 – Mar. 2015

**Survey target** : All of India

**Objective** : Updating information about gender and sanitation in India needed for deriving suggestions for further efforts.

### Current Situation of Toilets in India

#### **1) India as the biggest open defecation country in the world**

- India accounts for 60% of the world population practicing open defecation .  
Open defecation population worldwide: 90crore, India: 52crore

#### **2) Infectious diseases due to open defecation, especially in children**

- Diarrheal diseases and its complications account for 9% of cause of death of children under five, most caused by oral infection of bacteria in excretion.
- India has the largest number of under-five deaths (1.2 lakh) due to diarrhea in the world.

#### **3) Serious security and health issues for women, due to lack of toilets**

- Due to open defecation in hidden places or night times, many women face serious security issues such as sexual offence.
- Lack of clean and safe toilets lead to refraining from defecation for a long period of time, resulting in health problems of the digestive system.

#### **4) Indian Government's intensify efforts for improvement of sanitation**

- Government of India aim to achieve an Open-Defecation Free (ODF) India by 2019.

A community toilet installed under JICA ODA loan project

## Rural water supply and fluorosis mitigation project in rural areas

### Major issues in rural area

- Shortage of safe drinking water
- Widespread fluorosis

Dependence on fluorine  
contaminated groundwater

Change!!!

Safe surface water should be  
supplied

### Hogenakkal Water Supply and Fluorosis Mitigation Project 2008 – 2017

- Supply of safe drinking water from Cauvery river to Dharmapuri and Krishnagiri Districts, Tamil Nadu

(before) 

- 20% of population were having fluorosis
- Huge loss of time and energy for women to secure water

Girls smiling with white teeth  
After getting them treated

No more need to walk a long distance to  
get water

Treatment of dental  
fluorosis under the project

# Water Sector Comprehensive assistance in major cities by utilizing Japanese knowledge

## Improving water and sewerage infrastructure mainly in metropolitan areas and industrial areas

Strengthening O&M capacity for Delhi Water Supply Improvement Project (Completed)

Delhi Water Supply Improvement Project

Ganga Action Plan Project (Varanasi)

The Study for Formulation and Revision of Manuals on Sewerage and Sewage Treatment (Completed)

Amritsar Sewerage Project

Yamuna Action Plan Project

Agra Water Supply Project

Guwahati Water Supply Project

Guwahati Sewerage Project

West Bengal Piped Water Supply Project (Purulia)

Non-revenue Water Reduction for Jaipur Water Supply Project (Completed)

Rajasthan Rural Water Supply and Fluorosis Mitigation Project (Nagaur)

Orissa Integrated Sanitation Improvement Project

Hussain Sagar Lake and Catchment Area Improvement Project (Completed)

Goa Water Supply and Sewerage Project

Capacity Development Project for Non-Revenue water (NRW) Reduction in Goa (Completed)

Hogenakkal Water Supply and Fluorosis Mitigation Project (Completed)

Project for Pollution Abatement of River Mula-Mutha in Pune

Kerala Water Supply Project (completed)

Bangalore Water Supply and Sewerage Project

Tamil Nadu Urban Infrastructure Project (Completed)

Double line : Technical Assistance  
Single line : Yen Loan

## 5. Forestry Sector

### Issues

#### 1. Forestry Management

- Forestry coverage in India is 21.5% (2017), which is lower than the national target (33%) and world average (31%).
- The population depending on forest is approx. 200 million, and most of them are below poverty line. (2011)  
→ Supported by JICA assisted project's IG Activities

#### 2. Biodiversity

- There are four biodiversity hotspots in India among world's 35 hotspots (East Himalaya, West Ghats, India-Burma, Nicobar). The number of endangered species is increasing due to environmental pressure and human's intervention.
- There are many protection areas in India (102 National Parks, 515 Wildlife Sanctuaries) and these areas need to be conserved with associated ecosystem services.
- Capacity development of Forest Department needs to be strengthened essentially in order to preserve sustainable biodiversity and harmonious environment.

#### 3. Disaster Management

- Flooding and landslide disaster in mountainous region occur frequently and need to be mitigated by improving the quality of forest.

### Progress

JICA is the largest donor in the forestry sector in India.

