## Do you know “Salender Bridge”?

JICA has implemented many projects countrywide, in its 60 years of cooperation with Tanzania, however, did you know that the Selander Bridge in Dar es Salaam was constructed by JICA support?

JICA in cooperation with Tanzania constructed Selander Bridge in 1980.

The grant aid scheme saw the new 1km 4-lane highway and the new expanded 75m Selander Bridge (21.25m width) to relieve traffic congestion in the city.

Its quality persists and continues to alleviate the chronic traffic congestion, which has been experienced along the New Bagamoyo Road.

Selander Bridge has a plaque, which bears the symbol of Mount Fuji (the highest Mountain in Japan). This signifies the extent, which Japan is attached to the bridge.
