

Industrial Human Resource Development through Employment in Japan (GROW) (Technical Cooperation)

PROJECT OVERVIEW

The project promotes the development of industrial human resources in Uzbekistan by supporting decent employment opportunities for Uzbek migrant workers in Japan. The project works with the Migration Agency and other relevant institutions to improve access to reliable information on employment in Japan, expand employment opportunities in different occupational fields, enhance recognition of skills and work experience gained in Japan, and encourage the effective utilization of returning workers' experience for Uzbekistan's industrial development.

PROJECT OBJECTIVE

The project aims to contribute to Uzbekistan's industrial development by promoting decent work for Uzbek migrant workers in Japan and facilitating the acquisition, recognition, and utilization of skills and work experience gained through employment in Japan.

PROJECT OUTLINE

Project Duration

Mar 2024 - Mar 2027

Implementing Agency

Ministry of Employment and Poverty Reduction

Target Areas

Whole Uzbekistan

Expected Impact

- ✓ Improved access to quality employment opportunities in Japan for Uzbek workers
- ✓ Better protection and promotion of decent work for Uzbek migrant workers
- ✓ Increased contribution of returning migrant workers to Uzbekistan's industrial and economic development
- ✓ Enhanced recognition and utilization of skills and work experience acquired in Japan