#### ■ ODA Loan

- Cumulative commitment since 1990 stands at JPY 257.6 billion (approx. Rs. 15,500 crore or about USD 2.4 billion) in the forestry sector. (as of Mar. 2018)
- Supporting the policy of the Government of India on Joint Forest Management: participatory forest management targets sustainability and the following four major points are the core areas of JICA's cooperation according to different features of each state:
  - ① Sustainable Forest Management
  - ② Livelihood Security
  - ③ Institutional Strengthening and Capacity Building
  - ④ Technology -based Management and Monitoring
- Disaster prevention and preparedness components are included in Uttarakhand Forestry Resources Management Project in addition to forestry related components (L/A: April 2014)

#### ■ Technical Cooperation

- Capacity Development for Forest Management and Personnel Training Project (2009.3-2014.3)
- Project for Natural Disaster Management in Forest Areas in Uttarakhand (2017.3-2022.3)

Water Conservation Structure

Micro planning

Income Generation(IG) activity

Nursery for plantation

## Major Impacts

JICA is the largest donor in the forestry sector in India.

### 1. Environment, climate change, biodiversity

- Afforestation and reforestation in nearly 3 million ha, improved forestry function, diversified biodiversity activities and accelerated research activities
- Integrated Eco/Environment awareness activities through Children's Forest Program

### 2. Poverty alleviation

- Community development and IG activities uplifted people's socio-economic life

### 3. Women empowerment

- Self Help Group (SHG) activities were implemented in all projects and IG activities and micro credit/finance are incorporated

### 4. Disaster prevention/water resource conservation

- Ground water level and agriculture production were improved.

### 5. Utilizing Japanese knowledge

- Implemented technical cooperation on capacity development
- Promoted collaboration with local governments (Akita, Oita and Okinawa )

# Example of Visible Impacts in Afforestation :

## Tamil Nadu Afforestation Project

## Uttar Pradesh Participatory Forest Management and Poverty Alleviation Project

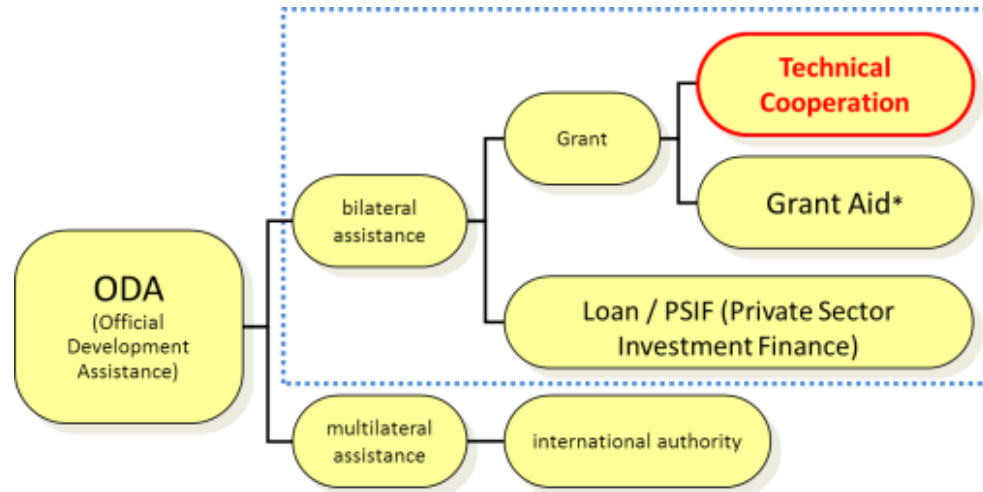

Satellite picture (Majholi)      Actual picture(Majholi)

2012      2016      2012      2016

## 6. Human Resource Development

Technical cooperation for **“capacity development”** includes the training of Indian officials and the dispatch of JICA experts.

