

JICA Grant Aid Project

The Project for the Reconstruction of the Naryn River Bridge on the Bishkek-Osh Road for Enhanced Connectivity with the Trans-Caspian International Transport Route

Project Purpose: improve the connectivity between the Kyrgyz Republic and neighboring countries by reconstruction of the Naryn River bridge on the Bishkek-Osh road, thereby contributing to secure smooth and safe traffic and transportation .

Project Period: 2026-2032

Implementing (Counterpart) Organization(s): Ministry of Transport and Communications of the Kyrgyz Republic

Estimated Project Cost*: JPY 3.19 billion (USD 20.27 million)

Project Site: Jalal-Abad Region

Condition of the bridge prior to reconstruction

* Japanese side assessments at the ex-ante evaluation stage

* By official JICA rate as of Oct 2026 USD = 157.391

Expected Outcomes:

The connectivity with the Trans-Caspian international transport route is enhanced through reconstruction of the Naryn River bridge on the Bishkek-Osh road, thereby contributing to secure smooth and safe traffic and transportation.

Key Activities:

- Replacement of the bridge over the Naryn River (L = 190 m) on the Bishkek–Osh highway.
- Construction of riverbank protection works upstream and downstream of the Naryn River bridge.
- Reconstruction of the bridge approaches with a total length of 450.0 m.
- Road safety improvement measures, including the installation of pedestrian crossings, road signs before and after curves, road markings, and other traffic safety facilities.