Total Number of (until FY 2016)	Number
Trainee from India	7,587 persons
Japanese Experts / Survey team	8,218 persons
Japan Oversea Cooperation Volunteer	203 persons

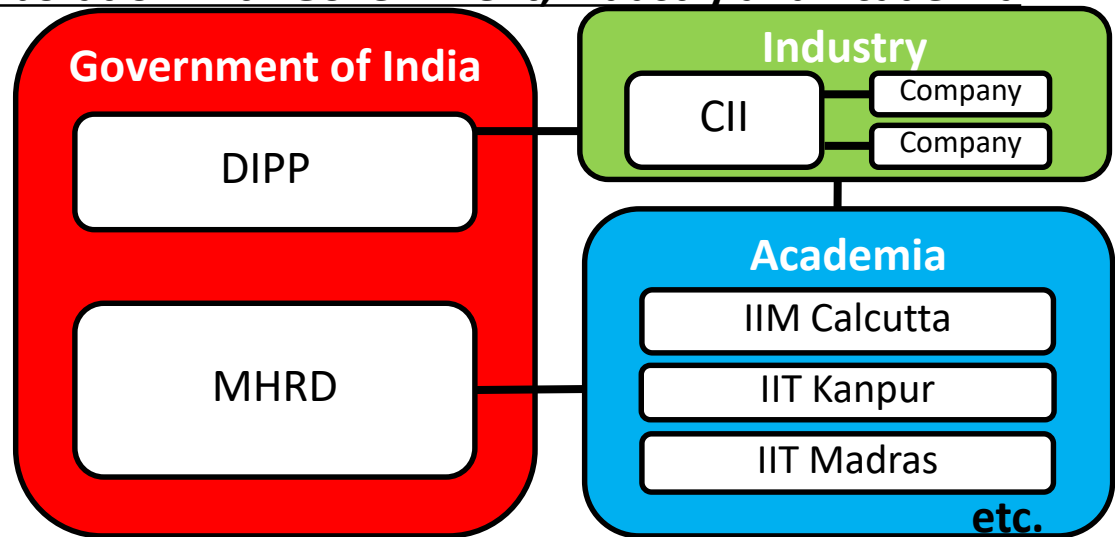

# Champions for Societal Manufacturing (CSM) Project

[Technical cooperation/Ongoing]

1. National Integrated Human Resource Development Program in Manufacturing by **Fostering Visionary Leaders** through five(5) courses

2. Implementation in collaboration with Government, Industry and Academia

Prof. Shiba, the JICA expert, was conferred decorations both in India and Japan.  
Over 5000 CEOs and senior/middle-level managers have participated the programme.

## Under CSM

“Godrej Edge Digi, Direct Cool Refrigerator Range”  
won India Design Mark(2014) and  
Japan Good Design Award(2015)

 | APPLIANCES

**INDIA  
DESIGN  
MARK**

**GOOD DESIGN  
AWARD 2015**

- localized to the Indian market (Larger Vegetable Space, Larger Shelf Space, Larger Freezer Space, Larger Space for big water bottles)
- the graphic on its exterior shows a strong awareness for the Indian cultural sphere.
- the lowest energy consumption in India
- 24 hour cooling retention despite power cut with StayCool Technology
- the anti-bacterial property of Silver ions

**The members of its design and production team  
are the training module director and  
demonstrators of JICA CSM Training course.**

# 7. Quality Infrastructure

# Quality Infrastructure

## Quality of Works (Image Photos)

JICA's case

Non-JICA's case

# Quality Infrastructure

- ✓ (increasing aging infra.) x (risk of degradation) = 
- ✓ US experienced “aged era” for bridges from 1980s, Japan entered from 2010s. (c.f. America in Ruins)
- ✓ **Massive future set-back cost may be derived.**  
 ⇒ **High quality infrastructure as a risk mitigation solution**

The transition of bridge construction in US and Japan

The cost for bridge maintenance in US

# Quality Infrastructure

---

## Salient Features

to be expected under “Quality Infrastructure (QI)”;

- *Stable / Reliable*
- *Sustainable*
- *Long-term / Resilient*
- *With a lot of Beneficiaries / Inclusive*

c.f. Guidebook on Quality Infrastructure Development and Investment  
(APEC 2014)

# Quality Infrastructure

---

## Key Elements

for appropriate project selection/prioritization, procurement and implementation management:

- **Life Cycle Cost**
  - VfM, Durability, Maintainability
- **Envir. and Social Considerations**
  - PAP, Gender, Vulnerable Persons, Universal Service
- **Safety Assurance**
  - Both in Construction and Operation Stages

c.f. APEC Guidebook (2014)

## 8. Metro Projects

# Cooperation on Metro Projects

**JICA is supporting metro projects in 6 major cities in India**

## Ahmedabad Metro

- Total Length: 38 km
- Project Cost: JPY 246 Billion (about Rs. 12,000 crore)
- Completion Year: 2020

## Delhi Metro

- Total Length: 349km
- Project Cost: JPY 1,274 Billion (about Rs. 60,000 crore)
- Completion Year: 2018

## Mumbai Metro

- Total Length: 33 km
- Project Cost: JPY 621 Billion (about Rs. 23,000 crore)
- Completion Year: 2021

## Kolkata Metro

- Total Length: 14 km
- Project Cost: JPY 140 Billion (about Rs. 7,000 crore)
- Completion Year: 2021

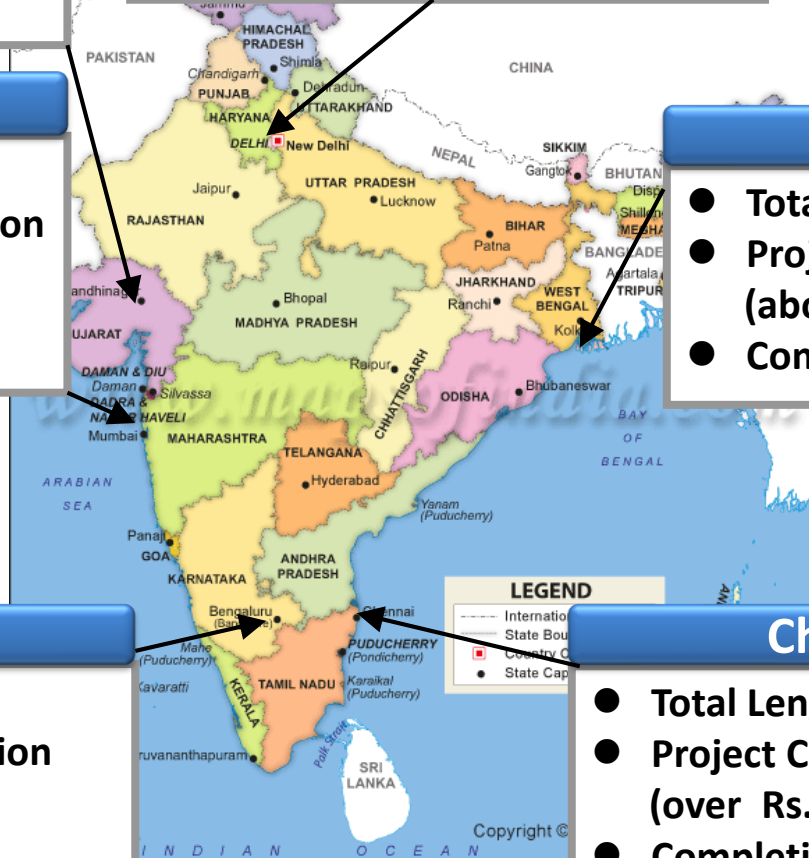

## Bangalore Metro

- Total Length: 42 km
- Project Cost: JPY 307 Billion (about Rs. 15,000 crore)
- Completion Year: 2017

## Chennai Metro

- Total Length: 43 km
- Project Cost: JPY 378 Billion (over Rs. 19,000 crore)
- Completion Year: 2020

- Safe operation
- Timely & Stable (with reliability, efficiency and comfort)
- Considerations for environmental harmonization, operation and maintenance, managerial/financial sustainability
- Coordination with various stakeholders for better operation /service

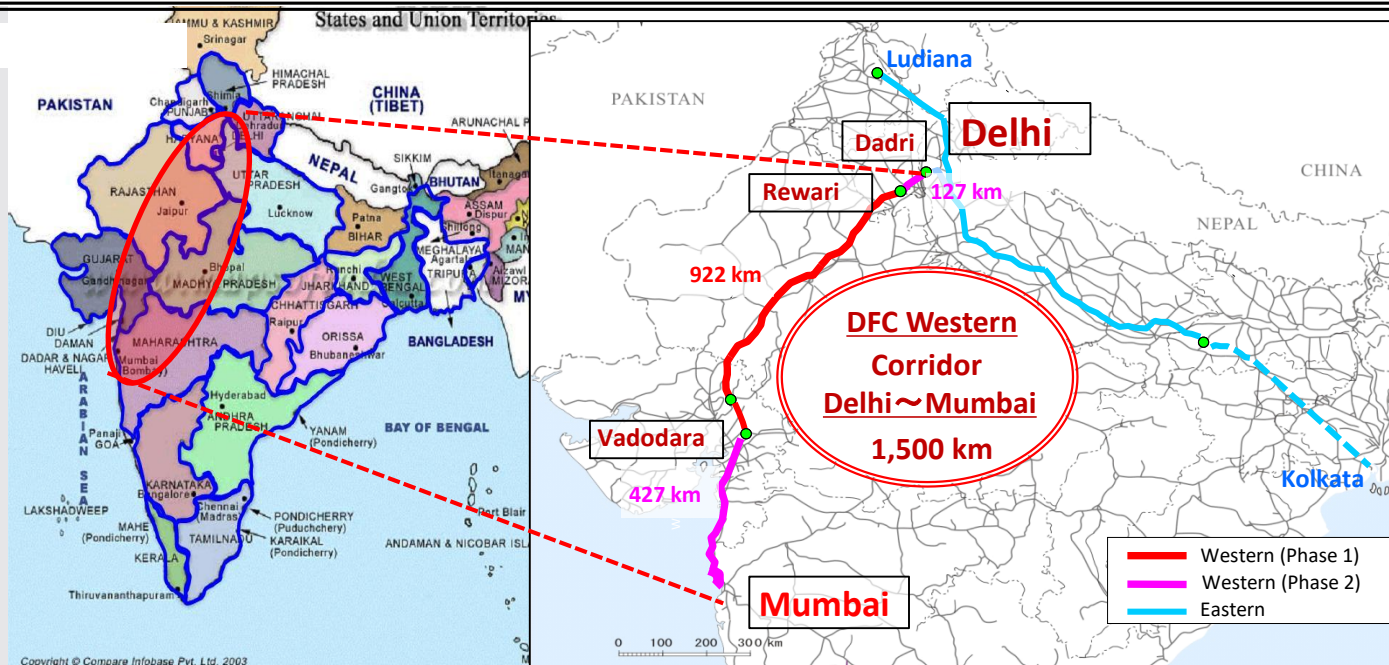

## ***“Quality Infrastructure”***

- ❑ Not for the tangible asset development, but for ***“Safe, Timely & Stable” Operation.***
- ❑ Value for money with reliable technology for minimum Life Cycle Cost (**LCC**) and maximum Economic & Social impact (**Social Innovation**)

***toward Inclusive,  
Sustainable and  
Resilient growth!***

## 9. Western Dedicated Freight Corridor (WDFC)

- The **backbone of DMIC** (Delhi-Mumbai Industrial Corridor)
- WDFC (**Delhi-Mumbai: 1,500 km**) will focus on:
  - (1) construction of **new dedicated freight lines**
  - (2) installation of **automated signal & telecommunication**
  - (3) introduction of **electric locomotives** with high-speed & high-capacity transportation
- Construction is underway (Almost all tendering are completed)

# Western Dedicated Freight Corridor (DFC) Project

<Completion image>

	DFC		NOW
Maximum speed	100 km / h	←	30 - 40 km / h (approximately)
Transport time (Delhi – Mumbai)	20 hours (approximately)	←	48 - 72 hours

# 10. Mumbai-Ahmadabad High Speed Rail (MAHSR)

- **Joint Feasibility Study (F/S)** conducted by JICA and Ministry of Railway from Dec. 2013 to July. 2015.
- Both sides confirmed the use of **Japanese high speed rail technologies (i.e. the SHINKANSEN system)** and experiences, in line with the result of the joint F/S at the Japan-India Summit Meeting (December 2015).
- **Follow-Up Study** conducted by JICA from Mar. 2016 to Feb.2018
- In the latest Japan-India Summit Meeting (September 2017), the two Prime Minister welcomed:
  - (1) Steady progress, including the **project commencement at the Sabarmati Station**, witnessing the **construction commencement of training institute in Vadodara**
  - (2) Provision for a soft **ODA loan amounting to JPY 100 billion**
  - (3) Business matching efforts to establish Japan-India cooperation for advancing “**Make in India**” and **technology transfer** HSR projects
- JICA has been providing with utmost **technical support** (for CD);
  - ✓ Formulation of **technical standards**,
  - ✓ **Safety certification** measures,
  - ✓ Strengthening the **institutional capacity of NHSRCL**
  - ✓ Urban development planning of stations and surrounding areas for **enhancement of the connectivity** and **non-fare revenue**, etc.

## ■ The impact of HSR on development of India!!

### *Safe, comfortable and punctual HSR*

- Boost economic development
- Stimulate regional development
  - ✓ mitigate excessive concentration on large cities
  - ✓ lead to balanced economy
- Promote “social innovation” by introducing Japan’s;
  - ✓ Technology
  - ✓ Discipline
  - ✓ Perfection
  - ✓ Teamwork Concept!

# 11. Energy Sector

## Operation result

- **9.3GW** of generation capacity  
(3% of Indian total Capacity)
- **1.0GW** of Renewable Energy
- **85 Projects**
- **JPY 1.3 Trillion (≐ Rs. 80,000 crore, US\$ 1.2 bil.)**  
(roughly **25%** of JICA's total cooperation in India)

### - ODA Loan

New Power Plant, Transmission & Distribution Lines,  
Energy Efficiency & Conservation, New and Renewable  
Energy, Grid Stabilization

### - Technical Cooperation

Technical Assistance for Energy Efficiency &  
Conservation, New and Renewable Energy  
Study for Updating Exhausted Coal Thermal Power Plant

### Good Practice SIMHADRI THERMAL POWER STATION PROJECT

- 97% of Capacity Factor
- 11.9% of total power supply  
in Andhra Pradesh in 2009
- 2005 "International Project  
Management Award"

### Good Practice HARYANA TRANSMISSION SYSTEM PROJECT

- Transmission loss : 2.2% (lowest in India) <<< original 2.7%

## Global Trend

- Discussion in International Arena (UNFCCC COP21, WEO etc)
  - Improving Energy Efficiency (Including to shut down low efficient TPPs)
  - Further utilization of Renewable Energy (RE)

## India's Trend

- Electricity demand with rapid economic growth
  - No subcritical TPPs from 2017
  - 175 GW of RE by 2022
  - Pumped Storage for grid stabilization

## JICA's Thought

- **T&D Loss Reduction** (Low Loss)
- **Renewable Energy** (Through IREDA)
- **Grid Stabilization Technologies** (Pumped Storage, Integrated System)
- **High Efficient TPPs with Environmental Facilities** (USC)

## - Recent ODA Loan Projects -

- Haryana Transmission System Project (FY2007)
- Haryana Distribution Upgradation Project (FY2013)

- Madhya Pradesh Transmission System Modernisation Project (FY2011)
- Madhya Pradesh Transmission System Strengthening Project (FY2015)

- Maharashtra Transmission System Project (FY2007)

- Bangalore Distribution Upgradation Project (FY2006)

- Tamil Nadu Transmission System Improvement Project (FY2012)

(More than two States)

- Rural Electrification Project (FY2005)
- New and Renewable Energy Development Project (FY2011, FY2014)
- Micro, Small and Medium Enterprises Energy Saving Project (FY2008, FY2011, FY2014)

- Dhauliganga Hydroelectric Power Plant Construction Project (FY1996~FY2004) (Uttarakhand)

(West Bengal)

- Bakreswar Thermal Power Station Project (FY2002)
- Purulia Pumped Storage Project (FY1994, FY2004, FY2005)

- Odisha Transmission System Improvement Project (FY2015)

- Transmission System Modernization Project in Hyderabad (FY2006)
- AP Rural High Voltage Distribution System Project (2010)
- Simhadri Thermal Power Station Project (FY1997, FY2001, FY2002, FY2003)

# 12. Business Environment Improvement

# TNIPP (Tamil Nadu Investment Promotion Program)

## *Stick & Carrot*

### ◆ Program Description :

- To further improve the investment climate through strengthening the policy framework and developing urban infrastructure such as roads, power, water and sanitation, thereby **attempting to increase foreign direct investments** in the state for sustainable growth.
- Government of Tamil Nadu and JICA jointly monitor progress of action plans in the agreed policy matrix. Based on achievement, JICA disburses the loan amount by dividing into three tranches (corresponding to each fiscal year action plan).

### ◆ Loan Amount and Disbursement :

- JPY 13 billion (≡ Rs. 650 crore)  
(7 billion for 1st tranche and 3 billion for 2nd & 3rd tranche)

### ◆ Program Duration :

- 3 years (FY2012/13 - 2015/16)

### ◆ Achievement :

- A comprehensive action plan for ease of doing business has been elaborated.
- Global Investors Meet was held in September 2015.
- Development of industry related infrastructure (e.g. sub-station, road, water supply) has been accelerated.

110kV Substation at One Hub Chennai Industrial Park

Access Road to Kamarajar Port (Ennore Port)

**After the success of TNIPP,  
TNIPP Phase 2(Mar. 2017) and GIPP(Sep. 2017) were signed !**

# Ongoing Investment Promotion Program (IPP)s

## TNIPP Phase 2

Loan signing: March 2017

Program Duration: FY2016/17 – FY2018/19

Loan Amount: JPY 22,145 million  
(Roughly INR 1,300 Cr.)

Policy Area: Infrastructure Development/  
Skill Development/ Single window system/ MSME  
promotion

Construction site for Sojiz Motherson 110kv substation  
with associated 110kv lines Kancheepuram district

## Gujarat Investment Promotion Program (GIPP)

Loan signing: September 2017

Program Duration: FY2016/17 – FY2018/19

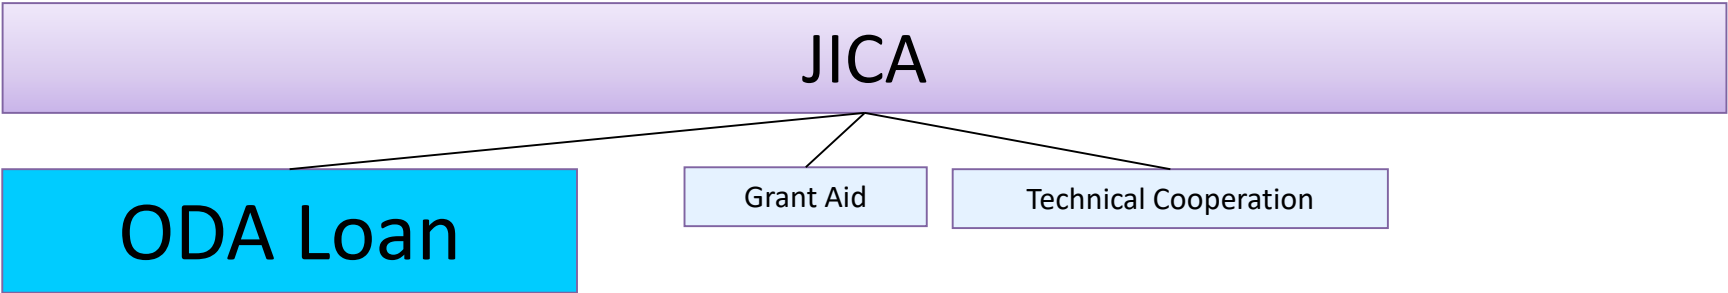

Loan Amount: JPY 16,825 million  
(Roughly INR 1,000 Cr.)

Policy Area: PPP promotion/ Industrial  
Development/ Single window system/  
Administrative process/ Skill development/  
Infrastructure Development

Widening State Highway, Road Infrastructure in TP -  
1,2&3 in Mandal Becharaji Special Industrial Region  
(MBSIR)

# JICA Cooperation Framework and Investment Promotion Program Loan

## Concept of Investment Promotion Program Loan

Policy Area	1st Fiscal Year	2nd Fiscal Year	3rd Fiscal Year
Policy A (Ex. Business procedure)	•Action A	•Action A'	•Action A''
Policy B (Ex. Human resource )	•Action B	•Action B'	•Action B''

# 14. Key Message towards “Sustainable Development”

# Towards sustainable development

# Major Points of Indian Budget 2018-2019

## Growth and Inflation

- GDP outlook by Economic Survey, GoI  
**FY2018; 7.0~7.5% (FY2017; 6.75%) (8% Target)**

## Fiscal Policy

- Budget Deficit (GDP Ratio) : **3.5% (FY2017) → 3.3% (FY2018) → 3.0% (FY2020)**
- Focusing on **Rural Development** and **Infrastructure (20.8% ↑)**

## Agenda for FY2018

- Launching National Health Protection Scheme - Coverage upto 5 lakh for over 10 crore families
- Expanding Minimum Support Price (MSP) for major crops at least at one and a half times the cost
- Expanding Reduced Corporate Tax for SMEs : Companies upto annual turnover 250 Crore Rupees

## Infrastructure

- ◆ **Budget for Infrastructure : Rs. 5.9 lakh Cr (20.8% ↑)**  
**c.f. Former 12<sup>th</sup> five year plan envisaged over Rs. 10 lakh Cr/year averagely.**  
**USD4.5 lack Cr demand for investment by 2040 (Economic Survey 2017-18)**  
**for National Highway, DFC, HSR, Water and Sanitation, Smart City, DRR...**

**More fund mobilization for Growth/Infrastructure !**  
**(But budget has restriction...)**

### ○Economic Growth Outlook

		FY2016	FY2017	FY2018
GoI	Feb. 2017	6.5~6.75%	6.75~7.5%	7.0 ~7.5%
RBI	Feb. 2018	6.9%	6.5%	7.4%
IMF	Jan. 2018	7.1%	6.7%	7.4%
WB	Jan. 2018	7.1%	6.7%	7.3%
ADB	Sep. 2017	7.1%	7.0%	7.4%

## 【Reference】 Public – Private Partnership in India

### PPP model expanded rapidly in infrastructure sectors, such as road, port and power projects, especially in 2000s

- Significant rates/portions in several sectors, such as road and power, were implemented by PPP.
- Several schemes such as BOT-Toll and BOT-Annuity models have been developed.

### PPP seems to have been facing difficult situations in 2010s

- *Shortage of “bankable projects”.*
- Challenges for designing proper Public-Private risk / burden sharing.

### Ease of Demand/Supply gap is the biggest challenge

- Infrastructure development needs are still gigantic. (USD 4.5 lakh Cr by 2040)
- GoI envisaged a large amount of private sector infrastructure investment, i.e. Rs. 5 lakh crores yearly (= 48% of Rs. 55.7 lakh crores during 2012–2017), to be realized.
- Role of Public to attract private sector’s investment is significantly important and growing.  
ex. Investment related infrastructure development by Public,  
Proper P-P risk sharing, through VGF, EBF, off-taker risk standby finance, proper HAM, etc...

# ***JICA can facilitate Private sector participation for Sustainable Development***

## **Fastest growing large economy in the world**

"In this cloudy global horizon, India is a bright spot."  
(IMF 2015.3)

## **Largest population in the world (in 2024)**

Over 60% are at working-age (15-59 years) and  
over 50% are less than 25 years old

## ***Growing Indian market***

## **"Tokyo Declaration for Japan-India Special Strategic and Global Partnership"**

Over Rs. 2 lakh crore of public and private investment and  
financing to India from Japan in 5 years.

## ***Special Bilateral relationship***

## **Japanese companies are now targeting India as the promising business destination**

>Promising business destination of Japan's overseas  
business (No.1 in JBIC 2014 - 2016)  
>Roughly 70% of the Japanese companies in India  
planning business expansion (JETRO 2017)

## ***Positive Attitude of Private Sector***

## **JICA's function for business environment improvement**

>Infrastructure development,  
>Support for legal system development and  
internationally standardized contract management,  
>Human Resource Development,  
>Support to Develop PPP (Public Private  
Partnership) Projects, etc.

## ***Various Schemes of JICA***

## **Risk factors still exist. The challenges remain to reduce the business risks.**

infrastructure, laws & regulations, etc

## ***Risks still exist***

# Thank you!

# આભાર

# धन्यवाद
